30,000 ARRESTED IN REIGN OF TERROR

Russian Middle-Class Citizens and Army Officers at Mercy of Bolsheviki.

SOVIET CHIEFS MAY FLEE

Lenine and Trotzky on Board Vessel at Kronstadt and Will Go to Germany if Counter-Revolution Starts.

WASHINGTON, Aug. 19. — Thirty thousand arrests have been made by the Bolsheviki within the last two weeks of the reign of terror in progress in Petrograd, according to official advices today from Stockholm. Those arrested were army officers and citizens of the middle class.

The Bolshevik chiefs are said to be on board the warship Aurora in the roadstead of Kronstadt, prepared to sail for Germany in case of a successful uprising against them.

Dispatches reaching the department through the Swedish Foreign Office described the chaotic conditions in Russian cities.

Railway service between Moscow and Petrograd has been interrupted.

On August 9 unusual police measures were taken in Petrograd. In the afternoon of that day the German Embassy arrived from Moscow on two special trains. A third train had 800 German soldiers in Russian uniforms who had been in Moscow since the assassination of Count von Mirbach.

Cheernoff May Gain Power.

Premier Lenine and Foreign Minister Trotzky arrived in Petrograd on August 10 and unusual measures were taken at Kronstadt, indicating that the Bolshevik leaders were going there.

German agents in Stockholm were quoted as saying on August 14 that the Germans were moving from Moscow because they felt certain of the fall of the Bolsheviki.

They declared the Bolsheviki would probably be succeeded by Cheernoff and his revolutionary party who probably would summon at once a new constitutional assembly which will be recognized by Germany.

Sweden has been asked by the Swedish Consular Office at Moscow, acting for the American and allied Consuls there, to send a ship to Petrograd to take away 200 refugees, or, if this is impossible, to obtain permission for these persons to pass through Finland.

It is assumed here that the refugees are American and allied citizens seeking escape from Russia.

OREGON MEN SELECTED

TWO UNIVERSITY DELEGATES NAMED FOR CONFERENCE.

Colonel W. H. C. Bowen and Dean E. W. Allen to Attend S. A. T. C. Conference at the Presidio.

UNIVERSITY OF OREGON, Eugene, Aug. 19.—(Special.)—Colonel William H. C. Bowen, U. S. A., retired, and Dean Eric W. Allen, head of the school of journalism, have been chosen to represent the University of Oregon at the students' Army training corps conference to be held at the Presidio August 23 and 24. Dean Allen is already at the Presidio taking training in the 40-day camp for instructors in the corps. Fifty other members of the faculty and student body also are in the camp. Colonel Bowen will leave Wednesday or Thursday for San Francisco. He is professor of military science and tactics at the university.

At this conference universities and colleges of the Pacific Coast will be represented. Details in connection with the organization of the corps will be considered.

According to the latest information received here, the actual organization of the S. T. A. C. will take place on the opening of college in the Fall. Members will be considered as actually enlisted in the United States Army, on inactive service, and will be subject to call into active service at the front whenever the War Department shall consider it necessary. It is expected to be the policy of the department, however, as stated in preliminary announcements, not to call any of the members of the corps during the first year of their membership.

During Washington's two terms as President, from 1789 to 1797, the Cabinet consisted of four members, viz.: Secretary of State, Secretary of Treasury, Secretary of War and Attorney-General. It now consists of 10 members.

"C" MYSTERY CLEARED UP

Portland Man Offers Brand New Solution.

That the mysterious "C" which residents of Portland, Oregon, have found marked on their homes, has caused more comment than other happening of its kind in the past few years is made obvious by the comments heard on all sides.

Front pages of leading newspapers of the state have been carrying stories concerning the "C" which has been found in slightly varying forms but always about five and one-half feet from the floor or ground. More than a few solutions have been offered by persons inquisitive; a number of theories have been advanced. Some have called it the work of a pro-German, although they have failed to find any motive which would warrant such strange operations; some believe the unusual hieroglyphics are from the hand of a practical joker.

But yesterday something entirely new as a solution was offered by R. F. Brown, of this city. After finding his own home decorated with the strange "C" when he arose in the morning, Mr. Brown sat down in an effort to figure it out.

"Of course I am unable to guarantee that my solution is the correct one," he explained last night, "but I have thought it possible that the 'C' is just a substitute for the initial word in the sentence, 'See Fannie Ward in the Y Low Ticket' at the Liberty tomorrow." —Adv.

TALKFEST TO START

Big Oratorical Programme for Germany Announced.

PROBLEMS TO BE DISCUSSD

Teuton Press Engages in Propaganda to Explain Recent Defeat of General Ludendorff on Western Front.

WASHINGTON, Aug. 19.—An official dispatch from France today quotes a telegram from Zurich saying the Berlin papers are announcing that a great German oratorical offensive will shortly take place.

It is said that three German ministers will speak in order to explain the most important problems to the German people.

PARIS, Aug. 19.—The German press is attempting to reassure its public that a general retreat is necessary on the western front to allow General Ludendorff room to maneuver and to assume the initiative on a vast scale, the newspapers report.

German propaganda insists that the German general staff will retain the initiative by forcing premature engagements on the American army and thus wearing it out before it is fully prepared.

L'Homme Libre says that the American forces taking part in the Picardy offensive could not be compared in size with those of the French and British. It says that America will soon have a first-class army in France and that it will have airplanes which the German aviators will have reason to fear.

U. S. CAN WIN, SAYS MARCH

(Continued From First Page.)

American Army numbered 3,012,112 men, divided as follows:

America expeditionary force and en route overseas 1,301,742.

In the United States and insular possessions 1,432,706.

Called in the August draft 277,664.

In addition there are about 15,000 marines serving with the expeditionary force.

For the present it is planned to send 250,000 men monthly to France, General March stated, adding: "But we hope to increase that in the Spring."

Every Man Needed.

To put eighty divisions of Americans into France before June, 1919, General March emphatically declared:

"We shall need every single man in class I between 18 and 45. We must not delude ourselves with the idea that those in the 18 and 19 calls are going to be deferred any length of time. They will have to be called early next Spring in order to get their training in time to get to France."

Married Status Defined.

No general exemption of married men simply because of their married status was contemplated by the War Department in preparing for the proposed extension of draft ages, Secretary Baker declared.

He said that married men who do not support their families and who are not engaged in useful occupations will continue to be called.

The Secretary announced that he would not object to placing a provision in the bill making a separate class of men between 18 and 19 years and to defer calling them "as far as practicable" until after others in Class I had been exhausted.

He added that this preference might well be left to executive regulations, but he would have no objection to having a specific provision written into the bill.

Attempts to Dodge Futile.

Regarding exemption of married men, Secretary Baker was closely examined by committee members.

Representative Tilson, of Connecticut, suggested that many men are being married to evade the new draft, and that the bill should provide that those married after the new bill was introduced should not be exempt. Mr. Baker said such a rigid provision of the law was unnecessary; that the department could disregard all marriages made to evade the new law.

In extending the draft ages, Secretary Baker said, suspension of academic education was an "unsolved problem" of the situation, and that it would be most unfortunate to have all collegiate education stopped. He believed there would still be many youths left at school, but was against exemption of college students as a class as "thoroughly undemocratic."

Regarding present exemption of divinity students, he said, their draft for Army chaplains was being urged.

The department's plans, Mr. Baker said, were to call all the younger men by the middle of next year, but substantially after the school year is through.

Two Million to Be Called.

General Crowder interjected that the new programme is expected to raise 2,300,000 men by June 30, 1919, and that it was proposed to call 2,000,000, men by that time.

Regarding the supplanting of young officers in non-combatant duty by older men, Secretary Baker said all young officers capable of military duty were being relieved as far as possible. He added that youths in colleges who are drafted if retained there for training will be put in uniform.

Turning to the Thomas "work or fight" amendment added by the Senate committee, the Secretary said he could see no objection to it in view of the fact that the regulations of the President are to be relied on to carry it into effect.

Regarding its provisions for revoking deferred classification for men who refuse to work, he added: "That seems to me to be entirely proper."

Labor Conscription Charged.

In case of strike he said the President could determine whether suspension of work was "in good faith" and could defer suspending exemption of workmen.

Secretary Morrison, of the American Federation of Labor, interrupted to oppose the "work or fight" amendment of the Senate bill.

"There is no question about labor going along with this Government," Mr. Morrison said. "Labor is doing its level best, but this amendment is nothing less than conscription of labor."

Chairman Dent said tonight that he hoped to report the measure Wednesday or Thursday, probably with amendments.

Minority Report Promised.

If sentiment in the committee for provisions specifying the order of class to be called, and specifically to defer calls for 18-year-old boys is reflected, Representative Kahn, of California, ranking Republican member, plans a minority report in favor of the Administration plan.

General Crowder told the committee that men now in class 1 would be exhaused by the September call and urged speedy action on the bill to provide sufficient men for future calls, although General March said he thought there would be enough men to last until November without the new legislation. By January 1, General Crowder said, he hoped to complete "classifying the Nation."

YANKS EAT WHEAT BREAD

Daily Ration of 18 Ounces Over-Abundant, Say Officials.

WASHINGTON, Aug. 19.—The American Army in France is amply supplied with bread made of all-wheat flour, the War Department announced today, and the daily ration of 18 ounces of flour for bread is so over-abundant that a reduction to 16 ounces is under consideration.

Soldiers in the United States consume Victory bread with the prescribed amount of substitutes for wheat flour. Not until they get to France are they allowed all-wheat bread.

Complaint to Be Investigated.

SEATTLE, Wash., Aug. 19.—Complaint of Washington dairymen that the high price of feed has eliminated all profit from the industry will be investigated by William E. Lamb, of Washington, D. C., an official from the Food Administration. Mr. Lamb will arrive here tomorrow.

CHINA SENDS ARMY TO BLOCK INVASION

Teuton Prisoners of War and Bolsheviki in Siberia Are Threatening Border.

JAPANESE ADVANCE HALTS

Dispute With Chinese Over Control of Railway Causes Delay; Arrival of Americans at Vladivostok Announced.

WASHINGTON, Aug. 19.—The Chinese government has sent a large force of troops to the Siberian border to prevent a threatened invasion of Chinese territory by German and Hungarian prisoners of war who joined with the Red Guard and other elements of the Bolsheviki against the Czecho-Slovaks in the trans-Baikal region.

WASHINGTON, Aug. 19.—The sending of the Chinese force was taken to mean that every means of bringing relief to the Czecho-Slovaks was being taken by the allied powers.

That the army of prisoners set free by the Bolsheviki and armed to fight the Czecho-Slovaks was menacing the Chinese border has been known here. China has declared she will not permit them to cross her borders, and if Chinese territory is violated a battle is promised.

Troops Ready to Assist.

It was said today at the State Department that the allied troops in Vladivostok are not under orders to remain there, as was indicated in an appeal for assistance recently made by General Diedrichs, the Czecho-Slovak leader, but may go anywhere they can assist.

Japanese troops probably will be the first to render aid to General Diedrichs.

PEKIN, Aug. 19.—(By the Associated Press.)—The movement of Japanese troops from Chang Chun, on the Mukden-Harbin railroad, to the Manchuria-Siberian front, has been further delayed because of the demand made by the Japanese that they virtually control the operations of the Chinese Eastern railway.

Chinese Oppose Control.

The Chinese officials, supported by the entente allied representatives in Pekin, have declined to consent to the taking over of the railroad by Japan.

VLADIVOSTOK, Aug. 16.—A second transport carrying American troops arrived at Vladivostok today.

The transport bearing the first contigent of American soldiers entered the harbor yesterday afternoon after a voyage of 7½ days from Manila. A third troopship is expected to arrive this evening.

PET TREES MUST FALL

GOVERNOR'S LOCUSTS TO GO INTO SHIPS.

Executive Sighs as He Gives Up Grove He Planted Near Hillsboro 45 Years Ago.

SALEM, Or., Aug. 19.—(Special.)—Back in 1873 Governor Withycombe purchased a piece of prairie ground in Washington County near Hillsboro, with the idea of some day building a country home there. After the purchase he planted a large number of shade trees, fitting the planting to the site for the proposed home which has never yet been built.

In the planting were ten black locust trees and just as he was outlining in his mind a design for the country home, a Government agent dropped into his office today and told him the Government needs the locust trees for the shipyards.

In the planting was a magnificent California Redwood tree which now has attained a diamater of more than four and one-half feet at the stump and the ranch has been named "Redwood Farm" after this tree.

"The Government can have the ranch if it needs it," was the statement of the Executive, but he said it with a sigh, as the trees of his own planting have now grown into beautiful specimens of the black locust.

TEACHER QUITS SUDDENLY

Evidence Tending to Show Eureka, Cal., Instructor I. W. W. Presented.

SANTA CRUZ, Aug. 19.—Confronted by Sheriff Howard Trafton with evidence tending to show that she was a member of the Industrial Workers of the World, Miss Minnie Adams, a teacher in the Eureka school, resigned her position today.

According to the Sheriff's office she came here from a school in Bisbee, Ariz., and was believed to have been in correspondence with Peter McEvoy, one of the Industrial Workers of the World members convicted in Chicago on charges of attempting to obstruct the Government's war programme. She had taught here three weeks.

Yes; S. S. S. Is Purely Vegetable Nature's Safe Blood Treatment

Known for 50 Years as the Best Remedy for Rheumatism, Catarrh, Scrofula, Skin Diseases.

Scientists have discovered that the forest and the field are abundantly supplied with vegetation of various kinds that furnish the ingredients for making a remedy for practically every ill and ailment of mankind. Medicines made from roots, herbs and barks which Nature has placed at the disposal of man, are better than strong mineral mixtures and concoctions. Mineral medicines work dangerously on the delicate parts of the system, especially the stomach and bowels, by eating out the lining membrane, producing chronic dyspepsia and often entirely ruining the health.

S. S. S. is made entirely of gentle-acting, healing, purifying roots, herbs and barks, possessing properties that build up all parts of the system, in addition to removing all impurities and poisons from the blood. S. S. S. is a safe treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Blood Poison and all disorders of the blood. It cleanses the entire system and it's permanent. Get S. S. S. at any drug store today. It is a standard remedy recognized everywhere as the greatest blood antidote ever discovered.
