Brewers Want More Light.

"The original rider to the agricultural bill said specifically that the order would apply only to 'alcoholic drinks made from cereals," declared Adam Muller, manager of the Portland Brewing Company. "All the drinks we manufacture contain little more than a trace of alcohol and could not be classed as

disposed of before December 1, or may actual brewing in kettle be continued until that date, and finishing, such as processing, carbonating and placing in bottles, etc., and selling, inue until stocks brewed December 1 be exhausted?"

Besides these two Portland plants, which employ about 89 men, the Interstate Products Company at Vancouver, Wash, and other plants in the Northwest will be affected.

The Henry Weinhard Company, which has built be affected.

The Henry Weinhard Company, which has been supported by the support of the suppor

has cut in two its force of 100 men employed before prohibition went into effect, would stop brewing in about two weeks, said Mr. Wessinger, if it were necessary to dispose of all stock before-December 1. Most of the present hop crop would be valueless if the order extended to manufacture of all sub-stitutes, he declared.

WORK IS BEING PUSHED

SUBSTRUCTURE FOR ST. JOHNS TERMINAL UNDER WAY.

Date Set for Opening Blds for Securities, September 12, Not to Be Changed Because of Draft Registration.

As the Commission of Public Docks met September 12 as the time for open-ing bids for the sale of \$1,000,000 of bonds before that date was selected for the draft registration, no change is to be made, though a decision as to the award will be deferred one day.

The funds derived from the sale of the securities are to be devoted to completing the St. Johns Municipal Terminal project, which includes the 1,000,000-bushel grain elevator. J. A. McEachern, who has a contract for the 1200,000 place of the contract for the 1200-foot pler at the terminal, has finished all of the main piledriving, only fender piling and the like remaining to be placed, and has begun to raise trusses for the warehouse on the pier. which will cover half its length. Later

which will cover hair its length. Later the entire pier may be covered. On the grain elevator construction Grant Smith & Co., contractors, have finished waterproofing the substruc-ture to the level of the basement floor. ture to the level of the basement floor.

The dredge Sandy was used last week to pump material to fill between the lowest levels of the foundation and that of the basement slab, and when that is in place and waterproceed the

force can proceed with construction of grain bins and the operating house. When the first floor of the operating house is reached the operators will employ three shifts of men, and it is believed that with the additional help the walls will rise at the rate of seven feet a day, and that within 45 days the last of the concrete should be poured on the sides.

Machinery for the elevator is re-

corted arriving on schedule and sup-plies of structural steel are coming at plies of structural steel are coming at a rate to keep the work moving. A fill has been finished to connect the elevator and pier with a railroad track from the main line of the O.-W. R. & N. to expedite deliveries of cars, and rails are being laid. Hard surfacing of a road connecting with the county highway is progressing and the road will be extended on the dredged fill to the elevator.

from Washington before closing their plants in accordance with the Federal order issued Saturday prohibiting the manufacture of beer after December 1. The watches are known as the 18 size and have "up and down" indicators as on a chronometer. It is brewing interests cling to the hope that only those plants making drinks classed as alcoholic are included. While they have been preparing to shut down next Spring, no arrangements yet have been made for closing this year.

Press dispatches said the order applied to all "near-beers" and other substitutes for alcoholic drinks, while in ones under construction.

of alcohol and could not be classed as alcoholic.

"We are proceeding on this theory until we are advised officially. There is nothing in the order that should acfect manufacturers of substitutes in this territory, for only the non-preventable amount of alcohol gets into the drinks made here."

Another question raised is whether the order means the stopping of actual brewing on December 1 or the actual disposal of all stock on hand on that date. To clear up this and other points in connection with the order, Paul Wessinger, manager of the Henry Weinhard plant, yesterday sent the following telegram to the National Cereal Beverage Association, Chicago:

WANTED

Energetic, High-Speed Executive to handle distribution to 230 Motion-Picture Theaters in this district of The Mayor of Filbert, an absorbing, \$200,000, eight-reel Triangle Special on the liquor question. Must know how to deal with local committees and to handle bankers and big business men and deal with the political situation with judgment and discretion.

One man-if he is big enough and fast enough-can organize and put this through. It is too imme-diate-too important a job to be handled in usual trade channels.

To fall in with the advertising plan and take full advantage of the present situation, local distributors must be taking contracts and settling dates on this picture, in every part of the United States, within fifteen days. So we are looking for the right man in 100 districts.

Large immediate profit for the successful ones. No matter what your present business interests—here's a chance for you and a few friends to get into the profit end of the Motion Picture business on your own account in your own district, that hasn't come before; wouldn't have come now but for the impossibility of letting this picture take its turn in the routine of distribution—for Speed Is Vital.
