

### JUSTICE HARRIS MAY QUIT SUPREME BENCH

Rumor Says Lawyer Is Slated for Federal Job.

### LANGLEY BOOSTERS ACTIVE

Denton Burdick, Avowed Candidate for Speaker of House, Here to Look Over Situation.

That Justice Lawrence A. Harris will resign from the Oregon Supreme Court within a short time is a rumor that has been persistently in circulation for several weeks past.

According to the street gossip, which is also the gossip in the habit of lawyers, Justice Harris intends tendering his resignation in order to accept a commission as Major in the Judge-Advocate's department. It is further stated that when the commission arrives, Justice Harris will be sent abroad for duty.

At the time the rumor first gained currency in Portland it was also added that Justice Harris had not taken Governor Withycombe into his confidence and that the Governor was unaware that he will soon have another vacancy on the supreme bench to fill.

Originally the rumored resignation was handed out as a very deep secret, but now it appears to have spread until it is general and Democratic lawyers as well as Republican attorneys are discussing it and what the Governor will do.

Some weeks ago Government agents browsed around the legal talent in Oregon sounding various lawyers about accepting commissions in the Judge-Advocate's department. Among others supposed to have been interviewed was Justice Harris who is the youngest member of the bench—barring Justice Conrad P. Olson, temporarily appointed to fill the vacancy caused by the death of Justice Moore.

There was a meeting of lawyers last night in a downtown office to organize a campaign for L. Langley, Democratic opponent of Circuit Judge C. U. Gantenbein. It is planned to make an aggressive campaign and a number of prominent Democratic lawyers signified their willingness to add to the interest of the campaign.

Denton Burdick, who is a candidate for Speaker of the House in the coming session of the Legislature, arrived in Portland yesterday to take birdseye view of the situation. Mr. Burdick is referred to as the Eastern Oregon candidate for speaker and is considered as one of the serious contenders in the contest.

It isn't generally admitted, but Federal office holders have been contributing to the Democratic campaign, not while Federal officials are supposed to be exempt from giving contributions there is nothing to prevent a free-will offering.

Cards of candidates are beginning to appear in vacant store windows and on trees along the roads. This is the only visible evidence that the general public has that there is a campaign on and actively engaged with the conference.

### TOURISTS LOOK TO OREGON

### HEAVY TRAVEL EXPECTED BY CANADIAN SPEAKER.

John Hooper, of Information Bureau, Visits in Portland En Route to Southern California.

That the increase in railroad rates on American roads is going to be the cause of thousands of Canadians visiting Portland and Pacific Coast points this winter and next spring, was the word brought here yesterday by John Hooper, manager for the Canadian Tourist Association of Winnipeg, and the first and only traveling speaker for the Information Bureau of the Canadian Government.

"The Railroad Committee of the Canadian Government has agreed to sell tickets to Vancouver and Victoria at the rates which prevailed before the war. Tourists are therefore being advised by our association to travel to the Pacific Coast through the scenic portions of Canada, and then down the West Coast," explained Mr. Hooper. "By so doing our Canadians will save \$25 on each ticket going down and a similar amount on the return trip."

These people used to travel to California by way of Minneapolis and Salt Lake, which is the direct line. Before the American rates were increased one-half a cent per mile that route saved our people about \$25 each way as against the Coast Route. Now the conditions are reversed.

**Heaters! Heaters! Heaters!**  
*This Store Is Headquarters for the Best*

**SAVE FUEL!—A Need of the Hour**  
Help the Government and serve your own interests by securing more heat with less fuel. A fuel-eating stove, always an evil, is especially so these days when wood and coal are so expensive. Health requirements, too, should be considered—and a proper warmth maintained in the home. Those who contemplate the purchase of a new heater will do well to bear in mind that we have

**A "Universal" Heater**  
to meet every requirement (some are pictured above).  
Wood heaters, coal heaters, briquet heaters, combination wood and coal heaters. We especially call to your attention the superior features of

**The Air Blast Combination Wood and Coal Heater**  
The Air Blast is without a doubt the greatest fuel saver on the market today. With its new and scientific overhead draft construction it supplies an abundance of super-heated air directly over the fuel chamber—  
The Universal Air Blast is a strictly high-class, well-built heater. Doors and dampers smooth ground—the Air Blast carefully holds and controls the fire.  
The Air Blast burns the smoke—heats the floor—holds the fire—AND has many other exclusive features. Let us demonstrate this remarkable heater to you.
