OFFICIALS ARE SCORED

ATTEMPT TO INTIMIDATE JURORS CHARGED BY LAWYER

Ben Lacer Acquitted in Local Court on Charge of Stealing Typewriter From Ship Corporation.

The officials of Multnomah County caused to be published a statement reflecting on the integrity and reputation of more than a score of jurors of the present panel for the bringing of convictions in the trial of criminal cases was the charge hurled in Circuit Judge Gantenbein's court yesterday by attorney Tom Garland, in his defense of Ben Lacer, shipyard worker charged with the theft of a typewriter from the Peninsula Shipbuilding Company. Lacer was found not guilty.

Lacer was attacked this jury panel through the press; they have attacked your character and your worth as citizens in order to frighten you into bringing in verdicts of guilty against men they prosecute in these courts," he declared in his closing argument.

Lacer was formerly employed by the Peninsula Shipbuilding Company. A typewriter which disappeared from the plant was found at his home several months later, after he had quit working there. The machine was identified as being the same machine by the factory number.

Lacer denied he had stolen the machine, but secured it in a trade by inserting a want ad in one of the local newspapers.

The prosecution showed that the machine was found at Lacer's home when police inspectors searched his place for tools which had been stolen. The machine was also discovered, and Lacer pleaded guilty to a charge of simple larceny in Municipal Court and paid a fine of \$25.

Simple Way to End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Adv.
