BAD MEAT OFFERED

Packers Deny They Sold Unfit Food for Army Use.

WILSON & CO. MAKE REPLY

Representatives of Big Chicago Corporation Appear to Make Defense—England Declared Safe From Famine.

WASHINGTON, June 6.—Further evidence of the sale or offering for sale of unfit meat for the Army has been discovered by the Federal Trade Commission, W. T. Chantland, chief examiner, declared today when representatives of Wilson & Co., Chicago packers, appeared to deny charges that they have sold unfit meat.

Food Administrator Hoover's declaration that prohibition should be by legislation, and not by "forcing the food administration to be responsible for a cry of drunkenness," drew from Representative Randall, of California, today the statement that a full war prohibition measure will be urged in Congress at this session.

Wilson's Letter Read.

President Wilson's letter to Senator Sheppard, of Texas, opposing Representative Randall's amendment adopted by the House to make unavailable a \$1,000,000 agricultural appropriation unless the President exercises powers under the food control act to prohibit the use of grains in making beer and wines, was read to the Senate today.

"Frankly I was very much distressed by the action of the House," said the letter. "I do not think that it was wise or fair to attempt to put such compulsion on the executive in the matter in which he has already acted almost to the limit of his authority."

So many patriotic housewives have offered to supply canned and preserved fruits and vegetables to the Government that the food administration tonight issued an announcement explaining why the offers cannot be accepted and emphasizing the necessity for the continuance of canning and preserving for civilian use.

The statement points out that no Governmental department is permitted by law to accept an article without paying for it, and says that even if home preserved foods could be legally bought their purchase would be impossible because of the difficulties connected with inspection and necessity for close packing to save space in ships.

Splendid Spirit Praised.

"This splendid spirit is extremely praiseworthy," said the food administration's announcement, "and it can be turned into channels that will do exactly as much for our army forces and the allies as though it had provided them with millions of cans or jars of home preserved food."

WOMAN HANGS HERSELF

ADJUDGED INSANE, ASYLUM IMPRISONMENT IS ESCAPED.

Mrs. Melissa Murray, Aged 53, Resident of Buhl, Idaho, Uses Stockings to Commit Suicide.

TWIN FALLS, Idaho, June 6.—(Special.)—The death of Mrs. Melissa Murray, age 53, wife of J. E. Murray, of the neighboring town of Buhl, yesterday adjudged insane in a probate court hearing, was found Wednesday hanging from her cell door in the county jail here, where she was confined awaiting the arrival of an at-

tendant from the Blackfoot State Asylum.

The Sheriff in his rounds about midnight glanced into her cell she was lying quietly on her cot fully dressed. Soon after, apparently, she removed her stockings and then into a loop, one end of which she hung over the hinge of the door, with the other about her neck. The loop was so low she had voluntarily lifted her feet from the floor to effect death by strangulation.

Death had occurred evidently without a struggle.

The coroner's jury at 5 o'clock this evening gave a verdict of death from self-inflicted strangulation.

Besides her husband, she leaves two daughters, Mrs. Charles Dearing and Mrs. John Siebert, of Buhl.

GENERAL MICHIE DEAD

AMERICAN ARMY OFFICER PASSES AWAY SUDDENLY.

Death of Well-Known and Brilliant Soldier Occurs on Train Near Rouen, France.

PARIS, June 6.—General Robert E. L. Michie, of the American Army, died in a railroad train near Rouen yesterday. His death was sudden and unexpected, as he had not been ill.

WASHINGTON, June 6.—News of the sudden death of General Robert E. L. Michie, near Rouen, France, yesterday, came as a shock today to War Department and army circles. He was a brilliant soldier.

For a long time General Michie was chief aide to General Hugh L. Scott, former chief of staff of the Army, and had accompanied the latter on numerous missions of importance. Chief among these was General Scott's trip to the Plateau Indian country in Utah, where he quelled an uprising among the Plutes. When General Scott visited the Mexican frontier at Francisco Villa, and when he conferred with the Mexican authorities at El Paso, General Michie's assistance was of great value. He also accompanied General Scott with the American mission to Russia last year. He was a native of Virginia and was 54 years old.

CENSORS WORRY GERMANS

Two Deputies Make Protest in Open Setting of Reichstag.

AMSTERDAM, June 6.—Allegations that the German censorship is growing more stringent were made at the opening sitting of the Reichstag Tuesday by Baron von Rechenberg of the Centrist party and Deputy Bauer, a Socialist.

Matters were growing continually worse, Deputy Bauer said, and the censorship had increasingly placed itself in service of the "lust of conquest," even meetings for equal suffrage being forbidden although their aims coincided with Government policy.

The feeling among the people was becoming even more exasperated, the deputy added.

LIBRARIAN TO GO TO CAMP

Mrs. Kidder, of O. A. C., Has Position at Army Cantonment.

CAMP LEWIS, Tacoma, June 6.—Mrs. Ida A. Kidder, librarian of the Oregon Agricultural College at Corvallis, is coming to camp next Monday as librarian for the base hospital. The library work at the hospital is to be extended considerably.

The gift of a medical library from the Washington State Medical Association was announced today. It will be used to supplement the base hospital library and will be accessible to enlisted men of the medical corps who are detailed to the use of the hospital library and doctors stationed at regimental infirmaries.

Americans Arriving From Cuba Say Huns Flourish in Carranza's Land—Cuba Forces Mexican Club in Havana to Vacate.

NEW YORK, June 6.—A steamship from Cuba which arrived recently at an American port had among her passengers Frank McNeeney, father-in-law of Murray Hulbert, Commissioner of Docks and Ferries. Mr. McNeeney has been spending the Winter months in Havana for the last 50 years. He said that 40,000 Germans had crossed from the United States over the border into Mexico since the outbreak of the European war.

It was the aim of the Germans in Mexico, he said, in some way to embroil the United States with that country for the purpose of inducing America to send troops across the Rio Grande and thus divert as far as possible this country's attention from the war in Europe.

Other passengers said the Cuban authorities had forced the Mexican Club in Havana, which had its quarters in the former Miramar Hotel, facing the Gulf of Mexico, to vacate these quarters because of the location of the building on the seashore.

The passengers asserted that the feeling between the two countries had been so bitter that the Mexican Minister to Cuba on May 20, Cuban Independence day, when President Menocal reviewed a big parade, declined to sit with the president in the reviewing stand.

With flour at 50 cents a pound, except to a favored few, the food situation in Cuba was still serious according to Senator Luis A. Baralt, the new Cuban Minister plenipotentiary to Peru, who was accompanied by his wife and their daughter, Blanca.

Sugar was being sent out of Cuba in larger quantities now, since the United States assigned more cargo ships to the trade, said Senator Baralt, and the ship arriving the other day brought the largest sugar cargo she ever carried—22,000 bags, or about 7,150,000 pounds.

FARM HOME DESTROYED

Paralyzed Daughter Sees Flames but Is Unable to Give Warning.

REST AT THE CHATEAU LAKE LOUISE

Amid Swiss scenes in the Canadian Pacific Rockies—windows framing million dollar pictures of peaks and glaciers

"In the Lake, ever changing, is Beauty herself, as nearly visible to mortal eyes as she may ever be. The water, beyond the flowers, is green, always a different green. Then a little wind awakes in the distance and ruffles the surface, yard by yard, covering it with a myriad of tiny wrinkles, till the lake is milky emerald while the rest still sleeps. And at length the whole is astir and the sun catches it and Lake Louise is a web of laughter, the opal distillation of all the beds of all the Spring."

WESTPORT, Wash., June 6.—(Special.)—Wilmer Dusenberry, 12, investigating the pull of the trigger on a small shotgun with the business end pointed at his toes, found out to his satisfaction, and Dr. McIntyre, U. S. A., extracted 16 shot from the young man's

toes. This occurred in Westport yesterday. Wilmer is the son of the assistant lighthouse keeper at this point.

Or, president of the synod, delivered the president's address this morning and asked the people "to consecrate themselves and our talents to the cause of righteousness and inspire our people to make all needful sacrifices." At the close he recommended the appointment of a committee to draw up resolutions pledging the support of the Lutherans to the utmost to the cause of the United States in its war against Germany.

AN ATLANTIC PORT, June 6.—What he now believes was a German submarine supply ship masquerading as a neutral trader was sighted off the Virginia capes on May 25 by Captain Ray, of the American schooner Joel Cook, which reached here recently.

"At the time I attached no significance to the incident, but on reaching this port and learning of German submarine activities down the coast, I communicated what I had observed to naval authorities," said Captain Ray today.

"I was off Fenwicks Island lighthouse (off the Virginia capes) on the 25th, when I sighted two submarines, which I took to be Americans on trial cruises," the skipper said. "They were big fellows—bigger than I thought submarines were made. They seemed to be trailing a steamer, but after a time this steamer, strangely enough, dropped astern of me, then speeded up and came alongside without hailing me. A mist then set in and I lost sight of her. There was no distinguishing mark on this vessel and she flew no flag."

Off the Fenwicks Island lighthouse Captain Ray said he observed two gray cylinders, which he believed were mines.
