Four Big Wards Are in Operation in Auditorium and Stage May Be Fitted With Beds.

New cases for the past 48 hours were given as 184, bringing the total to 1861 for the past three weeks.

An encouraging feature yesterday was that several cases were discharged from the city's emergency hospital as cured.

Four big wards are now going full blast at the Auditorium.

The stage will be the next to be fitted up as a hospital ward.

A general improvement in most of the cases under surveillance is another encouraging point in the epidemic.

Remember "The Three C's" To Avoid Influenza

Grip has come up smiling, in a new form—called "Spanish influenza." It has become epidemic in many places. Ordinary influenza, always prevalent at this time of the year, is bad enough, often leaving more serious troubles in its wake.

The Surgeon General of the Army recently issued twelve rules to the public, to safeguard against the spread of respiratory diseases. The fourth of these rules is as follows:

"4. Remember the three C's—A Clean Mouth, Clean Skin and Clean Clothes."

Kolynos Dental Cream will give you clean teeth, a clean mouth, and a clean throat. This sanitary cleanliness endures for several hours and greatly diminishes the danger of infection.

Use Kolynos three times daily, according to the printed directions accompanying every tube. If the nasal passages appear irritated, put a little Kolynos Cream in the entrance of the nostrils for about ten minutes.

In these times, internal cleanliness is of supreme importance—to you and to your neighbor.
