

ALLES DRIVE BACK ENEMY EVERYWHERE

Hun Yields From Holland to Below Valenciennes.

GERMANS FIGHT BITTERLY

British, French and Belgian Armies Push Closer to Ghent and the River Scheldt Reached.

(Continued From First Page.)

German troops were put to such hurried flight that they had little time to take their artillery and vast stores of ammunition with them. These fell into the hands of the allied troops, and the guns were promptly turned around and shells were sent eastward as fast as they could be fired against their original owners.

Belgian artillery has been moved up rapidly behind the infantry and is pounding the enemy constantly. The fighting is going on in rain and mud. To some extent the allied troops have left behind the ground which turns into marsh and have not been hampered greatly.

LONDON, Oct. 21.—The allied armies now are two miles from Tournai, where the Germans are resisting strenuously. Just to the east of the city lies high ground, which is giving the Germans the advantage in the present fighting.

Terrain Favors Germans. The British are not having an easy time around Valenciennes, but they have pushed forward to within two miles of the city. Here also the Germans have the advantage in terrain.

WITH THE ARMED ARMIES IN NORTHERN FRANCE, Oct. 21.—Cyclists have reached Hauchin on the Scheldt, less than three miles southwest of the important city of Valenciennes. The infantry is pouring on after them.

The canal has been crossed on a wide front from Etreux southward, against the heaviest resistance. The Germans have delivered a number of counter attacks, but in every case they have broken down under the hot fire of the allied troops.

American troops participating in this action crossed the canal under heavy fire. They and the British killed a great number of Germans who were attempting to hold the west bank and sought to stop them after they had gained it.

The River Selle has been crossed along its course from a point north of Le Cateau to the Scheldt and is being rapidly left behind.

In this region the River Escaillon has been reached and probably crossed. The Germans have delivered a number of counter attacks, but in every case they have broken down under the hot fire of the allied troops.

AMSTERDAM, Oct. 20.—German guards at the frontier post of Maaga Van Gent, near Watervliet, 15 miles north of Ghent, were replaced by entire guards today. The post at Sas-Van-Geest, seven miles further south, was being held by the Germans today, but they said they were leaving at once.

PARIS, Oct. 21.—The situation is without change in the Oise front, according to the War Office announcement tonight. Between the Oise and the Serre the French have occupied Mestrecourt-Richecourt.

The statement says: "Without change on the Oise front. Between the Oise and the Serre our troops resumed their progress this morning. On the right we occupied Mestrecourt-Richecourt, on the left, between Lucy and Villers-le-Sec, we gained ground despite the enemy's spirited resistance. The battle was stubborn."

On the plateau east of Vouziers the Germans counter-attacked several times with large effectives. Our troops resisted all the assaults and maintained their positions.

During the night and early morning there was sharp fighting for possession of the village of Amerival, which we captured during our attack yesterday. Determined attacks to regain the village were repulsed.

Has Opposition Overcome. "Early this morning the enemy made an unsuccessful attempt to drive in our advanced troops in the neighborhood of the Cambrai-Brai road. We secured a few prisoners. East and north of Denain our progress has continued in the face of considerable opposition.

"We are less than two miles from Valenciennes and have reached the general line La Sentinelle-St. Amand-Rony-Taintegnies. We hold the west bank of the Scheldt at and several miles north of Pont-A-Chin, northwest of Tournai."

LONDON, Oct. 21.—The French troops on the allied center in Belgium have gained a bridgehead across the Lys Canal at Nevele, seven miles west of Ghent.

Boches Try to Hold Line. The French also have gained a bridgehead across the Lys River at Gramme. The Germans are attempting to hold a line from Eede to the River Lys at Peteghem, north of Gramme.

South of the Scheldt, the British have strengthened the line between Denain and Le Cateau and are within three or four miles of the Valenciennes railway line. The allies also have straightened out their line between the Oise and the Serre, and the French are engaged in heavy fighting in the strongly fortified Hunting line.

BRITISH HEADQUARTERS IN BELGIUM, Oct. 21.—(Reuter's).—In the region east of Courtrai the Second British Army today was advancing on a line of 3 1/2 miles along the Scheldt River. They had gained this line by a great bound forward Sunday.

Enemy Suffers Severely. During the battle which resulted in this gain more than 700 prisoners were captured and heavy casualties were inflicted on the enemy.

The second army encountered very stiff opposition in places when it resumed its attack Sunday. When the fighting lulled last evening, the British maintained a big salient into the German front from St. Louis to Belleghem as far as the vicinity of Knock and to a depth of about five miles.

The British line ran from Waalsonek along the Belleghem salient and thence past Wareoing and Baillet to the west of Tournai.

LOAN SUCCESS, SAY TREASURY CHIEFS

Definite Figures on Result Not Yet Prepared.

NAVY MAKES FINE RECORD

Amount Subscribed in Excess of \$140,000,000; Shipyards Total Reaches \$33,386,800.

WASHINGTON, Oct. 21.—After reading a number of late reports on the outcome of the fourth liberty loan campaign, Treasury officials declared tonight there was nothing definite thus far to announce either as to the total volume of subscriptions or the number of subscribers.

They still felt no doubt that the loan has been oversubscribed, but explained that more earlier messages appeared too optimistic in the light of actual figures now being compiled by every bank and local committee over the country.

Some cities which at first reported they were heavily oversubscribed now find that they barely went over their marks.

There was good ground, however, for the estimate that \$2,000,000,000 of individuals had subscribed to the loan.

Statement to Be Delayed. Owing to the present uncertainty the Treasury decided to make no further announcement concerning the results of the loan until definite and official figures are received from each of the reserve bank. The first of these reports is hardly looked for before next Monday, and final compilations may be delayed two weeks.

Reports so far received indicate clearly, officials say, that the household canvass campaign, which is a system of having citizens call voluntarily at polling places, should be used more extensively in the fifth liberty loan campaign, set for next Spring.

Stories of self-sacrifice by individuals and business interests, of fine records of loan workers, of unceasing effort throughout the country, of periods of clever methods and efficient salesmanship, of enthusiastic determination which stopped at neither moral discouragement nor physical handicaps from influenza illness, are reaching the Treasury in every mail.

Naval Subscription Heavy. "Words of thanks seem paltry in the face of the deeds now being reported," said one official.

The Navy subscribed more than \$140,000,000, said an announcement today by Rear-Admiral Cowie, Navy liberty loan officer, and this figure will be raised by later reports.

The Army also made a fine record, but the figures are yet incomplete. General Pershing cabled that up to October 14 members of the American expeditionary force had subscribed \$1,297,000, and that this probably would run to \$2,000,000 or more.

Officials and employees of 27 shipyards subscribed \$25,386,800, the Shipping Board announced. If the other 106 yards maintain the same ratio, the grand total for the industry will be about \$75,000,000, an average of more than \$150 per man.

Big Subscriptions Reported. Plants reporting big subscriptions were: American Shipbuilding Company, Cleveland, \$2,000,000; Bethlehem Shipbuilding Corporation, Philadelphia, \$2,000,000; Hog Island, \$2,000,000; Skinner & Eddy, Seattle, \$2,000,000; Submarine Boat Corporation, New York, \$1,400,000; Fore River Plant, Bethlehem Shipbuilding Corporation, \$1,000,000; Boston Plant, Bethlehem Corporation, \$1,000,000; Francisco, \$1,701,500; New York Shipbuilding Corporation, \$1,000,000.

Shipping Board employees subscribed more than \$1,000,000; Emergency Fleet Corporation employees in Philadelphia bought more than \$1,500,000.

NEW YORK, Oct. 21.—Every one of the eight sub-districts of the New York Federal Reserve District went over the top in the fourth liberty loan with oversubscriptions ranging from 6 to 50 per cent, it was announced tonight, following receipt of reports from sub-district chairmen.

CHICAGO, Oct. 21.—An oversubscription of nearly \$2,000,000 is indicated in the state division of the Seventh Federal Reserve District, according to reports received today by the different state chairmen of the liberty loan organizations. Every state had an oversubscription.

MANILA, P. I., Oct. 21.—Subscriptions to the liberty loan here exceeded \$10,000,000, according to unofficial returns at midnight Saturday.

Sheridan Over Top. SHERIDAN, Or., Oct. 21.—(Special).—The banks of this city reported Sheridan had subscribed its liberty loan quota last night. The Liberty Loan Bank has subscriptions of \$28,850 and the First National Bank subscriptions of \$23,650.

60,000 CARDS TURNED IN HOUSE SURVEY CANVASSERS COMPLETE WORK.

Teachers Are Asked to Use Enforced Idleness to Tabulate Returns to Help City.

Teachers of the Portland public schools who are off duty because of the influenza epidemic, but who continue to draw their salaries, have been afforded an opportunity to assist the Government during their enforced vacation, through a call issued yesterday by Mayor Baker, president of the Portland Housing Survey. C. C. Coe, chairman of the housing survey committee; H. E. Reed, vice-chairman of the housing committee, and D. A. Groat, Superintendent of Schools, Services of the teachers, as well as others familiar with clerical work, are desired for the segregation and tabulation of 60,000 cards that were turned in by canvassers during the recent survey of Portland.

Mayor Baker yesterday declared that the Government is insisting on information relative to available apartments, rooms and dwellings before taking formal action on the application for permits for 2000 cottages and pointed out that volunteers could do no more patriotic service at this time than assist in the tabulation of canvassers' returns.

Persons able to help in this work are requested to call at Liberty Temple.

Boy Born to Mr. and Mrs. Ellery. Mr. and Mrs. Clarence N. Ellery, 516 East Taylor street, are being congratulated on the birth of a nine-pound boy. Mrs. Ellery is at the Vernon Maternity Home.

Dalton Adding-Calculating Machines are Increasing the Efficiency of the Nation

Thousands upon thousands of women filling the industrial gaps. Promptly, quietly, they have taken hold of buying, banking, merchandising, accounting, with a willingness and efficiency that has won the admiration of the world.

But there will be none too many. In our offices we can conserve and guard their time with simpler, faster office machinery. Choose your adding-calculating machines with an eye for the beginner; choose the 10-KEY DALTON because it eliminates the training period—there is only one key for each figure.

It is the machine that all can use. It puts each figure in its proper decimal column automatically. It meets the speed requirements of modern business thru a scientifically arranged keyboard for touch operation—permitting the novice to self-train into an expert, able to handle double the ordinary volume of adding and listing with less fatigue.

The Dalton has a greater range of work than any other machine

The DALTON is much more than the simplest, fastest of all adding machines. It multiplies as easily as it adds. It adds, subtracts, multiplies, divides, figures interest and chain discounts, adds two totals at once, makes out statements, tabulates, etc.

Phone Broadway 3712 for Demonstration

You can only judge a DALTON thru personal demonstration. Its service is worth investigating and a DALTON will be demonstrated in your office without obligation. Phone today or write for descriptive circular.

FOUR MORE DIE IN EUGENE UNIVERSITY STUDENT FROM McMinnville Victim.

Class Work, With Depleted Enrollment, Continues; Every Person Must Report Daily.

EUGENE, Or., Oct. 21.—(Special).—Eugene's death toll to the Spanish influenza epidemic increased to 14 in the past 24 hours, four deaths having been reported since 5 o'clock last night. Several new cases have been reported in the city today and the health authorities state that there is no promise of controlling the spread of the epidemic for several days yet.

The first instance of a child succumbing to the disease was reported last night in the death of Ralph Loma Coe, 4-year-old son of Mr. and Mrs. Roy G. Coe. The other deaths which occurred during the night and early morning, all of which were from pneumonia, resulting from influenza, were those of Mrs. Pena Irene Burgess; Emanuel Northup, of McMinnville, a student at the State Training School of Oregon, who came here from Pueblo, Colo., last March. Miss Jones was a nurse for a Eugene physician and had been ill only five days. She was 24 years old.

UNIVERSITY OF OREGON, Eugene, Oct. 21.—(Special).—Emanuel Northup, Jr., 18 years, of McMinnville, member of the Students' Army Training Corps, died this morning at 1:40 at the Phi Gamma Delta Infirmary, of pneumonia, following an attack of influenza, bringing the number of fatalities among university students to six.

His parents, Mr. and Mrs. Emanuel Northup, were summoned Saturday and were with him at the time of his death. Young Northup had been ill since October 13. Pneumonia developed last Thursday. His father is dean of men and professor of mathematics at McMinnville College.

A military escort accompanied the body to the train this afternoon. Funeral services will be held in McMinnville.

Class work, with depleted enrollment, continues, but the ban on meetings of all kinds is still in force and health reports are demanded daily of every person connected with the university. Those who consider themselves well are not exempted from reporting.

Boy Dies at Training School. CHEHALIS, Wash., Oct. 21.—(Special).—Harry Boyce, of Harvey, Wash., died at the State Training School of Oregon, who came here from Pueblo, Colo., last March. Miss Jones was a nurse for a Eugene physician and had been ill only five days. She was 24 years old.

Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are in this. Counterfeits, imitations and "Just-as-good" are in this. Counterfeits, imitations and "Just-as-good" are in this. Counterfeits, imitations and "Just-as-good" are in this.

What is CASTORIA? Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought Bears the Signature of Chas. H. Fletcher In Use For Over 30 Years

IF BACK HURTS BEGIN ON SALTS

Flush your kidneys occasionally if you eat meat regularly.

WOOD'S QUICK LUNCH SPECIALS. Roast Beef..... 15c. Beef Stew..... 15c. Soup 5c. Beans 5c. 101 SIXTH ST. CORNER OF STARK

Celery King When Feverish

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity. Also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

DOCTOR GIVES RECIPE FOR GRAY HAIR

Well Known New York Physician Gives Recipe for a Home-Made Gray Hair Remedy.

A. L. Paulson, M.D., who has practiced medicine in New York City for many years, gave out the following recipe for a home-made gray hair remedy: "Gray, streaked or faded hair can be immediately turned black, brown or light brown, whichever shade you desire, by the following simple remedy that you can make at home: "Merely get a small box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box. "You need not hesitate to use Orlex, as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex does not contain silver, lead, zinc, sulphur, mercury, aniline, coal-tar products or their derivatives. "It does not rub off, is not sticky or greasy and leaves the hair fluffy. It will make a gray haired person look twenty years younger."—Adv.

BOUNTY SYSTEM OPPOSED Oregon Urged to Adopt Plan of Destruction of Predatory Animals.

SALEM, Or., Oct. 21.—(Special).—Destruction of predatory animals on the Government plan, rather than under the bounty system, and diversion of the money used for bounties to paying the expense of such destruction, were recommendations advanced by Dr. E. W. Nelson, of the United States Biological Survey, to Governor Whycomb today at a conference, also attended by State Game Warden Shoemaker.

The governor states he is inclined to favor the proposal and may incorporate such recommendations in his message to the Legislature. Dr. Nelson said that under the Government plan of destruction the pests are literally wiped out, while using the bounty plan the cream of the killing is accomplished and large numbers of animals are left to breed.

100 LADS TO BE CHOSEN Washington Calls for Educated Youth to Train for Officers.

OREGON AGRICULTURAL COLLEGE, Corvallis, Oct. 21.—(Special).—More than 100 men of the college Students' Army Training Corps will be sent to officers' training camp.

The Government has asked Colonel Sharpe to pick 60 men for training in field artillery, presumably to be sent to Camp Zachary Taylor, Kentucky. These will be men who have a knowledge of mathematics and possess other qualifications necessary for officers.

Another group is wanted for aeronautics—30 pilots, 12 observers and five maneuvering officers.

4 Boys Sent to Officers' Camps. OREGON AGRICULTURAL COLLEGE, Corvallis, Oct. 21.—(Special).—Four men from the college S. A. T. C. were today sent to the central machine gunners' Training School at Camp Hancock, Ga. They were: Harvey W. Meade, Wenatchee, Wash.; M. C. Cool, Walla Walla, Wash.; Clay C. Miller, Etatead, Or., and August L. Wolf, La-hat, Wash.
