FIELD OF INTEREST

More Than 2000 Death-Dealing Implements Exhibited by U. S. Government.

TRENCH SYSTEM IS UNIQUE

Monster British Armored Tank, War Airships of Many Makes, Enormous Mines, Sea Bombs and Divers Among Collection.

SAN FRANCISCO, July 7.—More than 2000 war trophies, a great exhibit of implements used in the world war, were seen here today in the opening of the Allied War Exposition under auspices of the United States Government.

Direct from the battle zones, these trophies are shown here for the first time in North America. War's most terrible death implements from the sky, from the field and trenches and from under the sea are shown.

There are in all 2246 trophies in American, English, Canadian, French, Italian and Belgian sections. The most important part of the exposition is a small cross-section of the battle front reproduced. Each afternoon American soldiers and jackies, with British soldiers manning the tank, engage in mimic battle in which machine guns and artillery are used with spectacular effect, the shells and bullets being discharged into an embankment.

A complete trench system has been constructed under direction of officers from the battle zone, in which actual conditions of the front lines are shown. The working outfits of war relief organizations, including the Red Cross and Y. M. C. A., have a place in the exposition.

After two weeks in San Francisco, the exposition will probably be taken to Los Angeles and later in Denver, Kansas City, Chicago and cities farther east.

77 BODIES ARE RECOVERED

Federal Agents Investigate Sinking of Steamer Columbia.

PEORIA, Ill., July 7.—Seventy-seven bodies had been recovered tonight from the wreckage of the steamer Columbia. Earl R. Barnswort, diver, today said there were fully 25 more bodies missing in the wreckage of the excursion steamer.

An investigation of the sinking is under way. United States inspectors were at the wreckage of the steamer and questioned survivors. They also summoned members of the crew, whom they questioned separately. The cause of the investigation was not disclosed.

WIRE STRIKE CALLED OFF

(Continued From First Page.)

all but five were Democrats. This is the first time that so large a number of Democrats has manifested a disposition to kick over the traces.

The rebellious move failed because Democratic leader Kitchin in the House refused to vote the message of the Senate recess resolution. The recalcitrant Democratic Senators were left therefore in the position of participants in an unsuccessful revolution.

Anticipating punishment by the White House for their tergiversity, they are busy explaining today. Many of them unload the blame upon Senator Martin, the majority leader, contending that it is his position that they desire that the Senate should remain on the job and represented the President as not opposed to a recess.

The meeting of telegraphers was held, as announced, last night, at the O. G. T. Hall. At this session Mr. Kelly instructed all who had been instrumental in spreading notification of the strike to pass out news of its postponement.

Secretary J. Stack, of the Oregon State Federation of Labor, told of the interest at the National session of the American Federation of Labor in the cause of the telegraphers. He assured those at the meeting that the parent organization will give full support to the keymen in their fight against the Western Union.

President Otto R. Hartwig, of the state federation, deprecated attempts to bring Unionists into the strike organization among its employees which is not definitely linked up with organized labor. The whole movement was characterized, he said, as "camouflage," destined to result in nothing worth while.

LOCAL OFFICE GIVEN NOTICE

Postponement Viewed as Forecasting Government Control.

Official notification that the telegraphers' strike against the Western Union is not to be put into effect this morning was received late yesterday by James R. Kelly, organizer and president of the local branch of the Commercial Telegraphers' Union.

The message from President S. J. Koenekamp to Mr. Kelly stated that the strike call is temporarily revoked in deference to request of Secretary of Labor Wilson. It asked that all telegraphers be instructed to report for work as usual today. Mr. Kelly stated that he immediately began carrying out this part of the injunction.

The hour of the strike in Portland was set for 10 o'clock this morning. Local keymen and employees of the telegraph companies see in postponement of the strike at Secretary Wilson's request a definite forecast that President Wilson expects to win in his move to take over the telegraph and telephone lines.

HUNS FALL BEFORE
PLUNGE INTO AFFRAY

Americans, Tired From March, Plunge Into Affray and Reach Objectives.

SNIPERS ARE CLEANED OUT
Sergeant and Three Privates Enter Dark Dugout and Capture 16 Boches—Daring of Americans Noted.

(By the Associated Press.)
WITH THE BRITISH ARMY IN FRANCE, July 7.—The correspondent slept on the ground last night among the troops of one star company of Americans who played a prominent part in Thursday's great show. Here is a story told by one of the officers:

"The Americans went into the line after a hard march. The Britons undoubtedly had no inkling that the attack was to be made. At midnight Wednesday we were sent forward to the line ready for an advance at 2:30 o'clock Thursday morning.

"Many of our boys were tired when the fight got hung up in the wire, the fact that they were just embarking on the biggest adventure of their lives—a leap into the unknown—they threw themselves into the fray with a soundly. It was an encouraging sign to us, for it meant that the men were not jumpy. They never did show any sign of nerves, as a matter of fact.

Australian Officers Cool.
"For us officers there was no sleep. "We had to admire the coolness of the Australian officers, who told stories of a harassing fire and we American officers were out among our men hotfoot to keep them steady, fearing they might mistake it for the barrage.

"I saw a funny thing here. One of my corporals, who had been a guard officer in a penitentiary and has a reputation for being a hard customer who got hung up in the wire. As he had no cutters he sat down and started pulling the stuff out of his legs, barb by barb.

"The support trenches, which had dug-outs, were more strongly held. The answer was a crack on the head. "He knew then they were not Yankees and opened fire with his rifle in the blackness. Finally, a Boche began to yell 'kammer.' When the light was over it was found that he had killed five Germans and he took nine prisoners.

"We got through to our final objectives all right and carried out the consolidation without much interference from the Boches, who did not recuperate quickly."

Slavs Oppose Any Help
Constituent Assembly Says Allied Intervention Not Wanted.

PARIS, July 7.—The protest voted at a session in Ireland, convened by constituent assembly on May 15, 1918, read by ex-Premier Kerensky at a meeting of the Socialist party yesterday in the Chamber of Deputies after emphasizing the desperate situation in Russia owing to the continued invasion of the Germans and reports regarding a Japanese descent in the Far East, says: "Russia will never accept the violation of her national sovereignty by the allies. She will not consent to the occupation of her territory or intervention in her internal affairs."
