Chase Takes Pursuer Through Timber: \$135 and Jewelry Disgorged When Revolver Is Drawn.

Mrs. C. O. Newton, of \$21 Thirteenth street, on Marquam Hill, yesterday played sleuth and brought to book two Indian women whom she pursued through the timbered section of the Fulton Park district after they had stolen her purse containing \$115 and some jewelry.

The Indians, who had been picking wild berries in the district the last few days, made frequent calls at Mrs. Newtons' home for drinking water. When they appeared yesterday Mrs. Newton was busy in her garden. She gave the two women permission to enter the house. A few minutes after they had left Mrs. Newton discovered that her bedroom had been ransacked and that her purse was missing. She immediately set out in pursuit of the Indians.

After searching the district for more than an hour she found the two women lying in the dense underbrush a short vehemently denied taking her purse. Thereupon, Mrs. Newton reported to her bag. In an instant the older Indian delved into her blanket and handed over the purse to Mrs. Newton.

Mrs. Newton was so pleased to recover her property that she did not feel inclined to press a charge of robbery against the Indians, and she permitted FRANCE, Aug. 27 .- (Midnight)-(By them to go on their way. One of the women was aged about 50 and the other

> WITH THE BRITISH ARMY IN the Associated Press.)-Large reinthe Germans in the neighborhood of Bapaume, especially at the town itself, and in the area immediately south of it. Although there is much confusion in the enemy ranks, his resistance stiffened appreciably tonight.

The Germans have gone to the greatest length to hold their line here and even have armed and thrown into the line bandsmen and men from the transport service. There has been loy, south of Bapaume.

### Germans Digging In.

On the center of the battle front the battle is raging with greatly increased violence. The Germans are and addressed by the title of his rank. reported to be digging in along a line the general direction of which may be reckoned as starting at the north bank of the Somme to the rear of Guillemont and northeast through Ginchy. It is believed the enemy intends to make a desperate stand on this line.

LONDON, Aug. 27.-Canadian troops made notable advances south of the Scarpe River today, according to Field Marshal Haig's report, occupying Cherizy, Vis-En-Artois and the oners. Scottish battalions also made excellent progress.

WITH THE BRITISH IN FRANCE, Aug. 27 .- (By the Associated Press.)-Having been still further extended by attacks launched north of the river Scarpe, the battle today rages along a field almost 45 miles long, and the British with renewed vigor were rolling up the Boche before them and sweeping eastward.

### Fighting Is Desperate.

Nearly in the center of the battlefield, hard fighting has been in progress along the old Hindenburg line in the neighborhood of Croisilles, Fontaine-Les-Croisilles and Bullecourt and once through the Germans' strong defenses in this locality, open fresh ground lies beyond.

The Hindenburg line actually has been pierced at one place cast of Heninel, and the weaker portion of it, northwest of Fontaine-Les-Croisilles has been captured and mopped up.

### High Ground Is Won.

During today's fighting the British captured high ground from which they can overlook the country occupied by the enemy for miles around and have thus attained a great advantage. The Bois Du Sart, one of these places, lies south of the Scarpe and northeast of Monchy-Le-Preux and it was feared that here the enemy might hold up the advance for a time. It was cap-

### Enemy Forced to Retreat.

Another valuable point, Montauban, northwest of Mametz, fell this morning, after the Germans had been given orders to hold at all costs. These orders were suddenly changed and the enemy retired in retreat.

Still another is Dompierre, southeast of Cappy Sur Somme. Dompierre was reached in the morning. From this point there is low rolling country all the way back to Peronne. The British at this place now are only six miles from Peronne, where the Somme bends to the south.

The greatest depth of the British advance today was three miles. It is clear that the British pressure is compelling the enemy to carry his
