Oregon Pears and Prunes in Good Condition-Half Crop of Cherries-Washington Apple Output Promises Increased Yield.

A fruit crop bulletin was issued yesterday by Robert L. Ringer, in charge of the local office of the Bureau of Markets, which shows crop conditions in Oregon and Washington. The reports, while authoritative, are not official. The bulletin follows:

CHICAGO, June 4.—Corn railied briskly today from the bearish effects of the submarine raid. Prices closed firm, 2c to 3c net higher, with June \$1.80% and July \$1.33% to \$1.33%. Oats gained for 12%c and provisions 20c to 60c.

It was evident from the outset that the flurry over U-boats had come to an end, so far as the corn market was involved. Belling pressure, which was so obvious the previous day, had greatly diminished.

Activity by scaboard exportures helped to lift the value of oats. The market was likewise stimulated by the upturns in the corn market.
