COUNTRY HIDES AFFECTED

Government Announces Through cisco Lowering of Prices About 10 Per Cent on All Grades.

the regional hide director at San Francisco the lowering of prices on all grades of packer hides. These new prices will be effective August 1, and will apply to all hides taken off after August 1 and up to and in-cluding October 31, says a statement issued by George M. Sullivan, general manager of the H. F. Norton Company. The state-

"The reduction in price on the better grades of packer hides amounts to about 3c per pound, on the branded selections from Portland. 2 to Sc per pound, and on the extreme light hides ic per pound. The average re-attle, duction on all packer hides will amount to about 10 per cent. It has also been anattle. nounced that country hides were put on a selected basis all over the United States. They have been bought flat in this section prior to this time.

"A number of rules have been laid down which must be adhered to by butchers in taking off their hides and salting them. It will be unlawful to sait hides it vats in the future. Prices which were laid down for the months of May, June and July will still be in effect for the hides taken off during that period. In view of the fact. however, that the August, September and October hides are the best hides of the year, it is doubtful if any tanner would care to pay more for May, June and July take-off than for later hides. Unless there are not

"The object of the Government in putting hides on a selected basis is to improve the take-off. During the past number of years the hides from this section of the country have been sold flat, and the take-off in have been yery poor.

most cames has been very poor.
"Definite prices and rules for the purchase
of hides from August I on will probably
be announced in the very near future; just as soon as they can be put in printed form and mailed here from the East. It is also announced that all hide dealers will prob-ably have to be licensed to do business.

'The price for calf skins after August will be higher. This is the only article which has been raised, and the new price only applies to the skins taken off after August 1. All butchers should keep their August skins separate from those taken off prior to that time."

INCREASING FOOD SUPPLY

Calling attention to a waste of food products, the Council of National Defense, in urging the use of highways and motor trucks, says: "Food is made available by tapping farm communities having no other shipping facilities. Much of these food products is either wasted or deteriorates because of poor shipping facilities." No better argument has been advanced for paving highways with
