

FALLING CONTESTANT NEVER SAW COUSIN

Dr. W. Tyler Smith Admits Not Speaking to Relative, Although Living Near Long.

CASE IS REOPENED HERE

Evidence Produced to Establish Relationship of Witness to Mrs. Xarifa Faling, Whose Will Former Is Contesting.

Dr. W. Tyler Smith, who is contesting the will of the late Xarifa J. Faling, whose estate is estimated to be worth \$100,000, admitted on cross-examination by John F. Logan, of counsel for the estate, in County Judge Tazewell's court, that he never saw nor spoke to Mrs. Faling during her life. He made the further admission that he never saw the woman or her body until the time of her funeral in July, 1917, although he came to Oregon in 1877. Mrs. Faling was then living in Portland and, with the exception of a short absence in San Francisco, resided here continuously until her death, 40 years later. During this time Dr. Smith lived in Oregon.

The contestant, Dr. Smith, also admitted that in 1888, although a first cousin to Mrs. Faling, he never went to see her or proffer his assistance in any way, although at that time she was on trial for the murder of her husband. Neither did he, according to his own testimony, attend the funerals of Charles and Cornelius Barrett, brothers of Mrs. Faling, from whom they were estranged.

The greater part of yesterday's hearing, which was continued until Thursday, was taken up in the introduction of depositions and certified copies of birth and marriage records which were recently received from England for the purpose of establishing the relationship of Dr. Smith to Mrs. Faling.

Evidence is offered. A mass of other documentary evidence, musty and dust-covered, was offered by counsel for the contestant. These papers dated from 1872 and were taken from the Multnomah County files for the purpose of proving the death of the late Xarifa Faling, the mother of Mrs. Faling and showing that Mrs. Faling was the daughter of Charles and Mary Elizabeth Barrett.

Certified copies obtained from England, were introduced to prove that the maiden name of Dr. Smith's mother and Mrs. Faling's mother was Yearseley. By the same name the mother of the two women was established, the one to Charles Barrett and the other to William Tyler Smith, the fathers, respectively, of Mrs. Faling and Dr. Smith, the contestant. The births of Mrs. Faling and Dr. Smith were likewise proved by the same evidence.

The certified copy of the marriage record of William Tyler Smith and Tryphena Yearseley, parents of Dr. Smith, in 1826, and the marriage record was witnessed by John and Emma Yearseley, who, it is contended by counsel for the estate, were uncle and aunt, respectively, of Dr. Smith.

Witnesses Are Named. Likewise the record of the marriage of Charles Barrett and Mary Elizabeth Yearseley, parents of Mrs. Faling, was witnessed by John and Emma Yearseley, alleged by representatives of the estate to be brother and sister, the same uncle and aunt of Dr. Smith.

PLAYGROUNDS TO OPEN

PARK SUPERINTENDENT GUARANTEES CHILDREN GOOD TIME.

Official Date is June 22, but Six Will Be Ready for Use by Little Folks Next Saturday.

Portland's playgrounds in the various city parks will officially open Saturday, June 22.

The children will not be forced to await this date before they are allowed to utilize the recreational grounds in some of the parks, because the playgrounds will be opened informally next Saturday. Not all the apparatus will be installed, but enough will be in operation to guarantee the youngsters a good time, according to Park Superintendent Keyser.

The swimming tanks in the various parks will not be ready for use until the official opening date for all playgrounds. Attendants and instructors will be assigned to the playgrounds open Saturday.

Sixteen playgrounds will be used this year throughout the city. The park bureau expects heavier attendance this year because of the growing interest in systematic park instruction. A recent examination held by the Civil Service Bureau gave the park department a list of competent park instructors to draw upon. Many of these women have already been assigned and are being given preliminary instruction.

Special attractions are being worked out in connection with the year's programs for the playground. This special work will be announced later by Park Superintendent Keyser.

WORKERS GET READY

War Savings Stamp Drive Is Being Organized.

OREGON QUOTA \$17,500,000

Field Commissioners Delegated to See That Campaign Machinery Is in Order Begin Their Duties This Week.

Field commissioners for the war savings stamp drive, on June 23, will begin their duties this week. The task of the field commissioners is to look after the county organizations throughout the state and see that the machinery is in perfect order for the task of pledging \$17,500,000, which is Oregon's quota.

Four of these field commissioners received their final instructions from Assistant State Director C. N. Wonnacott yesterday and they are prepared to start out. H. E. Witham will be at McMinnville June 16, at Dallas June 18, and at Corvallis June 19. John L. Ehrbridge will be at Roseburg June 17, Grants Pass June 18, Medford June 19 and Klamath Falls June 20. George Bowen will be at Prineville June 16, Bend June 17, Madras June 18, The Dalles June 19 and Hood River June 20. D. C. Freeman will be at Moro June 16, Condon June 16, Forest June 17 and Heppner June 19. Otto Hartwig will be at Bend last night.

Other field commissioners will be appointed and assigned before the end of the week and by June 20 the organization of the committee in each county is expected to be complete. These commissioners are to meet with and advise the executive committees of the counties under their charge and to attend such county conferences as may be called.

It is planned to have successful mass meetings held in every school district in the state at 8 p. m. on June 28 and to see that each school district and county pledges at least its quota of war savings stamps. The preliminary work is educational and to obtain

pledges from the wealthier taxpayers to facilitate the signing up on the day proclaimed by the President and the Governor.

At the Courthouse last night instructions were given to the county road supervisors for Multnomah County by A. A. Muck and H. E. Reed. These supervisors will be responsible for the sales outside of Portland.

Sam's immediate representative perfected organization last night of the Federal Service War Savings Club at the Central Library. The club has been in process of formation for some time and last evening was completed. The primary purpose of the club is to promote economy and to purchase war savings stamps. The two things which President Wilson asks everyone to pledge himself to do on June 28.

The meeting was opened by George W. Caldwell, chairman of the speakers' bureau of the war savings stamp campaign, who outlined the war savings stamps history and the two organization such as that of the Federal employees. George Arthur Brown was the principal speaker and went into details in an educational talk on the stamps. A talk on personal experience in the war zone was given by Dr. J. D. Flammason, who was attached to the LaGrande hospital unit, part of the Rainbow Division, now overseas.

Help Prevent Disease

Did you ever wonder why you do not have good health? Did it ever occur to you that clean food put into an unclean mouth poisons that food, and when it enters the stomach it is in a condition unfit for digestion. And yet, because you cannot see it in your mouth, you go on neglecting it until you are sick. It is a well-established fact that bad dietary influences affect the offspring. Improper diet is like a slow poison. It is the most prolific source of lack of vitality and proper development, and this is especially true of the teeth. If young children are given food deficient in lime salts, their teeth will be soft, and will be less powerful in their decay. Our teeth, with ordinary care, should last a lifetime. Man should die of old age rather than from some preventable disease at a premature age.
