### FOOD OFFICIALS TO CHECK SUGAR SALES

Card System Limiting Individual Purchases Is Adopted by Administrator.

### HOARDERS ARE UNDER FIRE

W. B. Ayer Gives Warning to Consumers Who Persist in Buying More Sugar Than Allowed by Federal Orders.

A card system for limiting sugar purchases to two pounds a person a month has been adopted by the food administration. Each family will have one sugar card on file with the dealer, according to the new rules which are being put into effect in Oregon by Food Administrator Ayer. Every purchase will be recorded on this card, which will contain data on the sugar purchased to date and a pledge not to break rules of the Food Administration. The cards will be filed with the Food Administrator, who will check them over to provide against duplications. The new restrictions were made following complaints from retail dealers that many were repeating purchases and were buying at different stores.

A catechism summary of the sugar situation has been prepared to inform the public of the seriousness of the situation.

"I wish to emphasize that any family having on hand more than its needs for canning and use in this to the dealer," said Mr. Ayer in speaking of the new rules. "This will assist the Food Administration in arranging a fair and equitable distribution of existing supplies."

The catechism follows:

What is sugar hoarding? It is having on hand more than is needed for a reasonable length of time. You should not fall to return any unused sugar purchased for canning purposes.

May a household have more than a month's supply of sugar on hand? This is not justifiable except in extreme cases where there are no stores available for purchase, and it should be done only upon advice of the Federal Food Administrator or his deputy.

What are some of the evil effects of hoarding? It throws the distribution system out of joint; it raises prices; it imposes a heavier burden upon those already doing their utmost; it results in waste where there are no proper facilities for storage; it is dishonest.

What is the moral wrong of hoarding? It is selfish, cowardly and unpatriotic. It is, in effect, taking unto oneself special privileges at a time when all Americans should be on the same footing, share and share alike.

Is there any punishment for hoarders? Yes. The food control act provides fines of not more than \$5000 and imprisonment for hoarding by dealers, manufacturers or householders.

### ROTARIANS CHEER CAMP

CLUB MEMBERS BACK FROM VISIT TO SOLDIERS AT LEWIS.

Smileage Book Movement Gets Impetus as Result of Trip—Restroom to Be Furnished.

Members of the Portland Rotary Club, who returned Saturday from Camp Lewis, report that the Oregon boys put on a fine programme of events and that they were very glad to see some of the home folks if only for a short time.

Miss Dorothy Lewis went with the Portland party to sing at the evening programme. Oregon soldiers gave recitations, songs, stories and other entertainment for three hours that night at Y. M. C. A. hut No. 2. One hundred dollars' worth of smileage books distributed by the Rotarians were eagerly received by the boys. The organization now is gathering up other smileage books to be sent to Oregon troops at Camp Lewis.

Another movement that probably will be launched by Rotarians as a result of the visit is the complete furnishing of a restroom in the room at the base hospital. Following the example of Seattle women, who furnished a room complete, the matter will be taken up by the Ladies of Rotary, it is expected.

Word has been received by President Waters that the international board of directors of Rotary have been received by President Wilson. Acting on instructions from the recent convention at Kansas City, the board promised the President their united support in the prosecution of the war and active co-operation in the work of social hygiene which is about to be launched by the Government.

A complete report on the reception of the board by the President will be made today at the weekly meeting, which will be held at Grant Smith's Porter shipyard. The club will leave for the yards from the Benson Hotel at noon. Box lunches will be provided.

## HUN RULE IS COURTED

GEORGE PRICE SAYS CAPITALISTS STARTED WORLD WAR.

Gustav Erdman, Convicted of Violating Espionage Act, Sentenced to Serve 15 Months in Prison.

George Price, receiving a paltry \$6.66 a day for light carpentering in a local shipyard, is convinced that this is a capitalist's war. He owes nothing to the United States, he says, and would just as soon be ruled by the Kaiser as not. He refuses to fight or buy Liberty bonds, and declares that the more men killed in Europe the better laboring conditions will be after the war. Price is likely to have a chance radically to amend his views, as he was bound over

yesterday by Assistant United States Attorney Goldstein. He was arrested for disloyal utterances on complaint of his fellow workers at the Grant Smith-Porter plant.

Wilhelm Roho, who was taken into custody Sunday for alleged disloyal utterances, was questioned yesterday by the Federal officers. Assistant United States Attorney Veatch has wired for a warrant covering his case, and he will no doubt be interned. Frederick Linke, another alien enemy, was interned yesterday and conducted to Vancouver. Otto Brande, an alien enemy picked up for failure to register, is being held pending the arrival of a warrant for his internment.

Gustav Erdman, recently convicted of violating the espionage act, was sentenced yesterday to 15 months on McNeill's Island. Erdman was arrested at the Smith-Powers mill at Powers, Or., for opposing the activities of the Loggers' Loyal Legion. George Carras pleaded guilty to the charge of being a slacker, and was yesterday sentenced to 30 days in jail. At

the end of this period he will be inducted into the National Army.

Wilson Praises State Councils. WASHINGTON, Aug. 12.—Achievements of state councils of defense were

praised by President Wilson today in a letter to Secretary Baker in reference to the Secretary's suggestion that the machinery of the state councils be used as far as possible by all Federal agencies in extending their work.

## Tobacco Habit Easily Overcome

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and quickly banished with delightful benefit. The author, Edward J. Woods, 1821 A. Station E, New York City, will mail his book free on request. The health improves wonderfully after tobacco craving is conquered. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous, irritable feeling; no more need of pipe, cigar, cigarette, snuff or chewing tobacco to satisfy morbid desire.—Adv.
