Enemy Loses More Than 700 Men, Many Cannon and Thousands of Rifles.

GERMANS ATTACK BRITISH

Tentons Recapture Some of Positions Won by English North of Albert, but Suffer Severely in Carrying Out Operation.

ROME, July 2.—Capture of more than 700 additional prisoners, and numerous guns and war material, the occupation of new positions by Italian troops in the Grappa region, and the repulse of Austrian attacks on the Asiago plateau were announced today by the War Office.

The Italians northwest of the Grappa, the statement says, captured important positions and took 549 men prisoners, including 19 officers and many machine guns.

On June 29 and 30 on Monte di Val Bellia, Col del Rosso and Col de Chele the Italians captured four guns, 15 trench mortars, 57 machine guns, several thousand rifles and a large quantity of material.

Concerning the operations on the Asiago plateau, the War Office recounts the crushing of Austrian attacks with heavy losses. Counter-attacks metted the Italians 127 prisoners, a small trench cannon and a few machine guns. South of the Asiago, British parties took prisoners.

WASHINGTON, July 2.—Repulse of strong Austrian counter-attacks yesterday upon the newly won Italian positions at Mont di Val Bella, Col del Rosso and Col d'Eschele was reported today in an official dispatch from Rome. In addition to more than 2000 prisoners the message said 51 machine guns, four guns, 15 trench mortars, several thousand rifles and much other material were captured by the Italians in the Asiago operations.

VIENNA, July 2.—(Via London).—"Artillery action, which had been lively on the whole Italian front," says a statement issued today by the Austrian War Office, "increased this morning to a degree of considerable violence between the Brenta and Piave Rivers and on the lower Piave. Throughout the day there were no infantry operations on a large scale."

BERLIN, via London, July 2.—Allied attacks west of Chateau Thierry have been repulsed by the Germans, according to the official statement issued today. Attacks against the German lines at other points, the statement adds, also have failed.

TALLEST MARINE IS FOUND

Uncle Sam Now Has Six Feet Five Inches of Real Fighter.

BALTIMORE, Md., July 2.—Uncle Sam now has six feet, five and a half inches of real United States Marine. He is Carroll William Doggett, 25 years old, a mail clerk of this city. Doggett has just become a Marine, but he had a rather difficult time breaking in.

When the 7 1/2 inches of humanity strolled into the local recruiting station the officers in charge had the shock of their lives.

After some little difficulties, which included bumping his head on the electric light fixtures in the ceiling, the lengthy caller managed to get down into a chair.

Upon examination, he was told he was three and one-half inches too tall and 26 pounds under weight. So Doggett got busy and after much work and worry, arranged for his transfer from Washington. He is the tallest man in the Marine Corps.

German-American Charter to Go.

WASHINGTON, July 2.—Without a word of discussion or a record vote, the Senate today adopted the resolution of Senator King, of Utah, annulling the Federal charter of the National German-American Alliance. The resolution now goes to the House.

Cocoon Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain mulified cocoon oil (which is pure and entirely greaseless) is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

Hope Abandoned for All Others on Llandoverly, Sunk by Enemy Submarine.

SAILING OF COMFORT HALTS

Danish Steamship Indten and Belgian Vessel Chiller Are Announced to Have Fallen Prey to U-Boats.

LONDON, July 2.—A thorough search of the waters in the vicinity of the spot where the Canadian hospital ship Llandoverly Castle was sunk by a German submarine has resulted in no further survivors being found.

An official statement issued by the Admiralty says it may be assumed that only 24 out of the 255 persons on board were saved.

The Admiralty statement says: "The area between the spot where the Llandoverly Castle was sunk and the Southwest Irish coast has been thoroughly searched by two groups of His Majesty's ships in addition to the destroyer Lyander. Only a little wreckage and one empty boat were found. It may be assumed that there are no more survivors from the Llandoverly Castle."

The boy or girl who sells the most thrifty stamps before July 15 will have the honor of selling \$100 worth of thrifty stamps to Mrs. R. D. Inman, president of the league, which order will make him a general in his school division. All thrifty stamps sold during this period will be given proper credit.

For further information call at the headquarters of the Patriotic Conservation League, 728 Corbett building.

Who Will Get Your Insurance?

You think of your life insurance as a protection for your wife and dependent ones in after years.

Yet statistics prove that through lack of business training on the part of beneficiaries, the greater part of insurance money is lost within a few years.

You can provide against this by enlisting the experience and service of this long-established Trust Company. Your wife, children and others will receive the full benefit. Money left with this bank as trustee will be invested and conserved.

WILSON TO GET NEW HONOR

University of Paris Will Confer Degree—Services Will Be Held in Capital City, Brest Vendome and Liverpool.

WASHINGTON, July 2.—American Independence Day will be observed in Liverpool with solemn church services and an entertainment for officers and men of the American Army and Navy.

The State Department received word today that the Lord Mayor of Liverpool and other officials will join with American officers in attending church services and later 3500 American officials and men will be guests of the city at a dinner and theatrical performance.

Viscount Ishii, the Japanese Ambassador, accompanied by his wife, has gone to Fairhaven, Mass., near New Bedford, to take part in Fourth of July ceremonies there. He will present to the Little township and Japanese sword to mark the appreciation of the Japanese government and the people of the island of the courtesy shown by their forbears towards a Japanese sailor who had been rescued at sea by a New Bedford crew.

Eight-Year Stay Made in U. S.
The sailor lived in the United States eight years and returned to his own country just before the advent of Commodore Perry.

The sword is the personal gift of the son of the Japanese sailor, a distinguished physician of Tokio.

PARIS, July 2.—President Wilson will be the first person to be honored with the new degree of Doctor Honoris Causa from the University of Paris, says Le Journal.

France, outside Paris, is making special efforts to celebrate the Fourth of July properly. At Nancy the Erchmann Chattrin Society and other associations will hold a meeting at the university. Letters from General "Fau" Maurice Barres and other distinguished sons of Alsace-Lorraine will be read, testifying to the gratitude of French provinces to America. Dr. Morton Prince, of Boston, will deliver an address.

Reviews Will Be Held.
In the Paris region there will be reviews at Etampes, Rambouillet, Nantes, St. Germain and Pontoise. It is understood that American troops will participate in these reviews.

BREST, France, July 2.—In celebration of the Fourth of July here, President Wilson's name will be given to the Place du Champ de Bataille, the largest square in the city.

VENDOME, France, July 2.—This city, the birthplace of the Count de Rochambeau, leader of French troops in the American Revolution, will turn its celebration this year in honor of Rochambeau into a solemn commemoration of the American Independence Day.

YANKEE DRIVE ROUTS HUNS
(Continued From First Page.)
ment while the automatic rifles and machine guns with the advancing troops fought a duel in front of Vaux briefly but effectively with the enemy. Then the Americans whose number was considerable, went on, most of them running in their eagerness to get at close quarters with the Germans. At the same time the Boche began hurling gas shells to the rear of the American lines.

They have eliminated a salient and have straightened out their line. Over an area of several miles the Americans are pushing the enemy under their guns. Daylight this morning found the Americans digging in almost undisturbed far beyond the old German defensive line. To the rear of the prisoners and piles of material are going. The number of prisoners has steadily mounted until it has reached 500.

The guns and material have not yet been tabulated.

The fighting qualities of the Americans were certified to by virtually all the prisoners taken. They said the Americans fought like wild men, sweeping everything before them as they plunged on.

Huns Put to Flight.
So fierce was the attack that many Germans who were in the zone assaulted made their escape by running and they saw it was impossible to slow down or halt the American plunge.

The attack by the Americans on the Vaux positions was so terrific that they swept right through the enemy lines, and had their object been to continue the advance they could have done so with the greatest ease, as virtually everything before them had been cleared. So great was the enthusiasm of the men, the officers and sergeants had to look sharp to keep them from going beyond the set objectives.

It is not improbable that the Germans are planning another counter-attack for the coming dark hours, but preparations have been made to meet them.

A vast quantity of material, considering the size of the operation, is being taken to the rear, but probably will not be tabulated for several days.

Hun Guns Are Captured.
In the fighting west of Vaux the Americans stormed several enemy nests and killed or captured the occupants, then turned the guns the other way, using them effectively against the enemy rear areas.

The Americans penetrated the enemy's lines to a depth of about a kilometer, a half on four kilometers. All day the front line troops have been subjected to a heavy shell fire. They had some shelter in one patch of woods which they occupied, but those who did not enter the woods had no protection which they had provided for themselves with their trenching tools or by taking cover in shell holes. From one crater slightly in advance of the line, but on it, from a technical point of view, American soldiers this afternoon let their comrades know where they were when one of their party leaned over the lip of the crater and waved his helmet.

The prisoners taken in the German counter-attacks say they marched for three hours as fast as they could when word reached the commander of an enemy battalion in the rear of Vaux, which town is on the right of the American attack. Observers reported this morning that the Germans were apparently hurrying to bring up reinforcements behind their lines.

Boches Glad of Capture.
All the prisoners questioned today expressed their relief at being captured. One, speaking excellent English, said to the correspondent: "Thank the Lord, I'm out of there. American artillery smothered us more than once and the infantrymen fight like wild devils without a single fear, and when the fight is finished they are gentlemen. One could have killed me, but did not and I gave him my iron cross for my thanks."

Business Men Postpone Meeting.
There will be no meeting of the Progressive Business Men's Club tomorrow, owing to Independence day.
