Evangelist Moves Audience as Never Before in Appeal for Old-Time Religion.

PATRIOTISM IS STIRRED

Sin Declared Curse of World, Comparable to Prussianism, for Crushing of Which Millions Are Rallying.

HOOD RIVER, Or., Sept. 8.—(Special.)—Billy Sunday made a home run with his Hood River neighbors in his annual serman chat today. The sermon works would be served to the sermon of the s HOOD RIVER, Or., Sept. 8 .- (Spe with his Hood River neighbors in his annual serman chat today. The sermon was the second since a serious operation at Rochester, Minn., in early Summer. The Illness, or perhaps the war, and having a son, George Sunday, in France—something, at least, has mellowed Billy, and never has he so moved a Hood River audience. Combining in his talk of an hour and a half an appeal for the old-time religion and an eloquent call to his fellow citizens for support in all war works, Billy Sunday support in all war works, Billy Sunday raised to enthusiastic pitch of patrotic enthusiasm those who listened. Again he had them laughing like children, and

at moments they wiped away tears.

The evangelist had been invited by Governor Lister and the Mayor of Seattle to deliver an address at the Washington city today, but he denied them to talk to home folks. No other addresses will be made until Mr. Sunday

Governor Lister and the Mayor of Seattle to deliver an address at the Washington city today, but he denied them to talk to home folks. No other addresses will be made until Mr. Sunday opens his season's meetings at Providence, R. I., September 22, People gathered from a radius of 20 miles to hear Mr. Sunday, and horse-drawn rigs and automobiles were parked for five blocks around the Asbury Methodist Church, filled long before the hour of the meeting.

Sin Compared to Prussianism.

Luke, chapters 1 and 19, formed a text, and, translating them into his own language, Mr. Sunday declared sin the curse of Prussianism, for the crushing of which millions are rallying. He rebuked men and women for their treatment of preachers, denounced them for their contempt for servants of God, while life was rosy, only to call for help when the death pallor chilled their cheeks. "The preacher does not get a square deal," he cried.

Billy Sunday, however, doesn't disapprove of people going to church out of curiosity. "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have come here out of curiosity." "Very likely," he said, "some of you have

of which millions are rallying. He rebuked men and women for their treatment of preachers, denounced them for
their contempt for servants of God,
while life was rosy, only to call for
help when the death pallor chilled
their cheeks. "The preacher does not
get a square deal," he cried.

Billy Sunday, however, doesn't disapprove of people going to church out of
curlosity. "Very likely," he said, "some
of you have come here out of curlosity.
But as between the two, the man who
comes because he is curlous and the
man who stays away, I'll back the former." And then he told a touching
story of a man whose conversion resuited from a curlous visit to one of
his meetings. his meetings.

American Spirit Is Commended.

American Spirit Is Commended.

The sermon was closed with a Billy Sunday commendation of the spirit of Americans, characterized as the pinch hitters in the game to save the world. "There are two American armies today," he said, "that over there, where the boys are baring their breasts to the bullets and meeting the poison gas of trench warfare, and the great army here at home. Any of us of the army over here who says anything or does anything that will make it harder for the American soldiers should be branded as a traiter and backed up against a wall and shot."

Closing his meeting with a prayer, the evangelist thanked God for the complexion, brown as any Autumn herry, that had replaced the hospital pallor and for the return of strength that had made possible healthful work in the hay cld and the task of fighting forest fires that menaced the homes of neighbors.

Rosebud Chorus Girls Appear in Striking Costumes and Introduce Some New and Fancy Steps.

Mike and Ike as lawyers for the manager and bareback queen of a circus were presented in "Circus Day," Keating and Flood's new offering which opened at the Lyric yesterday.

The domestic and business affairs of the two comedians become hopelessly entangled from the very start of the play, and the audience is only allowed breathing space when the Rosebud chorus interrupts the thread of the plot with popular songs and dancing. The action centers around Signor Bonansa (Bob LaLonde), director of the

circus, and Marcella (Dot Raymond), the bareback rider, who is suing him for breach of contract. They enlist the aid of Mike and Ike to straighten out their entangled business affairs.

The Rosebud chorus girls appear in a number of binarre costumes and introduce some new fancy steps. Ben Dillon and Al Franks, the Mike and Ike around whom the Lyric comedies are written, have not appeared to better advantage in any of their series given in Portland than as the principals of "Circus Day."

Dot Raymond is admirably cast as

circus, and Marcella (Dot Raymond),

Dot Raymond is admirably cast as Marcella, and Myrtle Howard is af-forded some good opportunities as Mac

OF INDUSTRIES OUT

Plants Essential to War or to Civil Population Specified by Chairman Baruch.

CLASSES FORMED

Relative Importance Considered in Creating Groups-Preference List Not to Operate as Embargo Against All Others.

WASHINGTON, Sept. 8 .- A new priori-WASHINGTON, Sept. 8.—A new priorities list of industries and plants essential to the war or the civil population was announced today by Chairman Baruch, of the War Industries Board. It was described as the master key, governing the issuance of priority certificates by the priorities commissioner of the board for fuel supply or electrical energy, transportation, material, facilities, capital and labor, and as the basis for industrial exemption from the draft.

"The inclusion of the industries and "The inclusion of the industries and plants on this preference list," said the announcement, "does not operate as an embargo against all others, but the effect is to defer the requirements of all other industries and plants until the requirements of those on the preference list shall have been satisfied."

Four Classes Grouped.

Industries have been grouped into four classes according to their relative importance. No distinction is made between industries or plants within any one class, and it was explained that no significance is to be attached to the order in which they are listed within any class. The industries or plants under class 1 are of exceptional importance.

Fuel for domestic consumption—residences, apartment-houses, restaurants and hotels—is in class 1. Food, railways operated by the railroad administration, the Army and Navy, aircraft, ships and shipyards, war chemical plants, coal mines and by-product coke plants, certain public utilities, ordnance and small arms plants, and ammunition and explosives are also in class 1.

Relative Importance Basis.
Requirements of those grouped under classes 2, 3 and 4, will be given priority over those not on the preference list, but as between these three classes there is no absolute preference provided. Relative Importance of the industries and plants within each group will be the basis of operation.

Each plant listed in the three last classes will be required to file with the War Industries Board before the 15th of each month a report of activities Relative Importance Basis.

of each month a report of activities during the preceding month. Failure to comply with this order will mean removal from the preference list.

Complete List Given.

The complete list follows:
Class One—Plants principally engaged in producing aircraft, supplies and equipment, ammunition for the United States and the allies; ordnance and small arms for the United States and the allies; for explicities and the allies; for explicities and the allies; for explicities. chemical warfare; metallurgical coke explosives for milimiding tolesology of the common for the

cranes, rolling and drawing copper, brass and other copper alloys, coke not otherwise classified and listed, ferro alloys, machine tools and wire rope; blast furnaces producing pig iron; steel will will converse alloys. mandments, gave place to the new coverant miles (producing rails over 50 pounds per yard); construction work of the War or Navy departments in embarkation ports, harbors, defenses, fortifications, flood protection, operations, docks, locks, channels, inland waterways and in maintenance and rails of

ways and in maintenance and repair of same; mines producing metals and ferro-alloy minerals; street railways, electric lighting and power companies, gas plants not otherwise classified, telephone and telegraph companies, water supply companies and like general utilities; railways not operated by the United States, excluding those operated as plant facilities.

Food Factories in Class 3. Class 3-Plants engaged princi-pally in producing food not otherwise listed, not including soft drinks, con-fectionery and chewing gum; ice, mining tools and equipment, equipment and supplies for producing or trans-porting oil or gas for mechanical pur-poses, iron and steel chains, electrical equipment, explosives not otherwise listed, tin plate and small or hand tools for working wood or metal; fuel and electric energy for domestic consumers not otherwise listed; steel rolling and drawing mills not otherwise listed; maintenance of public buildings, other than those used as hospitals and sanitariums.

class 4—Laundries, plants engaged principally in producing manufactured hemp, jute and cotton bags, manufacturing chemicals not otherwise listed, medicines and medical and surgical supplies, fertilizers, fire brick, gray iron and malleable iron castings. gray fron and malleable iron castings, food containers, insecticides and fungicides, soap, tanned leather and tanning extracts, cotton and woolen textiles, including spinning and weaving and finishing, cotton and woolen knit goods, textile machinery, binder twine and rope, plants engaged exclusively in manufacturing boots and shoes; plants engaged exclusively in manufacturing pulp and paper; cotton compressing; plants engaged principally in producing newspapers or periodicals which

or muffins, or into ice cream or savory puddings. With fruit it's delightful. And it can be served in many other original, tempting ways. Whole, sound rice and pure Jersey Milk-we bring the

very choicest of the two together and combine them in a taste-pleasing way. There's no other food quite so delicious as "Holly" Rice and Milk.

Order it by the dozen cans from "HOLLYyour Grocer.

town with a bottle of Lydia E. Pink-ham's Vegetable

Compound and wanted me to try it. It brought relief

butter fat.

Old Mosaic Covenant Superseded, Says Dr. Griffis.

solely steel ingots and castings by the various purposes, domestic consumers of fuel and electric energy for residential consumption, including homes, apartment-houses, residential flats, restaurants and hotels, coal mines, arsenals, cantonments and camps of the Adventists divide the law of Moses into two parts—the moral and ceremonial—and endeavor to show that it was only erated by the U. S. Rallroad Administration; maintenance and operation of ships, excluding pleasure craft, not common carriers and maintenance of public buildings used as hospitals or sanitariums.

Second Class Listed.

Class 2—Plants principally engaged in producing locomotive or traveling cranes, rolling and drawing copper.

persoded by the Gospel, of Christ. The be the new superintendent in addition New Testament teaches, also, that the old covenant which God made with the Jews, and which included the Ten Commandments, gave place to the new cov "My observance of the first day of

the week does not depend one lota on the Ten Commandments. Indeed, as a mere Jewish code, I repudiate the Ten Commandments. I recognize the special religious importance of Sunday, not because of anything Moses ever said or did, but because of a greater event than any Moses ever heard of—withe resurrection of the Son of God.

"The Christian's Sunday is not a day of rest based on an obsolete decalogue, but a day of worship and service, based upon the gratitude of men and women who have been redeemed from the terrors of the grave by the Resurrection."

yesterday in the First United Brethren Church at East Fifteenth and Morrison streets by Miss Elizabeth Reed, a returned missionary from Porto Rico. She has spent 16 years in missionary work and handled her subject, "Missions in Porto Rico." In a most able manner. The speaker, in addition to giving personal experiences, told of conditions in general, and related vast strides being made.

Miss Reed gave her audience a clear idea of the great programme being carried on by the church through missionary from Porto Rico. I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."—Mrs. O. S. Johnson, R. No. 3, Ellensburg, Wash. There are women averaging the compound of the compoun There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

Rupture Kills 7,000 Annually

Seven thousand persons each year are faid away—the burial certificate being marked "Rupture." Why? Because the unfortunate once had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a make-shift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.
But science has found a way, and every trues sufferer in the land is invited to make a FRSE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body cannot possibly slip or shift out of place, therefore, cannot chafe or pinch. Soft as velvet—easy to apply—inexpensive. To be used whilst you work and whilst you sleep. No straps, buckles or spring attached. Seven thousand persons each year are laid

hed.

Learn how to close the herinal opening as ture intended so the rupture CAN'T come an. Eard your name today to PLAPAG .
