

GUARD TAKES HAND IN WAR WORK DRIVE

All Portland Plastered With Campaign Posters.

250 PICKED MEN RESPOND

Members of Home Defense Regiment Play Important Part in Various Patriotic Activities.

When Portland woke this morning it was to find the downtown district, for miles and miles, shouting the message of the united war work drive from every window. Nobody ventured to take a census of the myriad war-work shields, which urged with one word the spirit of the campaign.

There were 30,000 of the posters, however, and they represented an hour's work just before midnight on the part of the Multnomah guardsmen which has answered with similar response other calls for quick and effective publicity in other drives.

Whole City is Plastered.

Called by Colonel L. P. Campbell, commander of the regiment, 250 picked men of the Multnomah Guard assembled at appointed street corners last night at 11 o'clock in squads of four, where bales of the war work emblems were issued to them. The entire regiment, owing to the influenza ban, was not summoned, but 25 men were chosen from each company.

The sphere of their midnight endeavors radiated in all directions from Liberty Temple, headquarters of the drive, and the guardsmen plastered each convenient window, elevator shaft, or corner with the striking shield of the war work crusade.

At the Liberty Temple, Wellington, chairman of the campaign feature committee, served as aide to Colonel Campbell in the direction of the huge task, which he believed to have set a record for the speed with which it was accomplished.

Guardsmen Alert to Duty.

In the Red Cross linen drive, in the recent Liberty loan drive—when they tracked the city with giant footprints toward Liberty Temple—and in a score of other patriotic enterprises the guardsmen have rendered invaluable aid through their ready cooperation and the effectiveness of their organization.

Last night's accomplished task prompts prominent men of the home defense regiment to declare it an illustration of the need for maintaining the regiment for some time to come, and probably as a permanent organization. It is pointed out that during the reconstruction period there will arise, in all probability, many tasks that require such an agency for their successful completion.

WAR WORKERS OUT TO WIN

(Continued From First Page.)

day—M. R. Chessman, county chairman.

Harter County—Burns, Nov. 11.—Conditions are bad here on account of influenza. We are doing our best considering conditions.—L. S. Geer, county chairman.

Deschutes County, Bend, Nov. 11.—Telegraphed you today that Deschutes County was over the top with 50 per cent. over-subscription. The collectors were sent out in the city of Bend. Funds came voluntarily. The drive will be continued for the remainder of the week. We are over 25 per cent. The splendid work from your office helped us immensely. Your publicity chairman is also entitled to great credit for directing the work. The people here feel that the boys over there should have this assistance now that the war is over more than ever.—T. H. Foley, county chairman.

Linn County, Albany, Nov. 11.—Almost every district is being canvassed, but the collection is interfered with returns.—P. A. Young, county chairman.

Students Swell Totals.

Preliminary reports to the student division of the campaign, Miss Tirza Dinsdale, director, show that a total of \$6140 has already been pledged by students of universities, colleges, business colleges, and private schools of the state. This is approximately one-fifth of the amount expected from the student division. The showing is considered remarkable, since these institutions reports embrace the schools of the state, and solicitation in those institutions has little more than started.

Student groups are making fine records for generosity. For instance, a group of 27 Reed College students have given \$325, or more than \$11.50 per capita. The senior class of the University of Oregon Medical School, of Portland, has subscribed \$215. The total of first-day subscriptions by Portland students of the division reached \$1267.50.

Enlisted Men Boost Cause.

One of the first reports received by O. M. Plummer, directing the "good will" pledging among enlisted men of Oregon and Washington, came from a camp not far from Seattle, where 300 men voluntarily subscribed \$1500, or an average of \$5 apiece. Camp Lewis, a telegram states, is 100 per cent in contributing to the special fund.

In addition to accepting the voluntary gifts of enlisted men, Mr. Plummer's organization will handle the subscriptions of loggers and civilians in camps and out-of-the-way places. It is expected that this division will roll up an aggregate of gifts that will surpass civilians of the two states and will add materially to their over-subscriptions.

In response to a plea from Everett Ames, city director of the war-work drive, Mayor Baker and Dr. C. Sealey, State Health Officer, have both given their approval to the holding of open-air meetings in the shipyards and other industries, despite the general influenza ban. It is considered certain that no possibility of the spreading of the epidemic will arise from these meetings.

LEWIS DISTRICTS SPEED UP

Total of \$17,401.16 Raised First Day of Campaign.

CHEHALIS, Wash., Nov. 12.—(Special.)—Despite yesterday's celebration, reports indicate that Lewis County has responded liberally to the United War Work Campaign. Yesterday, the first day of the campaign, a total of \$17,401.16 was subscribed.

In Chehalis the local Creek Lumber Company, Chehalis Brick & Tile Company, Carnation Milk Products Company, Palmer Lumber & Manufacturing Company reported 100 per cent subscribed. The Doty Lumber & Shingle Company, of Doty; the McCormick Lumber Company, of McCormick; W. C. Yeomans Lumber Company, of Pe Ell; and the Emery & Nelson mill at Napavine also reported 100 per cent subscriptions.

MICHIGAN AND OHIO LEAD

National Total of \$23,100,054 Reported for First 24 Hours.

NEW YORK, Nov. 12.—Contributions for the first 24 hours of the United War Work campaign thus far reported to the national headquarters here, total \$23,100,054.

Michigan and Ohio led the other states with \$5,248,000 and \$4,111,000, respectively, but the major parts of their gifts represented allotments from "war chests" previously collected in local drives.

JUST A FEW OF THE MULTNOMAH GUARDSMEN WHO PASTERED THE CITY WITH WAR WORK POSTERS.

GUARDSMEN PRACTICING UP A BIT TO "GET THEIR HAND IN" FOR THE NIGHT'S WORK.

which are to be addressed by war-work orators.

"Many people seem to think that the end of the war means an immediate abandonment of all war activity, while, of course, the reverse is well known to the guardsmen. It is in the belief that that permission be given to hold industrial meetings that the message of the campaign may be more widely disseminated.

First to attain 100 per cent organization of its employees is the Vogan Candy Company, where 80 workers contributed \$400. Second place is held by Bushong & Co., with 61 employees and a total of \$324.25 in subscriptions. Third place is claimed by the Ball Manufacturing Company.

From the scores of stories of victory boys and girls, and how they are earning their gifts to the big brothers in France, the instance of 12-year-old Robert Warner stands out in bold relief. For Robert is a biscuener of parts and his subscription of \$10 rates him as 200 per cent loyal to the war work cause.

Robert Warner Goes Over.

On Monday morning Robert didn't have the "top-spread" but late afternoon he strode importantly into Liberty Temple and selected a \$10 bill from a sizable roll of currency. Observing the popularity of cowbells in the peace demonstration, the youthful financier had entered a downtown store and induced the clerks to sell him their entire stock of the jangling hardware. The rest was simplicity itself, and Robert's profits were figured at \$42.50.

Another victory boy, a frail little chap who staggered beneath the bundles he bore, earned his subscription by working as a messenger for a downtown store, and paid his first wages to the cashier at Liberty Temple.

If anyone has been napping, and really drifted off to sleep, the seven-fold drive, there stands a giant sign at the Postoffice corner, Sixth and Morrison streets, whereupon the entire stock of the jangling hardware. The rest was simplicity itself, and Robert's profits were figured at \$42.50.

Four Counties Over Top.

Reports from various counties, received by State Director Davidson late last night, were as follows:

Columbia County, Charles Wheeler chairman—St. Helens shipyard and two lumber companies signed up to the last man on the one day's pay subscription system. The county has raised \$7500. Marion County, Oscar Glingrich chairman—Has raised \$1800.

Tillamook County, C. J. Edwards chairman—Has raised \$5000.

Curry County, Hardy J. Stewart, chairman—Has raised \$1000.

Yamhill County, W. D. Dennis chairman—Has raised \$2000.

In Chehalis the local Creek Lumber Company, Chehalis Brick & Tile Company, Carnation Milk Products Company, Palmer Lumber & Manufacturing Company reported 100 per cent subscribed. The Doty Lumber & Shingle Company, of Doty; the McCormick Lumber Company, of McCormick; W. C. Yeomans Lumber Company, of Pe Ell; and the Emery & Nelson mill at Napavine also reported 100 per cent subscriptions.

RED CROSS MEMBERS URGED TO REMAIN LOYAL TO CAUSE.

Red Cross workers are urged to continue activities in a letter received by Portland headquarters from C. D. Stinson, division manager, of Seattle. It follows:

"The cessation of war will reveal a picture of misery which the world has never seen before, especially in the many countries which cannot help themselves. The American people will expect the Red Cross to continue to act as their agent in repairing broken spirits and broken bodies.

"On behalf of the war council, we accordingly ask each member of our splendid body of workers to bear in mind the solemn obligation which rests upon each one to 'carry on'.

"Our spirits must now call us to show that it is not the roar of cannon or the blood of our own alone that directs our activities, but that a great people will continue to respond greatly and freely to its obligation and opportunity to serve mankind."

'FLU' REPORTS TODAY DECIDE BAN LIFTING

State Health Officer Awaits Progress of Epidemic.

INDICATIONS FAVORABLE

Portland Luckier Than Other Cities as to Death Rate, Which is Lowest on Pacific Coast.

Today's reports on the influenza epidemic will determine whether State Health Officer Sealey will give his consent to the lifting of the ban in Portland on Saturday. Dr. Sealey's attitude yesterday was more favorable to the early lifting of the order, and it is expected that his decision to open the town on that day will prevail. Theaters, stores and other places affected will resume Saturday, although the peace celebration set for that day has been called off.

Dr. Sealey said yesterday that, following today's reports, he would send a letter to all county and city health officers giving instructions as to when the ban should be raised. The order by which the ban was imposed or renewed in Albany, Salem and other Valley towns. In parts of Eastern Oregon the epidemic still is in the dangerous stage, it is said.

Portland Death Rate Lowest.

Portland has been luckier than other cities in deaths due to influenza, according to records of the Bureau of Census just received by Dr. Sealey. Here are the figures:

City	Pop.	Deaths	Annual Rate
Portland	100,000	120	12.0
Seattle	100,000	150	15.0
San Francisco	100,000	200	20.0

In many Eastern cities the rate has doubled that of any city on the Pacific Coast, and in New Orleans the rate was 120, while in Philadelphia, Boston and New York the rate was over 100.

Permission to hold open-air meetings for soliciting war funds yesterday was given by Mayor Baker, acting on advice of Dr. Sealey. Football games are included in the general order, it is said. Churches may hold such meetings, pending formal lifting of the ban, according to Dr. Sealey.

Celebrations Increase Cases.

Yeast is partly attributable to peace celebrations and does not indicate that the epidemic is on the increase, say health officials. The 11 deaths—the lowest number reported in any one day since early in the epidemic—is taken as indication that the disease has about run its course.

"Of course, we have to expect cases of influenza all winter—as is common after such a serious epidemic," said Dr. Sealey, "but we can't keep the closing ban all that time, so the only question is as to when the epidemic has lost its original program. By comparing Portland reports with those of Eastern cities, the malady appears to be on the decrease here, but as few reports will show this definitely."

FOUR BEND PEOPLE DIE

Spanish Influenza Fatalities Now Reach Total of 14.

BEND, Or., Nov. 12.—(Special.)—Four deaths from influenza in Bend during the past 24 hours increases the total number now dead to 14 since the disease first made its appearance here four weeks ago.

Those who died last night are: W. W. Orcutt, aged 55, manager of the Moose Club of Bend. Mr. Orcutt had been a resident of Bend for 40 years and leaves three brothers. Dr. W. W. Faulkner, Bend's oldest practicing dentist, died at 10 o'clock this morning following an illness of less than a week. Dr. Faulkner was reared at Roseburg, where he was married to Miss Ella Black in 1916. At one time he was a well-known football player in the state. His mother and brother arrived from Eugene this morning. Alfred Wilberg, an employee of the Shevlin-Hixon Company, died at the Emergency Hospital last night, as did also Mrs. Stanton, a negro woman who lived near Tumalo.

Cornelius Lifts 'Flu' Ban.

CORNELIUS, Or., Nov. 12.—(Special.)—The ban which has covered this place for the last three weeks due to the spread of Spanish influenza has been lifted and public gatherings again are permitted. All the churches held morning services last Sunday and the public school opened Monday with a good attendance.

Monmouth Lifts Ban.

MONMOUTH, Or., Nov. 12.—(Special.)—The ban on public gatherings in Monmouth was lifted today.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap to make, but it really has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2 1/2 ounces of Pinex from any drugist, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified honey, or corn syrup, instead of sugar syrup. Either way it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membrane, and gradually and gently the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept any thing else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.
