of the urgency for moving wheat on vessels of the new fleet as well as re-ceiving shipments for storage from the interior. Mr. Houser's efforts resuited in the offer of the temporary wage scale, with the understanding it will be retreactive if the men return to their employment at once.

The union representatives hoped that an adjustment could be brought about that would restore normal conditions on the docks immediately. The grain men, while wishing to keep the cereal movement under way, are concerned as well in obtaining more ships than have been allotted as a means of getting grain away by water to relieve the

That failure to settle the differences would result in Portland being placed in an embarrassing situation with the Government is pointed out by the em-ployers, who say as well that an ad-justment insures much more grain be-

traffic.

At the South Pertland plants of the Northwest Steel Company and the Columbia River Shipbuilding Corporation garages have been built for the care of a number of cars and more facilities are to be provided. The Columbia River plant has one located on the hill in the rear of the property and the Northwest Steel Company is preparing to arrange space in a ravine west of the vard for the accommodation of cars of employes. In that way it is hoped to prevent dongestion on the pavement leading to the plants.

obtain the assignment of more steamers.

The men have been working since
July for 70 cents straight time and
\$1.05 overtime, and say that at Astoria
80 cents an hour is being paid, and on
Puget Sound, where the scale has been
reported as 65 cents, as high as 75
cents is being received. For that reason, they declare, Portland wages
should be advanced.

A REASON FOR IT!

The motor track offers a transportation that the railroad cannot. It takes the freight at the FACTS point of origin and delivers it at NO.293 the door of the onsignee. It provides its own terminal facilities. Hardsurface roads carrying the increasing streams of motor trucks are a necessity that can be accomplished by paving roads with
