WITH THE FRENCH ARMY ON THE AISNE-MARNE FRONT, July 22.—(By the Associated Press.)—The Germans are having the greatest difficulty in maintaining their communications in the Marne salient. They are unable to utilize most of the railroads leading northward, owing to the incessant harrying from entente allied aviators and artillery.

LONDON, July 22.—The capture of Barbillon wood by the Americans means that the overseas men have advanced between three and four miles from their old position on the Marne.

WASHINGTON, July 22 .- Official re ports from General Pershing confirm the crossing of the Marne by allied troops, Secretary Baker said today, and also the occupation of considerable territory north of Chateau Thierry. Reports Favor Allies.

The effect of this upon the German forces further south was apparent, Mr. Baker continued, in their prompt with-drawal from the Chateau Thierry and Marne sectors when their chief sup-ply lines were severed.

Allies Always Aggressive.

On the west side of the salient the fighting continued all night with great intensity, as well as this morning, with the allies everywhere on the aggressive.

At 3 o'clock this afternoon east of Rheims the enemy gained a little ground. On the whole front between the rivers there was a heavy German bombardment and several local atas were delivered by the enemy, but not on a large scale. These were repulsed at all points except at

On the front where the Franco-American forces are pushing in just to the north of the Marne the enemy is carrying out sullen and stubborn rear-guard actions, but despite these the allies continue their gains. The Germans left numbers of ma-chine gun nests in the path of the allied progress, and are using their artillery likewise in guarding the slow retreat.

WITH THE FRENCH ARMY IN FRANCE, July 22.—(By the Associated Press.)—The region immediately south of Solssons forms the key to the Ger
