was a perfectly ladylike affair, no more also considered an attack upon Republican leaders in Portland or elsewhere in the state cared much to discuss politics. Now all is changed.

The Republicans, following the example set by the President, are becoming active. They had adjourned politics, but when the President called for a partisan fight he resurrected the Republicans are awake. It is the belief in political circles that the action of the President will cause a large vote to be cast by Republicans who otherwise were giving little heed to matters political. The net result will mean, Republicans may, that the Republican candidates will roll up a landslide majority against their Democratic opponents.

the polls November 5. The Republican candidates of Yambill County are unanimous in considering politics prac-tically adjourned and ha e been contically adjourned and ha e been conducting a very quiet campaign. It does certainly appear that the President is attempting to capitalize the present situation for the purpose of party aggrandizement. The effect in Yamhill County, I am satisfied, will be to solidify the Republican voters and consequently elect the entire Republican ticket. At present we should to a great extent disregard party politics, and for that reason I consider the President's radical exhibition of partisanship at this time very unfortunate.

Linn County Counted Safe.

Linn County Counted Safe. Linn County, E. D. Cusick, Albany—
Owing to the influenza epidemic and interest in the war it is hard to rouse interest in political matters, but the sentiment is strong that Governor Withycombe and Senator McNary are safe and competent to support the continuation of the war to a successful conclusion, and it will be impossible to allengte the support of the voters from allenate the support of the voters from these tried statesmen.
