

TWO DEATHS RESULT FROM PNEUMONIA

Fatal Cases Reported by Good Samaritan Hospital.

BOTH RECENT ARRIVALS

Twenty-eight of 78 Cases Reported Yesterday Classified as Influenza. Others Colds or La Grippe.

Two deaths from influenza and 73 additional cases of influenza yesterday made the local situation more critical. Health officials drew comfort from the fact that both deaths were of men who had been here but a short time and that a vast majority of 285 cases reported were merely colds.

Two deaths were reported from the Good Samaritan Hospital, George Stout, 28, a married man, recently arrived from Hazelton, Kan., died yesterday afternoon after being under treatment for three days. His condition is said to have been serious when he was brought to the hospital.

The other death made known yesterday was that of Charles G. Johnson, 36 years of age, who came to this city to work in the shipyard. After working only four hours at the Standifer yards, he was taken to the Good Samaritan Hospital, where he died after 24 hours. He came from Robert, Idaho, where a brother is said to live. He had been living at 54 Sixteenth street.

CAMP LEWIS, Tacoma, Oct. 15.—Admissions to the base hospital lessened during the past 24 hours, according to the health report issued this afternoon. Influenza sent the greatest number of soldiers to the hospital, 167 new cases being reported. Pneumonia was next with 24 cases. Yesterday 67 cases of pneumonia were reported by the hospital. There were seven deaths, six due to pneumonia.

ALBANY HAS ONE INFLUENZA CASE.

ALBANY, Or., Oct. 15.—(Special.)—Only one case of Spanish influenza has been reported thus far in Albany. The case was a very mild one and the patient has practically recovered. It has not been necessary to close schools or stop public gatherings here, but public dances were stopped as a precaution.

PLAGUE DEFIES CONTROL

INFLUENZA NOW EPIDEMIC IN MOST STATES.

Mortality Rate High in Many Parts of Nation; Malady Relaxes Grip on Army.

WASHINGTON, Oct. 15.—Spanish influenza has reached epidemic proportions in practically every state in the country, in spite of all efforts by Federal, state and local authorities. Not a single state east of the Mississippi is clear of the disease and in most of the Coast states from Maine to Florida, conditions are serious.

The number of cases reported is increasing in Oregon, Washington and California. The malady has appeared in all mountain states and is epidemic in most of them. Minnesota is the only West Central state reporting the disease stationary.

In war-crowded District of Columbia the epidemic continues unabated. As a further precautionary measure, the Treasury and Interior Departments today issued orders that no new employees of those departments be brought to Washington until further notice.

CHICAGO, Oct. 15.—More than 10,000

new cases of influenza were reported in Illinois today. Reports from 170 Illinois cities of over 1000 population show a total of 21,800 cases of the disease. There were 183 deaths from influenza and 124 from pneumonia in Chicago today.

DENVER, Oct. 15.—Nineteen additional deaths from Spanish influenza have been recorded in Denver in the 24-hour period ending tonight. Two hundred and fifty-seven new cases were reported today.

The health committee today ordered the discontinuance of all outdoor, as well as indoor gatherings.

INDIANAPOLIS, Ind., Oct. 15.—John Aitken, one of the best-known automobile race drivers in America, died here today of pneumonia following an attack of influenza.

He had participated in most of the big automobile speed contests since that sport became popular. He was 33 years old.

MISSOULA, Mont., Oct. 15.—The University of Montana was closed today after a conference of the collegiate and health authorities because of the Spanish influenza.

SALT LAKE CITY, Oct. 15.—From every town in Utah where Spanish influenza has made its appearance, there comes a cry for nurses. The shortage is due, it is said, to the fact that many nurses themselves have been stricken.

Nearly 200 new cases were reported in this city during the last 24 hours. Seventeen additional deaths through the state had been reported since yesterday morning. More than 400 cases are reported at Ogden, and 200 are being cared for at Fort Douglas, a military post near here.

PARIS, Oct. 15.—Dr. Charles Micholle and his colleague, Dr. Le Bailly, who isolated the microbe causing Spanish influenza at the Pasteur Institute at Tunis, announces that the germ is too small to be visible with the microscope. It has been clearly identified, however.

At Benson Polytechnic School the general situation is said to have improved, though many of the soldiers still are sick.

City health officials are experiencing difficulty in obtaining nurses and are making an appeal for aid. Several cases are without proper nursing care, according to Dr. Parrish.

OREGON CITY, Or., Oct. 15.—(Special.)—Three divorce suits were filed in Circuit Court here today. E. W. Grifben, who was married to Nettie L. Grifben in Oregon City May 27, 1912, charges desertion.

Quat C. Peterson asks for a divorce from Maxine Martines Peterson. He charges that the defendant, at the time of their marriage, had a husband from whom she had not been legally separated.

Mary A. Korman charges that Michael N. Korman called her a fool and a liar and that last Friday he ordered her from their home. Kellogg and \$150 suit money and \$50 temporary alimony.

DAIRY COUNCIL TO MEET

Plea Sent Draft Board Requesting Farm Laborers Continue.

Professor O. D. Canter, president of the Oregon Dairy Council, has called a meeting of that organization for Wednesday, October 23, at 1 P. M., in the Chamber of Commerce.

The dairy council is receiving encouraging support from the leading men and organizations of the state and from the Oregon delegation at Washington. At the suggestion of the Council of Defense, the Oregon Dairy Council has sent to all district draft boards a special plea that the farm and dairy laborers be left to maintain the farms, as it is found that in the first eight months of this year \$2,000 dairy cows had been slaughtered because of feed and labor difficulties. Many farmers have decided to quit on account of shortage of labor.
