

WAR GUILT PASSED ALONG TO AUSTRIA

German Socialist Deputy in Reichstag Speech Blames Kaiser's Ally.

U. S. WAR PROGRESS CITED

Fact That 700,000 American Troops Are Now in France Used to Heckle Foreign Minister von Kuehlmann.

WASHINGTON, June 27.—German Socialists heard of Secretary Baker's announcement on June 10 that more than 700,000 American soldiers had been sent to France in time to use the information in heckling Foreign Minister von Kuehlmann during his speech in the Reichstag.

Advices reaching France through a neutral country and received here by cable today quote the Socialist Deputy, Heare, as blaming the war on Austria, denouncing the policy of the German government and ridiculing the failure of the submarines to keep American soldiers out of France. He said in part: "Many times we have been told that victory is ours. On the first of January, 1917, when the submarine warfare was begun, Herr Helfferich assured us that America would not take any active part in the war. Admiral von Capelle marked his entrance into the war with an infamously result which amounts to nil."

Submarines Held Fault.

"Now there are 700,000 Americans in France. The submarines have not been able to keep them in an war. "This war was caused by Austria. The Finnish movement, that we imagined, in pure wind. The situation of Estonia and Livonia under our occupation is deplorable and hopeless. That is what they pompously call liberation of the smaller peoples from Russian oppression."

If the Russian people rise again it will be a life and death struggle between us.

LONDON, June 27.—The removal from office of Dr. Richard von Kuehlmann, the German Foreign Secretary, can be anticipated, judging from comments in Conservative and Pan-German newspapers. The situation of the Berlin correspondent of the Frankfurter Zeitung says, according to a Central News despatch from Amsterdam.

Long War Predicted.

Dr. von Kuehlmann, replying to critics during the course of yesterday's debate in the German Reichstag, said: "Once legends have arisen, they are difficult to destroy, but I must declare, with a view to counter-attacking the growth of a legend, that there can be no question of my having bound myself to the idea of a long war." The foregoing was evoked by a Deputy who referred to Dr. von Kuehlmann's expectation of a war of very long duration.

MINIMUM WAGE SOUGHT

WASHINGTON LABOR OPPOSED TO NON-UNION POLICY.

Aberdeen Convention Goes on Record Pledging Support to Government During Duration of War.

ABERDEEN, Wash., June 27.—(Special.)—A request that the maximum scale for the logging industry be abolished and replaced with a minimum scale commensurate with the cost of living and not less than the scale of wages paid in the essential war industries, will be submitted to Colonel Dilligau by the Washington State Federation of Labor. The request was authorized at a session of the state federation yesterday. The convention also adopted a resolution informing Secretary of Labor Wilson of the "anti-union policy" of the Summer Iron Works. It was also requested that the food administration take action to regulate the cost of wheat substitutes. Other resolutions adopted ask for a new trial for Thomas Mooney, enforcement of the seaman's law, and that the Government take steps to settle the strike in the paper industry. The convention went on record as willing and ready to lend the Government every assistance in the prosecution of the war.

Lawmakers to Visit Battlefields.

WASHINGTON, June 27.—Another Congressional party will visit the European battle fronts in July and August. There will be 10 members, including Representatives Caraway and Tillman, of Arkansas; Eleston, of California; Young, of North Dakota; Thompson and Chandler, of Oklahoma; and Sweet and Dowell, of Iowa. They plan to leave next week.

Private Edward W. Prunier, of New Haven, Conn., also is reported a prisoner.

cause my baggage has not caught up with me. Here are a few of the things I was asked to say to the folks at home: "Tell them not to worry about me and then tell them to send more soldiers—they can't send any more until we revise the age limit from 18 to 45, if need be, but send soldiers along. We are being better cared for over here than we were over there. I like our food. We have better food and more of it. "Another thing, just tell the folks at home that the American soldiers in France, just because it has been decreed that in France they may drink light wine and beer, haven't overplayed in that direction.

Excessive Drinking Avoided. "We know we may have this stuff for the buying. There is no sneaking down dark streets or into back rooms. We know that we can get the stuff any time when not on duty, and the consequence is that the American soldier drinks one glass of wine blanc or white wine and goes to bed satisfied. "Tell them there is a soldier's joy in obeying orders because there has been a subtle thing which seems to say here are the orders, soldier, they are not hard and cruel army orders, but they are the orders of the Lord, and are placed on your individual honor. "You've got to be very careful about drinking or eating in cafes. No drinks must be on the table after 8:30, one must be out of all eating or drinking places by 9:30 and off the streets by 10 o'clock.

Health Carefully Cared For. "Tell the home folks something about our health and how carefully the commander of the Army Medical Corps is of the soldiers' health. We had drilled into us here that only when a soldier is physically fit can he be a real factor as a fighting man. "And, believe me, when we see the poilu, with his pack strung around him until he looks like Santa Claus going to Christmas trees collecting, and when that he has been doing and going this way for years, it makes one want to stay physically fit to touch shoulders with him in doing the same thing. "Tell them we all want to come home. Yes, and in the same breath tell them that we don't want to come back until we have finished the job. None of us is being fooled by that subtle and clever German propaganda stuff that is being put out from home.

"Of course, the German who surrenders and comes to our lines is being dirty, even ragged and bruised up a bit. Who wouldn't be when one's been dodging the combined steel output of the United States Army, France and Great Britain? Just the same, your captured Hun, is mighty glad to quit. Take the Hun en masse and they are nasty customers, but as individual fighters they can't even sing alone.

"Tell the Folks Not to Worry." "Last of all tell the folks not to worry so much about us. We are winning, and are a part of the birth of the new American Army. "We also notice and with great pride, that the great soul of America is being born anew. We see it being born both in the front line trenches and in the vast preparation going on night and day behind the lines. "The French soldier has been greatly heartened by the colossal things which under the merciless onset of German and Italian tanks, he has done and is doing and has done. It was not until when we came over. That question on every Frenchman's lips, not only of the higher rank but the poilu as well, when is your great American Army? has been settled. "They waited for years, and now that the Americans have arrived and are arriving, there is great rejoicing. "When I returned I came back on a Government transport. We sighted no submarines, but now that the war zone extends all the way, it was a case of watchful waiting all the way over. Before I sailed the second phase of the German drive had been stopped. Judging from what I know of the situation, the Germans will never get into Paris, not even so close this time or later as they did in 1914.

Oregon Regiment Broken Up. In one of my previous letters I made mention that the division had been called together and was now a replacement division. This means that the men in regiments from the Pacific Northwest have been scattered and fed into the units that are fighting the enemy.

While the Oregon fighting men were disappointed by the fact that the regiment had been broken up, their courage was not dampened. The men knew that after all the weary months of waiting, they were at last to get the long-looked-for chance to come to grips with the Germans.

Fraud Charged by Officers. George Miller and Alva L. Morris were arrested last night on complaint of a local driver, who said they had attempted to defraud him out of taxi cab hire. In a fight which ensued before the arrival of the officers, Morris struck Miller on the head with a club that Miller had piled him with liquor.

RUIMORS OF MURDER OF EX-CZAR PERSIST

Bolsheviki Said to Have Shot Nicholas Romanoff After Expeditious Trial.

ALEXIS SAID TO BE DEAD

Report From Copenhagen Declares Son of Former Ruler of All Russias and ex-Heir Apparent Has Expired.

AMSTERDAM, June 27.—Reports that former Emperor Nicholas has been murdered in Yekaterinburg are increasingly persistent in Moscow, according to a despatch from that city (date not given), received today by way of Berlin. The Moscow newspapers, the despatch states, indicate that the recent whereabouts of the ex-emperor have not been definitely known. (This statement seems significant as in conflict with the German reports of the former ruler's removal to Moscow.)

LONDON, June 27.—Rumors are current in Petrograd that Alexis Romanoff, son of former Emperor Nicholas, died a few days ago, says an Exchange Telegraph dispatch from Copenhagen today.

GENEVA, June 27.—(By the Associated Press.)—The Ukraine Bureau at Leningrad announced today it has received confirmation of the report that the Bolsheviki authorities at Yekaterinburg condemned Nicholas Romanoff, the former Russian Emperor, to death after a short trial and then shot him.

PARIS, June 27.—A despatch from Kiev under date of Wednesday, June 26, declares that the report of the assassination of former Emperor Nicholas of Russia has been confirmed. It is declared he was killed by Bolsheviki troops during their retreat from Yekaterinburg.

WASHINGTON, June 27.—A report of the killing of Nicholas Romanoff, late czar of Russia, was received at the State Department today from Stockholm.

It was transmitted as a Swedish press report, which, according to the Soviets, "needed confirmation."

The first report of the assassination of Emperor Nicholas was received in Copenhagen from Stockholm on Tuesday, though an Exchange Telegraph dispatch later contradicted it.

Red Guards Accused. The Copenhagen message quoted the Russian newspaper Vilia as saying that Russian Red Guards had murdered the ex-emperor in his residence at Yekaterinburg, where he was removed recently from Tobolsk.

SUFFRAGE VOTE HELD UP

(Continued From First Page.)

be a filibuster developed late today when Senator Reed, of Missouri, began a long prepared speech on the Army appropriation bill with a motion pending to prevent sidetracking the suffrage amendment resolution to take up the Army bill.

Southern Sentiment Voiced. Senator Williams, of Mississippi, introduced an amendment limiting the suffrage to white citizens.

"In my section of the country we can't afford to do what this resolution wishes to be done," he said.

At 5 o'clock the Army appropriation bill was laid before the Senate, but Senator Brandegee, of Connecticut, used it as a vehicle to continue an address against the suffrage amendment. He contended that suffrage should be determined by the states.

Senator Shafroth, of Colorado, a suffragist advocate, interrupted him to ask if the war is not to preserve democracy.

"I think to make it safe for the Democratic party," Senator Brandegee replied, smiling. "All this lingo about the women of America being enslaved is pure rumpsey and foolishness. They're the queen bees of this country. A noisy minority absorb to themselves all the virtues of all the women of the country and get the ear of Congress and the newspapers."

Chamberlain Opposes Delay. When Senator Brandegee concluded, Senator Jones, of New Mexico, asked that the Army appropriation bill be temporarily laid aside and that consideration of the suffrage resolution be resumed until a final vote has been taken.

"I do not feel disposed to assume the responsibility for laying aside a measure appropriating money for the prosecution of the war," said Senator Chamberlain. "The Senator knows that I support this resolution, so I am speaking as one friendly to it."

Pointing out that a recess of several weeks is planned following passing of the appropriation bill, Senator Pittman, of Nevada, said he would oppose a recess unless the suffrage amendment had been voted on.
