VANCOUVER, Wash., July 14 .- (Special. i-Standifer battled its way to a tie for second place in the Columbia-Willamette Shipbuilders' League today, defeating Perle Casey's Cornfoot Bearcats by the score of 4 to 2. The game was a "whiz" throughout the nine innings and was halted several times because of arguments arising over de-cisions. Herman Pillett pitched for Standifer, while Frank Rapp, former Buckaroo, worked in the box for Cornfoot. Both twirlers allowed seven hits and were wild. Pillett proved to be steadler in the pinches and managed to hold Cornfoot down at the critical

Standifer made one run in the first inning, one in the second, one in the third and one in the fifth. Cornfoot scored in the third and fifth frames. Lutge's Toss Nabs Teck.

Eddie Garrity, for Standifer, and Perle Casey, for Cornfoot, were the fielding stars of the contest, both play-

felding stars of the contest, both players performing in tip-top form. Lutge, in center field for Cornfoot, got a hand in the second frame when he threw Eddle Teck out at home on a return of Casey's hit to center.

The big argument started in the second inning, when, with Kennedy on first and Teck on third, the Cornfoot team claimed that Pillett made a baik and wanted Umpire Drennan, who was calling bails and strikes, to advance Kennedy to second and let Teck come home. Drennan said that Pillett had not made a baik, but Bill Russell, who was working on bases, said that it was a balk, and it finally ended with Kennedy going to second but Teck staying on third. Manager Casey said he would protest the game. Casey came up next and rapped out a long hit to center, but Teck was caught coming in by Lutge's perfect per to Merrich!

but Teck was caught coming in by Lutge's perfect peg to Marshall.

Fans Go Over Top.

Another argument arose in the fourth inning over the same question as to whether Pillett balked or not, but no fatalities resulted. A large, enthusiastic crowd of basehall fans was on hand to witness the game and it made itself very evident several times. It is a habit with them to storm the diamond any time an argument comes up and many of the boys go "over the top" on Sunday.

Brighton, Mass., Draft Officers The Reds are getting back into their

Rule in Case of Catcher Henry, of Braves.

DECISION SETS PRECEDENT

Game's Financial Contribution to War Held No Larger Than Sacrifices of Many Millions of American Citizens.

BOSTON, July 14.—Baseball was classed as a non-productive occupation by the Brighton local draft board to-day in deciding a test case brought by John Park Henry, catcher for the Bos-ton National League baseball team against Provost Marshal General Crowders "work or fight" rule.

The board found that the amount of relief from war strain furnished by the game was overestimated by the registrant in his affidavit, and that baseball's financial contribution to the war was no larger materially than the voluntary sacrifices of "many millions of citizens."

All three members of the board are agreed in the finding that baseball is a non-productive occupation, but one of them, Justice Thomas H. Connelly, of them, Justice Thomas H. Connelly, recommends that Catcher Henry be not required to change his occupation on the ground that he could not do so "without substantial financial loss to himself and others." Justice Connelly interprets "others" as including his employers.

employers.

The majority of the board, in disputing Henry's claim, believe that the conduct of the business of the registrant's employers is secondary to the winning of the war and that they must necessarily expect to make some sacri-fice, but the financial welfare of the registrant is amply provided for in a manufacturing business which he con trols, located at Amherst, Mass.

GOLDEN GATE NOTABLE.

SAN FRANCISCO, Cal., July 14. When Miss Frances Cowells repeated her victory of last year recently by winning the second annual girls' swin ming race across the Golden Gate, it generally was deplored that misunder-standings which have arisen since her arrival here prevented Miss Fanny Durack, the Australian champion, from

being a competitor.

While Miss Durack holds world's championships in practically all distances, she specializes in the longer races and the recent test of endurance yould have given swimming enthusi-sts a real opportunity to view the elative merits of local swimmers when empared to the champion.
As it turned out, the Independence

day swimming race across the famous entrance into San Francisco Bay, was an endurance test in every sense of the word. Old-time watermen stated that conditions never were worse for a swim, owing to the strong wind, heavy seas, and cold, and advised against the attempt. Nineteen of the 25 girls en-tered made the start. Of these eight only were able to battle their way to the finish through the waves and tides. and to combat the chill of both air and

It was nearly three-quarters of an hour later before the second girl to finish fought her way across the line. It took the eighth girl to finish two hours, 26 minutes and 50 seconds to cover the distance, which is approxi-mately one and one-quarter miles. With normal conditions last year the 14th to finish made the distance in one hour. 15 minutes and 7 seconds.

Of the eight who finished this year, all were in good condition when they came out of the water, although more or less exhausted by their efforts.
