Rt. Rev. William Ford Nichols Delivers Sermon Address at 30th Annual Session.

CLERGY SPURRED TO WORK

Bishop Sumner's Report Occupies Place of Importance in Day's Programme—Hospital and St. Helen's Hall Prospering.

"Let us bomb the submarines of Kaiserism, of petty jealousy, of personal ambition, of selfishness, and let us have a dominant sense of sacrifice and service." This message, an extract from the sermon-address of the Right Rev. William Ford Nichols, given at the opening session of the thirtieth annual convention of the Episcopal churches of the diocese of Oregon...

Bishop Nichols Spurs Clergy. Bishop Nichols urged the clergy to "get away from the dreary, the comfortable slippers and the interesting book and get out into the parish and know the people and help them, and knock out the idleness that Episcopal clergymen aren't made to be pastors."

Report on Finances Given. Bishop Sumner reported for the various funds and branches of work that some of the "brightest" of the "time has come," he said, "when there is no more cash on hand." Suggestions were made that the temporary emergency be met by an assessment on the parishes.

Reference was made to the condition of securities of the former Bishop Scott school and the bishop stated that the lease on the property on Trinity Place is not being met by those who made it, and that the property in the hands of the school is in a fast deteriorating condition, having been badly constructed. He stated that "it is a question in the minds of some whether it is better to sell the school as it is now, or to have it fastened as some assets to the diocese," said the bishop.

Rev. John D. Rice was elected secretary of the diocese and Rev. J. H. Bowen, assistant secretary. The evening programme was devoted to a discussion and study of missions.

At 10 o'clock the women of St. Stephen's served an Oregon luncheon in honor of the visiting clergy and delegates. At the head of the table was placed a bowl of flowers in honor of Bishop de Pencier, some California poppies before Bishop Nichols, and some Oregon roses before Bishop Sumner.

GENERAL PERSHING CHARGED.

"I think that the order to keep General Wood out of France," said one influential Democratic Senator, "is a serious tactical blunder. General Wood is the most popular officer in the Army, and if for no other reason, this move is a blunder from a purely psychological standpoint."

BUCK PASSED TO PERSHING.

It was stated that General Pershing had forwarded a list of officers he desired sent to France and that the names of General Wood and General Bell were omitted.

DOUBT CAST ON STATEMENT.

Friends of General Wood, however, emphatically disputed the truth of the assertion that General Pershing does not want General Wood in France.

It was the turn of the 316th Engineers last night, and the Associated Press correspondent was permitted to witness the practice.
