An honorary degree of doctor of divinity was conferred upon President Carl Gregg Doney. Dr. Doney is in France at present in the interest of the Y. M. C. A.

Kultur and Culture Compared.

Mr. Piper's address was timely and instructive. He dealt with the war, bringing the present conditions very close to the graduating class. "If we lose the war it will be because God in His wisdom has seen fit to dethrone the American ideal and all it means, and to enthroned the German ideal with all that it means," Mr. Piper carefully traced the ideals of the two nations down through history, contrasting the peaceful, liberty-loving ideals of America as they have shown themselves with the military and autocratic ideals of German "kultur" as it has expressed itself.

Mr. Piper also showed the untruth of the statement that America does not realize that it is in the war. America is sympathetic to the war when Belgium was invaded, spiritual in the war since the Lusitania, and actually in the war since the President of the United States personally appeared before Congress and called the nation to arms. America has shown in a thousand ways that it is in the war. The individual American who war and knows it, and will do his part.

In concluding, the attention of the class was called to the fact that greater tasks were imposed upon them than upon any of the preceding 73 classes.

Portland's record in shipbuilding has been set forth sympathetically in a communication of the Portland Ad Club sent to Collier's Weekly calling attention to the oversight of a writer for that publication who, in telling the story of Pacific Coast shipbuilding recently, failed to mention Portland. W. F. Strandberg was chairman of the committee and put the matter up to the New York editor in a manner inviting correction of what appears to have been a deliberate slight.

It was a programme of lively interest, that at the Ad Club meeting last night. Sadie Sherman, of the Hippodrome sang "There's a Service Flag at Our House," and so insisted were the Ad Clubbers in their applause that she sang the song a second time and won a standing vote of appreciation.

Rabbi Jonah B. Wise delivered an address on the selection of good reading, including in his recommendations Washington Irving's "Astoria," the works of Mark Twain and Charles Dickens.

C. C. Chapman brought to attention of the members the plight of the logberry-growers with a splendid yield of fruit on the vines and a dearth of pickers. He urged the club to assist. It was suggested that 15 members form a vacation party to assist in the harvest.

Uncle Sam's Kanning Kitchen, under the auspices of the National League for Woman's Service, will open this morning in the Sargent Hotel, corner Grand and Hawthorne avenues. Mrs. F. S. Mrs. Lee Davenport is chairman of the kitchen, and she is to be assisted by clubwomen, school teachers and women in different organizations. Lincoln High School tomorrow morning 150 pupils will start addressing 55,000 postal-cards containing a copy of President Wilson's proclamation of National Thrift Day.

With a spectacular and carefully planned "stunt" the "Marine week" recruiting party drew between 2000 and 3000 persons to the Liberty Theater at 9 o'clock last night.

As the chief's car, steamer, hose wagon and aerial truck started racing from fire house No. 1 the Marines touched off great quantities of red fire and started a fusillade of firing with rifles. Everyone on the streets for blocks, rushed to the scene.

Corporal Fred K. Hollister, from the traveling fortified castle, addressed the crowd, calling for Marine recruits. Several young men signed application cards, bringing the total of likely recruits of the day to 13 or 14.
