Western Quota for Next Campaign Probably Will Total \$5,600,000. Urgent Call Sent Out for 3000 Secretaries.

"The thing that impressed me on my visit to the trenches was the unlimited service of the Y. M. C. A. and the fact that there was no waste in their work," said E. O. McCormick, vice-president of the Southern Pacific Company, at Wednesday's conference of the Western Wednesday's conference of the Western War Work Council of the Y. M. C. A. in

War Work Council of the Y. M. C. A. in San Francisco.

"To hear this practical man of affairs make such a statement about the work of our great organization was to me one of the most impressive things at the conference," said W. M. Laid, of Portland, Oregon representative at the meeting, who returned yesterday, "After the addresses by Dr. John R. Mott and George W. Perkins, Mr. McCormick informed me that the speakers had not told one-quarter of the story of the service which the Y. M. C. A. is giving our boys over there. When I asked him to speak he told us some of the observations of a business man in the trenches. We were convinced that the Y. M. C. A., in addition to being an organization for service to the men, also is being administered on a splendid business basis."

Proposed Quota Is Huge.

Proposed Quota Is Huge. Mr. Ladd was chairman of the West-ern division of the War Work Council, ern division of the War Work Council, which convened in San Francisco to consider what amount of money the West would contribute to the next drive of the Y. M. C. A., which will total at least \$112,000,000. The states represented in the Western Department of the Army joined in the conference. They are: Montana, Wyoming, Idaho, Utah, Nevada, Washington, Oregon and Callifornia.

The meeting brought together representative business men from all over the West, the following Oregon men being in attendance: J. C. Ainsworth, of the United States National Bank, Portland; E. E. Kiddle, grain elevator owner, of La Grande; L. J. Simpson, of Coos Bay; F. L. Chambers, banker, of Eugene; William S. Pollman, banker, of Baker; W. E. Wright, acting state secretary of the Y. M. C. A. for Oregon and Idaho, of Portland; H. W. Stone, secretary of the Y. M. C. A. Portland; E. C. Pease, merchant, of The Dalles; Frank Ransom, of the Eastern & West-

ern Lumber Company, Portland. Many Secretaries Needed.

A. is the only organization which can provide our boys with the comforts not furnished by the Government. Dr. Mott said that from the time his boat left France until it arrived in America, 213 Y. M. C. A. huts were destroyed by the Germans in the sector in which their drive was conducted. Since that last drive the American and allied governments have asked the Y. M. C. A. to do great things, and we are going to do them. Every call from overseas must be met and met prompt-ly by the American people. I am satisfled that the increasing demands on the Y. M. C. A. will be met by the Nation, for this organization is dear to the hearts of Americans.

from Portland. The call for secretaries is an urgent one and must be satisfied at the rate of 1000 men a month.

New Crop Will Be at Least 10,000. 000 Bushels Larger Than That of 1917 and Added Wealth About \$25,000,000 More.

A price of \$2.20 a bushel at Portland for wheat of the 1918 crop, as against \$2.05 for the crop of 1917, has been fixed by the Food Administration. Word to this effect was received yesterday by M. H. Houser, second vice-president of the Grain Corporation and agent for the corporation in the Northwest, and by W. B. Ayer, Federal Food Adminis-trator for Oregon.

Allowing for the 25 per cent in-

crease in the freight rate on wheat from the interior to Portland, the farmers will still receive about 12½ cents a bushel more for their wheat than they residents to exercise the greatest cau-tion in the sale and use of firecrackers and other explosives of the Fourth of July.

The new crop will be at least 10,000,000 bushels larger than that of

to the grain producers will be about
\$25,000,000 over what they received last

with the establishment of the \$2.20 basis for the Pacific Coast, the farmers are given all and a little more than they had asked for and been promised," said Mr. Houser yesterday.

"Figuring the last Spring basic price at \$2.30 at New York and \$3.50 per ton freight and the loading charges here and the unloading on the Atlantic Coast would leave a net price of \$2.17 to \$2.18 per bushel."

Eastern wheat prices have not yet been decided on. It is possible they will range somewhat higher than they did last year on account of increased freight rates from the Middle West to the seaboard.

"On account of the submarine activity and other unforeseen obstacies that have arisen," said Mr. Houser, "it is more than likely the Shipping Board will be compelled to readjust their wheat rate of \$3.50 per ton. Under these war conditions it goes without saying that it is difficult to anticipate changed conditions. With our speeded up shipbuilding programme here in the Northwest the larger part of our surblus should be afloat by the first of the year."
