PORTLAND SCHOOLS TO START WORK MONDAY

Caused by Epidemic.

OPEN EARLIER

Every Precaution to Be Taken to Prevent Influenza Among the Pupils.

Thirty-six thousand kiddles and 1100 teachers will answer the summons of school gongs, which have remained stlent since the invasion of Spanish influenza, five weeks or 26 school days

ago.

If all of the 36,000 school youngsters of Portland arrive on time Monday morning, more than one alarm clock will be to blame, for, with the excep-tion of the first, second and third grades, grammar schools are opening at \$.30 o'clock instead of \$.45, as before the epidemic. Portland teachers, however, may sleep later, for the new schedule allows them to report at 8:15 o'clock, 15 minutes later than formerly. This change has been made because it is believed by school officials that with the earlier opening children will not congregate for play before school hours and therefore will not require super-vision as before.

Lost Time to Be Recovered.

The new schedule to be inaugurated Monday will be in effect only until the lost work is caught up by the students. It is estimated by Acting Superintendent Grout that the old order of school ent Grout that the old order of school affairs will again be reinstated by April 1. School work at this time of the year, which in diction of pedagogues is "good study weather," always is more efficient than at any other time, according to Mr. Grout. Suppressed energy after a five weeks' vacation, coming so near the opening of the school year and the close of the Summer vacation, will also result in greater accomplishment and the sconer reinstatement of the old schedule, it is cinstatement of the old schedule, it is

Danger from influence is not yet en-tirely removed, school executives as-sert, and precautions of various types will be taken. Windows will be kept open during all recesses and during the greater part of the study hours. Pupils will be allowed to wear outdoor wraps, if necessary, and physical exercises calculated to stimulate circulation and increase warmth will be given often.

Rooms Are Disinfected.

Schoolhouse windows have been kept open during the entire epidemic and every room has been freshly washed out with coro-noleum, a strong disin-fectant. Copies of a children's health code which originated with the department of hygiene in Pittsburg public schools have been incorporated in the teachers' bulletin with instructions from Superintendent Grout to have the children familiar with it.

High school principals will meet this morning at the Courthouse to formu-late their conception of military and physical drills in the public schools. All public school principals have been called by Superintendent Grout for a meeting scheduled Saturday morning, November 23.

postnoned, Colonel John Leader, commandant, announced this morning. The signing of the armistice and the closing of the central officers' training schools removes the principal incentives for the men to come here," and Colonel Leader this morning. "Until there is a need for additional officers and the opportunity is given civilizate to secure complisators in the ivilians to secure commissions in the Army, the camp will be indefinitely postponed."

Colonel Leader will start at once on plans for introducing military training into the high schools of the state, Colonel Leader expects that the work will definitely be started in the high schools by January. Emphasis will be placed on the study of the sciences

Astoria Hindus Robbed.

ASTORIA, Or., Nov. 15.—(Special.)— Almad Ali and Chuhar Khan, Hindus, who are employed at the Hammond mill were robbed of more than \$2000 in postal savings certificates last night. Their abode was broken into and \$1050 belonging to Ali and \$1000 to Khan was taken in addition to personal effecs aggregaing \$50 in value.

"How do they look?"

When you get glasses of the Columbian, you are shown many styles and the matter of appearance is gone into very thoroughly. The result more than justifies the effort and time; when your glasses are finally on, they conform with your face naturally and pleasingly. Very different from that "ready-made" effect!

Physicians Attention! Spanish Influenza

Has compelled the use of this rapid method of informing medical men of the therapeutic virtues of

Fenosote

in the treatment of this disease

FENOSOTE, strictly ethical, dispensed on prescriptions only, is a chemical product consisting of Orthonitro-acetphenetidin 70% in combination with stimulating creosol and guaiacol derivatives of creosote.

FENOSOTE is a powerful germicide and a most thoroughly safe antipyretic, with no depressant action. Fenosote is eliminated by the respiratory mucous membranes and by the kidneys, imparting to the urine a rich orange color. In this epidemic, uncomplicated cases of influenza are quickly responsive to treatment, which should be continued for one or two days after all symptoms have disappeared. It is positively a specific. In the Pneumonia of Influenza, Fenosote is a most valuable aid.

FENOSOTE given in three full doses a day, positively prevents Influenza infection or renders symptoms so slight as to be barely perceptible.

Adult dose of Fenosote is 6 grains every two to two hours and a half until symptoms disappear; then slightly less often for 36 to 48 hours. Children's dose in proportion.

FENOSOTE is best given in No. 2 Capsules for Adults and No. 4 capsules for children 8 to 13 years, or in emulsion with compound Licorice Mixture. A liberal drink of water should be given after each dose of
