Decrees Against Bee Publishing Company Upheld by Supreme Tribunal.

EFFECT IS FAR-REACHING

Although Given Wide Latitude i Discussion of Affairs, Court Rules That Press Is Subject to Restraint.

WASHINGTON, June 10 .- Federal court decrees prohibiting newspapers from publishing articles held to embarrass the administration of justice, although not acts committed within the presence of the courts, were sustained today by the Supreme Court in uphold-ing judgment against the Toledo News-paper Company, publisher, and N. D. Cochran, editor-in-chief of the Tolede, Ohio, News-Bee, for contempt of court. Chief Justice White rendered the opinion. Taking up the contention of defendants that the act authorizing courts to punish for contempt was inapplicable because the publications complained of related to a matter of public concern and were safeguarded by the secured freedom of the press.

Press Subject to Restraint. "We might well pass the proposition by because to state it is to answer it, since it involves in its very statement the contention that the freedom of the press is the freedom to do wrong with

press is the freedom to do wrong with impunity and implies the right to frustrate and defeat the discharge of those governmental duties upon the performance of which the freedom of all, including that of the press, depends. "The safeguarding and fructification of free and constitutional institutions is the very basis and mainstay upon which the freedom of the press reats, and that freedom, therefore, does not and cannot be held to include the right virtually to destroy such institutions. It suffices to say that however complete is the right of the press to state public things and discuss them, that right, as every other right enjoyed in public is things and discuss them, that right, as every other right enjoyed in human society, is subject to the restraints which separate right from cultural College, Corvallis, is registered at the Seward.

Declaring it contrary to practices in this country and our ways of thinking "for the same person to be accuser and sole judge in a matter which if he be sensitive may involve strong personal feeling," Justice Holmes in a dissenting opinion declared he was unable to "find anything that obstructed the administration of justice in any sense" in this case.

Germany, Balked in Field, Held to Be Attempting to Subjugate the Women of French Republic Through Motherhood.

CHICAGO, June 10 .- Germany, balked n its effort to conquer the manhood of France, is attempting to subjugate the women of the republic through motherhood, while the women of the United States, unheeding the call of their French sisters, are "loafers, go-ing about in high-heeled shoes, seeking to be entertained by the story of the war," Dr. Esther Lovejoy declared in an address here today. Dr. Lovejoy, former health commissioner of Portland, Or., was speaking before the Medical Women's National Association.
