

BOLSHEVIK REGIME TOPPLING IN RUSSIA

Lenine and Trotzky Flee From Moscow to Kronstadt to Establish New Capital.

HELFFERICH GOING EAST

Admission Made in Berlin Press That German Policy in Far East Has Failed; Assassination of Mirbach Executed.

AMSTERDAM, Aug. 12.—Wholesale arrests of allied nationals have been made at Moscow, according to dispatches from that city to the Lokal Anzeiger of Berlin. The newspaper's correspondent writes: "As the British, without any declaration of war, have occupied Russian towns and are shooting Russian citizens, especially members of the Soviet, British subjects and French citizens here, with the exception of old people, fathers of large families and workmen, have been arrested and interned as hostages."

LONDON, Aug. 12.—The passing of the Bolshevik government into history appears to be near. Today's advices tend to confirm previous reports that the fantastic structure with Lenin and Trotzky balancing on its summit is toppling to the final crash. Lenin and Trotzky are reported to have fled Moscow. Helfferich, the German Ambassador to Russia, has likewise found the Russian capital to be an unsuitable place for his Embassy and he will go to Petrograd.

Lenine and Trotzky have fled to Kronstadt, the naval base near Petrograd, according to a dispatch sent out by the semi-official Wolff Bureau of Berlin, and printed in Zurich newspapers, says a Havas report from Paris. The Bolshevik government will shortly follow the two leaders to Kronstadt, the Berlin Lokal Anzeiger states today.

Officers and counter revolutionists who are under imprisonment also will be taken to Kronstadt, according to this plan.

AMSTERDAM, Aug. 12.—Dr. Helfferich, the German Ambassador to Russia, has informed the Soviet government that he will move the Embassy from Moscow to Petrograd, because he fears for the personal safety of his staff, says an official telegram from Berlin. Conditions at Petrograd are almost as bad as at Moscow.

Referring to the shifting of the German diplomatic base in Russia, the Vossische Zeitung of Berlin says: "Moscow is in the hands of anti-German elements and the followers of the Social Revolutionists of the left. This would show that the Bolshevik rule at Moscow is at an end and this is the case not only at Moscow, but in the greater part of Russia, if not in the whole Russian empire."

German Policy Failure. "This throws a vivid light on the failure of the German policy in the East. The position of the Soviet government in Russia is considered very serious by the Moscow correspondent of the Tagblatt of Berlin."

He announced that the Czech-Slovak forces have increased from 7500 to 300,000 and are being reinforced by Serbian, Cossack and counter revolutionists.

Boris Denikine, the assassin of Field Marshal Hermann von Eichhorn, was executed on Saturday, according to advices from Kiev.

The sentence was pronounced by a German military court and was carried out immediately after its confirmation by the competent judicial tribunal.

WASHINGTON, Aug. 12.—The possibility of the establishment of an eastern front that would be a serious menace, at least to the Germans, is being considered by officers here. It became known today, in connection with the making public of the full text of the proclamation of the "supreme government" of the Northern territory.

The signers of the proclamation are, with two exceptions, members of the constituent assembly representing the provinces of Archangel, Vologda, Viatka, Kazan and Zambara—a chain of provinces extending from the Arctic to the region of the Don Cossacks in the south.

This chain is in the form of a crescent making a complete front of peoples strongly pro-ally in sentiment and rep-

resenting the best elements of the Russian population. Officials of the State Department, admit there is a reasonable ground for hope that the eastern front will be re-established by this new government.

AMSTERDAM, Aug. 12.—A dispatch to the Wolff Bureau, the semi-official German news agency, says that M. Joffe, the Russian Ambassador to Germany, has left for Moscow to report on economic conditions arising from the Brest-Litovsk treaty.

IRKUTSK SITUATION GRAVE

Ambassador Francis, in Final Message to Tchitcherin, Predicts Rising of Russian People Against German Invaders.

LONDON, Aug. 12.—British troops which were landed at Vladivostok have proceeded to the Usuri River front, where they were given an enthusiastic reception by the Czech-Slovak forces with whom they are co-operating, according to an official announcement issued here tonight.

THE HAGUE, Aug. 12.—Japanese advance troops are in touch with the Czech-Slovaks, says a Moscow dispatch to the Wezer Zeitung of Bremen.

VLADIVOSTOK, Aug. 5.—(By the Associated Press.)—General Horvath, self-styled "head of the new All-Russian government," declares that 150,000 allied troops will be required to prevent Germany from obtaining control of the food resources of Siberia and Mongolia.

General Horvath's visit here was for the purpose of opening negotiations with the Vladivostok group of the autonomous Siberian government.

Coincident with his arrival came an announcement from Washington and Tokio relative to the scope of the allies' aims in Russia.

Czechs Declared Surrounded. General Horvath declares that a large body of Czech-Slovaks are in desperate straits at Irkutsk, being surrounded by Bolshevik and Magyar troops and without a chance of immediate relief.

Midway between Nikolai and Khabarovsk a few thousand Czech-Slovaks are opposing a larger force of the enemy, he said. They are sadly out of proportion to the task confronting them, even if supplied with artillery, which is now lacking.

VOLOGDA, Russia, July 25.—(By the Associated Press.)—The allied diplomats started today for Archangel, which G. H. Christie, Assistant Secretary of Agriculture, and D. G. O'Shea, president of the Spokane Land Bank, explained the plan.

A committee was named to confer with Mr. Christie to secure a modification of the plan if possible.

HELENA, Mont., Aug. 12.—The method by which the Federal Government plans to aid drought-stricken farmers in Montana to the extent of \$3 an acre, was not satisfactory to the farm bureau presidents and bankers who attended a conference here today, at which G. H. Christie, Assistant Secretary of Agriculture, and D. G. O'Shea, president of the Spokane Land Bank, explained the plan.

A committee was named to confer with Mr. Christie to secure a modification of the plan if possible.

The appointment was based upon the state's appropriation of \$4,941,556 to the Exposition as against \$5,994,317 collected by the Exposition Company. San Francisco's appropriation of \$5,000,000 was held to be a gift, entitling no receipt, which have not been all tabulated, will exceed \$1,000,000.

selfes in alliance against the common enemy. "The allies have never recognized the Brest-Litovsk peace and it is becoming so burdensome to the Russian people that in my judgment the time is not far distant when they will turn upon Germany and the repulsion of the enemy from the Russian border will demonstrate what I have continuously believed, and that is that the national spirit of Great Russia is not dead, but has only been sleeping."

PARIS, Aug. 12.—(Havas Agency.)—Referring to the formation of the first Army of the Americans in the field, the Journal Des Debats says: "The Americans now are in sufficient number and have acquired enough experience to form a separate army. "Public opinion will see, moreover, in the formation of this Army the result of the efforts accomplished in a year by the United States and a sign of the part which they intend to play in the war. History will record two great events and two great examples of what loyal friendship can achieve: the formation of the British armies and that of the Americans."

It Keeps the Engine Young!

Experts agree in recommending ZEROLENE because it keeps the engine young—full-powered, smooth-running and economical in fuel and oil consumption. The majority of motorists are now using ZEROLENE, because they have learned by experience that there is no better oil to be had. Correctly refined from selected California asphalt-base crude, ZEROLENE gives perfect lubrication with less wear and less carbon deposit. Less wear because ZEROLENE keeps its lubricating body at cylinder heat. Less carbon because, being made from asphalt-base crude, it burns clean and goes out with exhaust. ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car. At dealers everywhere and Standard Oil Service Stations.

Correct Lubrication for the "T"-Head Type Engine. The "T"-Head engine, illustrated here, is one of several types in popular use today. Engines of this type, like all internal combustion engines, require an oil that maintains its full lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. ZEROLENE fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude. ZEROLENE is made in several consistencies to meet with scientific exactness the lubrication needs of all types of automobile engines. Get our "Correct Lubrication Chart" covering your car. At dealers everywhere and Standard Oil Service Stations.
