James S. Stewart to Enter Y. M. C. A. Work Abroad.

WAR LEGISLATION IS EYED

Representative Believes Next Session of Legislature Will Mark Era in Oregon's History.

James S. Stewart, Representative, will leave for France as a Y. M. C. A. secretary immediately after the adjournment of the Legislature. The board, which has the selection of secretaries, has been anxious to secure the services of Representative Stewart, but has agreed that he should wait a few months inasmuch as there may be some war legislation at Salem requiring his assistance.

"I am convinced that there will be considerable war legislation in the coming session," says Mr. Stewart. "Most people are convinced that the war will be ended before there can be another session. I mean, that before the 191 session of the Oregon Legislature convenes the war will be over and the reconstruction period will have started. Wisdom dictates that the coming Legislature should ignore this problem. It is not necessary to call a special session when the war ends. The thing to do is to anticipate and to consider such matters as will help to solve the puzzles which reconstruction will bring about."

"What legislation should be undertaken, rather than what specific things should be done, I am not prepared to say at this time. Road legislation will be necessary, that is certain, for roads are linked with the war more than many people imagine."

The main purpose of Mr. Stewart's visit to Portland was to appear before the State Highway Commission yesterday and secure road money for the counties in his district. Although he expects to leave the district, his interests are still there, and he made such a good showing to the commission that they granted the appropriation which he asked.

"I'm too old to enlist, but I want to do something," explained Mr. Stewart, discussing his future plans. "A brother of mine was killed at his machine gun post August, after he had gone through four years of the war. He was in a hospital in the Spring, suffering from trench fever, and I suppose that he was not in physical condition in August when the big fighting took place, for he was wounded at his machine gun post which ordinarily would not have proved fatal."

"A younger brother is wounded at Saloniki. Two of my sons are in the service and the third is anxious to go, but they won't take him because he is only 18 years old, although he is big enough. He is at Corvallis attending the O. A. C. And so I want to get into the game. I am not prepared to say whether I believe that I can help cheer the boys in France."

"From present indications I will probably leave Salem for the western line in March. To my way of thinking, the war will be won next summer, but at the outside it will be over in 1920. This is why I feel that the coming session of the Legislature should look forward to the after-war period and have the state prepared."

Referring to the contest for Speaker, Representative Stewart declared that he is unpledged. He has received letters from the various aspirants for the position, but he has not expressed a preference.

"I was unpledged when I took my seat two years ago," said Mr. Stewart, "and I expect to be unpledged when I take my seat next January."
