WHY YOU SHOULD BUY W. S. S.

The main reason is because your country is at war and needs every penny that every man, woman and child can lend to feed, clothe and arm and equipour soldiers and saliors. Warsavers are life-savers. Everyone can do his share.

Like liberty bonds, the entire resources of the Government and the people of the U. S. A. are behind war savings stamps.

In purchasing stamps you are getting the best security in the world, and in the most convenlent form. And you further get a most liberal return on the money loaned. Oregon needs to sell more stamps to meet her quota Are you buying all you can?

Does Cheap Service Pay?

THIS is a question people often ask themselves after having had an experience where price is the chief consideration. Especially where a man's knowledge, honesty, and skill make up the personal "service," such as in dentistry.

It is always well to know in advance about what the desired service is to cost, and and then decided which you want. No one should fake chances with their health or their teeth. Artificial substitutes for natural teeth, while often necessary, are but makeshifts at best, and unless properly fitted, will never give comfort and satisfaction.

Beware of allurements which offer low-priced dentistry and a guarantee for one, five, ten, or fifteen years. Dentai work of, murit needs no guarantee. There is as much difference in the quality of dental work as there is in the products of any other pursuit. Skill is worth what it costs. So is health. So is comfort.

CAMPAIGN LIES NAILED

Congressman McArthur Shows Up False Charges of Opponents

Portland, Oregon, Nov. 4, 1918. To the People of Multnomah County:

Unable to find any real flaw in my record as your Representative in Congress, the "Smith for Congress Club" has printed a paid advertisement containing numerous false statements and injecting spurious issues into the campaign.

The "Smith for Congress Club" says that I voted against arming American ships. This charge is absolutely false, as I voted just the opposite. (See Congressional Record, March 1, 1917.) I also voted for numerous other preparedness measures in 1916—while John S. Smith was delivering "he kept us out of war" harangues from a soap box on the streets of Portland.

The "Smith for Congress Club" says that I voted against the Espionage Act. This charge is likewise false. In company with every member of the House present, I voted for the Espionage Act after the infamous "press gag" clause had been stricken out.

The "Smith for Congress Club" says that I voted against the Administration shipping bill two years ago. This is about the only true charge that the aforesaid "Club" has made, but the public should know that the Democratic majority refused to amend the bill so as to safeguard our country against international complications with our present allies.

The "Smith for Congress Club" has made several other charges that cannot be substantiated, but they are too ridiculous to admit of serious consideration. Respectfully submitted,

C. N. McARTHUR.
