

WHEELS COME OFF 5 OFFICERS, MEN

Heroic Service Rendered When Former German Ship Is Sunk June 21.

NAVAL TRADITIONS KEPT

Remarkably Small Loss of Life, One Man Only, Due, Says Report of Commander, to the Courage and Coolness of Crew.

WASHINGTON, Aug. 18.—Five officers and seven members of the crew of the American steamer Schurz (formerly the German ship Geier) sunk in collision with the American steamer Florida, off the North Carolina coast June 21, have been specifically mentioned and commended by Secretary Daniels for bravery displayed at that time.

The report of Commander William B. Wells says the officers and men acted in accordance with the best traditions of the service and that the remarkably small loss of life—only one man being lost—was due to their courage and coolness.

Those commended by Secretary Daniels and the act of unusual bravery follow: Lieutenant G. F. Howell, executive officer, Woodhull, Ill. "When the accident occurred he relieved the officer of the deck and at once began preparations for abandoning the ship. He is commended for his efficiency in organizing and drilling his crew and his coolness in carrying out the 'abandon ship' order when the emergency came.

Injured but Continues Work. Lieutenant J. E. Shaw, Long Beach, Cal. "After having been painfully injured, continued his work of rescue for three hours."

Lieutenant E. F. Rogers, Ferndon, W. Va. "Showed efficiency and coolness in inspecting damaged compartments in saving or destroying confidential and secret papers and in skillful handling of his boat."

Lieutenant Olav Johnson, Vallejo, Cal. "Commended for the efficiency of his organization of the engineering department, for his coolness and ability to perform all duties without confusion and in such manner that the vessel was kept afloat for the longest possible time after the collision."

John Milton Kiser, machinist's mate first class, Hayden, Colo. "Stayed at his post in charge of the engine-rooms, performing his duty efficiently until ordered up by the engineer officer. He did this knowing the forward fire-room was flooded and the vessel was in immediate danger of sinking."

Water-Tender Defies Death. James A. Donnellan, water-tender, New Orleans. "Got all his work done safely, remaining himself until the water was up to his waist."

Fay R. Rabon, water-tender, Klute, Okla. "Got all his work done safely, remaining himself until the water was up to his waist."

Virgil W. Dinell, quartermaster, first class, Chico, Cal. "Not take to his life raft, but stayed to assist the captain into the last boat, although he was aware of the danger the ship was in."

Claude H. Judson, boatswain's mate, second class, Chico, Cal. "Kept the lowering of the boats with the utmost efficiency and did not leave the ship until every boat was in the water."

Charles G. Hurling, Coxswain, California street, San Francisco. "Acting coxswain of the motor sailing launch, did efficient rescue work."

Edward C. Bryant, 109 Congress avenue, Austin, Tex. "Did efficient rescue work as coxswain of the motor dory."

DRAFT LEGISLATION DUE

EXTENSION OF AGE LIMITS MAY COME UP THURSDAY.

War Revenue Bill, Revised Upward Near \$5,000,000,000 Goal, Scheduled for Completion This Week.

WASHINGTON, Aug. 18.—The three-day vacation recess agreement of the House expires tomorrow, and while the Senate's arrangement runs until August 26, leaders here hope to get to work Thursday on the man-power bill, extending the draft age limits to 18 and 45 years.

The death of Minority Leader Gallinger is expected to curtail the Senate's session tomorrow. If a quorum of the Senate attends tomorrow, Chairman Chamberlain of the military committee, is expected to renew his request for annulment of the vacation agreement and ask the Senate to begin consideration of the man-power measure. Delay in setting aside the vacation agreement would postpone action on the man-power extension until the following Monday.

With the National war prohibition measure having the right of way in the Senate at that time under a previous agreement, the man-power measure could be considered only during the early part of each day unless, as is not improbable, a prohibition advocates should consent to sidetrack the measure temporarily.

The man-power measure will be taken up tomorrow by the House military committee with Secretary Baker, general March and General Crowder scheduled to appear. The prospects are that the bill will be passed by the Senate before the House is called upon to act.

The war revenue bill, revised upward near the \$5,000,000,000 goal of the Treasury Department, is scheduled for completion this week by the House ways and means committee.

BIG FREIGHTER LAUNCHED

Oakland Concern to Give Ship to Water Every 15 Days Until 1920.

OAKLAND, Cal., Aug. 18.—The 9400-ton freight steamer Zirkel was launched here today from the plant of the Moore Shipbuilding Company.

George Arnes, general manager of the plant, announced that it was the intention of the company to launch a boat every 15 or 15 days until the first part of 1920.

230 Men Released. LOS ANGELES, Aug. 18.—Two hundred and thirty of 350 men taken into custody here last night in dance halls and poolrooms when they were unable to show draft registration cards, were released today.

WHERE THE ALLIES ARE GRADUALLY FORMING A NEW FRONT IN RUSSIA.

Battle Line Runs Approximately From South of Archangel Southeast to the Foothills of the Ural Mountains, Then Swings in a Crescent East of the Volga River to the Caspian Sea.

BRITISH DRIVE FAR

Attack Near Armentieres on 4-Mile Front Nets Village.

FRENCH ALSO WIN FIGHT

In Clash South of Ancre River 400 Germans Are Seized; Americans Gain Additional Ground at Frapelle, in Lorraine.

WASHINGTON, Aug. 18.—(By the Associated Press.)—The Americans started Sunday by putting over a large number of shells north of the Vesle to the German heavy guns replying until after daylight. During the day the French and Americans averaged two shells to the enemy's one.

Non Line Inspected. Saturday night American patrols made excursions at various points, going as far as the enemy's barbed wire and trenches on the hills, but they did not encounter any German infantry.

While the French and American and German heavy guns have been barking at each other across the Vesle, American patrols have been particularly active in the forested area.

Water-Tender Defies Death. James A. Donnellan, water-tender, New Orleans. "Got all his work done safely, remaining himself until the water was up to his waist."

Fay R. Rabon, water-tender, Klute, Okla. "Got all his work done safely, remaining himself until the water was up to his waist."

Virgil W. Dinell, quartermaster, first class, Chico, Cal. "Not take to his life raft, but stayed to assist the captain into the last boat, although he was aware of the danger the ship was in."

GERMAN PLOT IS BARED

ATTEMPT TO HANDLE PRESS TOLD BY STATE ATTORNEY.

Sail Gurdji Said to Have Been Offered Large Sum to Spread Propaganda Through Agency.

NEW YORK, Aug. 18.—Alfred L. Becker, deputy state attorney-general, issued a statement tonight giving details of what he characterized as a world-wide propaganda plot launched by Germany long before the outbreak of the war.

Mr. Becker said George von Skal, New York, who worked under Captain Franz von Pappen, military attaché of the German embassy, admitted he had presented a memorandum to the allied representatives here setting forth the urgent need of speedy assistance on a large scale and that an advance on Irkutsk should be ordered.

He points out that if the allied forces do not reach Irkutsk within six weeks the delay will be tantamount to the quiet prevalence of the Bolsheviks in the Western Siberia by the Czechoslovaks.

General Dietrichs says that this would leave Russia entirely at the mercy of the Germans.

TOKIO, Wednesday, Aug. 14.—(By the Associated Press.)—Czechoslovak forces in the maritime provinces of Siberia left for Harbin on August 8 over the Chinese Eastern railway, it is officially announced.

Along the Ussuri front, where the enemy forces number 100,000 strong, quiet prevails. The Bolsheviks and the Austro-Germans are visibly affected by the arrival of allied troops and a number of desertions from their ranks is increasing, it is reported.

(By the Associated Press.) The fighting in Russia has begun to assume proportions which will attract considerable attention. The front is not continuous but is made up of a series of salients and pockets.

One sergeant whose name is withheld, crawled through some shell holes and surprised a German machine gun operator, capturing him. He then crawled another 100 yards and killed two men, using the machine gun there.

The Americans used their rifles to good advantage against machine gunners in the recent fight. Keeping the Boche ducks ducking so fast that they could not get action with their larger guns.

Traveling through the towns and country which recently has been retaken by the allies on the Somme shows that the villages are even more thoroughly shattered by the artillery than the villages north of the Marne.

I came across a crowd of soldiers swimming in the Somme within hearing of the guns and having great sport. I also saw one man who believes in clinging to conventionalities, getting his hair cut behind a pile of sandbags while the shells popped all about him.

PARIS, Aug. 18.—General Lavergne and the staff of the French military mission at Moscow, who were placed under arrest there when the allied forces entered the city on August 8, have been set at liberty, according to a Copenhagen dispatch to the Temps.

FRENCH MISSION TO GO ON

Death of Albert Metin in San Francisco Not to Interfere.

SAN FRANCISCO, Aug. 18.—The death here last Friday of M. Albert Metin, civilian head of a diplomatic French mission, shortly after the arrival of the party, will not be permitted to interfere with the scheduled journey and purpose of the mission, it was announced here tonight.

The mission, it was said, in all probability will remain here until next October, waiting for M. Metin's successor.

M. Metin's body will be shipped east en route to Paris next week. The United States Government, it was announced, is arranging for impressive obsequial ceremonies at San Francisco and New York, where it will be transferred to a United States warship.

FREEDOM POLISH IDEAL

SOLDIERS FACING DEATH SPURN OFFICIAL COMPROMISE.

Leader of Armed Revolt Ready to Pay Penalty Rather Than Weaken Political Representatives.

WASHINGTON, Aug. 18.—Held for Austrian courtmartial which probably will sentence them to death, 135 Polish soldiers who led an armed revolt in the Austrian army in February have issued appeals to the Polish people throughout the world asking them not to compromise the freedom of Poland with the idea of securing any alleviation of their prospective sentences, according to dispatches received here today by the Associated Press.

The officers and men are a part of the Polish Carpathian Iron Brigade which marched from Bukovina into Bessarabia under the command of General Haller. Part of the force was captured by the Germans, but the larger portion is said to have been consolidated with the Czechoslovak army.

"The fear that torments us," the text of the appeal says, "is that the real Polish strength may be lessened by the attempts of our political representatives in the Austrian Parliament to secure for us relief or to avert the fate that awaits us."

"It is, therefore, in our name and that of our soldiers that we plead ardently with the Polish nation which has surrounded us with such moral comfort, to take full cognizance of our words and to desist from exerting any influence in our case upon the Polish Parliamentary Club in Austria."

Germans to Continue "Gassing." WITH THE FRENCH ARMY IN FRANCE, Aug. 18.—(By the Associated Press.)—A German order recently found on the battlefield requests the different units to furnish lists of officers and men who have shown attitude in the gas section and who "desire to continue in that service after the war."

IRKUTSK IS VITAL POINT

If City Is Not Seized Within Six Weeks Russia Will Be at Mercy of Germans, Declares General Dietrichs of the Slovaks.

VLADIVOSTOK, Wednesday, Aug. 14.—(By the Associated Press, Siberia.)—General Dietrichs, commander of the Czechoslovak forces in Siberia, has presented a memorandum to the allied representatives here setting forth the urgent need of speedy assistance on a large scale and that an advance on Irkutsk should be ordered.

He points out that if the allied forces do not reach Irkutsk within six weeks the delay will be tantamount to the quiet prevalence of the Bolsheviks in the Western Siberia by the Czechoslovaks.

WOMEN PRISONERS FREED

Scarcity of Labor in France Leads to Release for Work.

WASHINGTON, Aug. 18.—Scarcity of labor in France has become so acute the women prisoners have been released from jail to work, according to information received in cablegrams from Paris by the Y. W. C. A. war work council here.

Bellingham Soldier Killed. OMAHA, Neb., Aug. 18.—Private Raymond H. McKinnon, of Bellingham, Wash., a member of the 19th Balloon Company at Fort Omaha, is dead as the result of an explosion of a can of gas in his hands last Wednesday.

Officers say he approached too close to the scene of blasting operations.

DANCING

taught by professional instructors at DeHoney's beautiful academy, 23d and Washington. New classes for beginners start Wednesday and Thursday evenings this week.

All dances guaranteed in eight lessons. Ladies, \$4; gentlemen, \$5. The only school teaching from 8 to 11. Plenty of practice. No embarrassment. All dances thoroughly taught. Extra room for backward pupils. Private lessons at all hours. Normal instructions for dancing teachers. A printed description of all dances for pupils free.

ADVANCED DANCING CLASS

for new dances and fancy steps starts Monday evening, August 26th. Add the professional snap to your dancing. Start August 26. Beginners start this week. Call afternoon or evening. Phone M. 7556.

YANKEE HEROES OF PIGMANY ARE SHOWN KAISER'S DREAM OF RAPIDLY DECLARING THE BIBLE

Americans Decorated by King of England Modest Concerning Exploit.

BATTLE ELATES SOLDIERS

Men Are Confident of Whipping Huns and Adopt Motto, "To Hell, Heaven or Hoboken by December." Says Correspondent.

BY FREDERICK A. SMITH, Of the Chicago Tribune.

AT THE BRITISH FRONT, Aug. 18.—(Special.)—At Pine Grove avenue and Irving Park Boulevard Chicago school boys have their trenches and their dugouts, go over the top, and generally make things miserable for the Hohenzollerns. Strange to say, the Tribune correspondent found grown men doing the same thing today in a picturesque gulch, the sharply sloping sides of which were dotted with holes leading to stygian caves.

Peering into one of these I saw a man with gray mustachios thoughtfully puffing a cigarette, which fitfully illuminated the interior of the cave. I had seen the same man in dignified possession of a busy office in the states not so long ago. The scene was so weird that I was almost tempted to believe all this is a grotesque, make-believe playing at war, but the next moment the snarl of a shell through the air and the bursting metal and flame proved it was the genuine stuff.

Yank Heroes Modest. Here were to be found some of the Americans who went across the line with the British in their latest jolt to the Kaiser. Their questions were asked as to where to find some of the boys who had been decorated by King George last Monday it was learned that the heroes had all mostly dug themselves out of the trenches and were concerned. Their comrades were willing enough to recount the deeds of those wearing the medals, but explained that nobody would know that some of the Chicago boys had seen a king, except that once in a while a glimpse is obtained of the "button" the King handed them.

The American boys and officials are elated over their first scrap last week. The result has made them all the more confident, and the slogan often heard now is, "To Hell, Heaven or Hoboken by December." The war correspondents' version is "To Hell, Heaven, or Deleted by censor by December."

French Verbs Stop Bullets. One Chicago boy who believes in studying French between scraps with the Boche owes his life to the pocket dictionary which he carries. Fred Cowles, in the fight last week, got in a machine gun bullet, but the missile hit a mess of irregular French verbs in his breast pocket tunic and Cowles carries the bullet as a souvenir.

Leutenant George W. Grace, living somewhere on the South side, was struck by a piece of shrapnel, which was deflected by his belt. A thick, folded map in his right tunic pocket turned off a bullet, and a third missile hit the container of his gas mask and was deflected.

One sergeant whose name is withheld, crawled through some shell holes and surprised a German machine gun operator, capturing him. He then crawled another 100 yards and killed two men, using the machine gun there.

The Americans used their rifles to good advantage against machine gunners in the recent fight. Keeping the Boche ducks ducking so fast that they could not get action with their larger guns.

Evangelist L. K. Dickson Lays Bare Monstrous Ideals of Nation That Drags Womanhood and Motherhood in Mire, and Makes Plain the Fact That God Is Not Guiding It.

His Subject Tonight in Tent, Thirteenth and Morrison Streets, Will Be "A Thousand Years of Peace Soon to Begin."

That the Bible foretold twenty-five hundred years ago that the Kaiser will fail in his efforts to establish a world empire, and that he has plunged the world into this awful welter of blood, misery and woe through being guided by satanic influences, were declarations made by Evangelist L. K. Dickson at the gospel tent on Thirteenth and Morrison streets last night. It was the first of a series of lectures on Biblical prophecies relating to present-day events which Evangelist Dickson will give, and his remarks were several times interrupted by the applause of the audience, which filled the pavilion to its capacity, as he brought out fact after fact showing that instead of God being with a ruler who has caused so much ruin in the world, he is very much against him.

Evangelist Dickson has been a close student of the prophecies for many years, and in his lecture last night gave a history of the world from the days of ancient Babylon down to the second coming of Christ, as outlined in the second chapter of Daniel, and declared that, though the Kaiser's empire has been foretold, and it will be established by Jesus Christ himself on the ruins of the present nations of the world.

dreamed and planned, he would have caused Serbia and those other countries to become vassals of Germany. Therefore, we have witnessed not the conquering of the world, but the world alone, but their complete immolation. The countries have been turned into a waste; the population ruthlessly destroyed—women have been deliberately left to starve and freeze with their babies on their breasts; children, on whose small shoulders rests the future strength of their countries, viciously, wantonly murdered. Serbia cannot rise again for two generations.

"Again we can see the deep-set plans for world dominion in the many and satanic means of increasing the male population of Germany. First of all, the systematic ravishing of the women of Belgium and France, the offspring of which were sent into Germany to form a part of the future 'defense of the fatherland.' Secondly, the deportation of the Jews from Germany, and the fact that they will never return if Germany can prevent it. It is calculated that they will, either voluntarily or through compulsion, form some sort of union with the surviving Jews of Germany and form an offspring which in twenty years will be available for the future army of Germany. There are also many thousands of young women of Germany who are at the present time in the hands of the absence of their husbands at the front. Therefore, Germany proposes a lateral marriage. A man, married or unmarried—it is immaterial, only if married he must be with effect, come to the temporary union with one of the neglected women, who must also gain her husband's consent to the union. This alliance is to last until the child is born, when it automatically is to cease, the child being either retained by the mother or sent to an institution to be reared for use as a unit in the future national defense."

"The next development," said the speaker, "concerns the women who have been widowed through the war and are being kept in the front areas. It is somewhat difficult for us to understand the logic of this, but the world is to last until the child is born, when it automatically is to cease, the child being either retained by the mother or sent to an institution to be reared for use as a unit in the future national defense."
