LARGE PART TO RETURN

Three Hundred Thousand Men Per Month Is Estimate of Chairman Hurley.

NEW YORK, Nov. 15 .- Edward N. Hurley, chairman of the United States Shipping Board, announced here tonight on the eve of his departure for Eu-rope that the Government intends to return to this country speedily a large part of the American expeditionary forces. The purpose of Mr. Hurley's trip to Europe is to arrange the de-tails for their transportation Mr. Hurley said the Shipping Board

would be able to bring back troops at the rate of 300,000 a month, "if the War Department wants them returned as fast as that."

Food Distribution Planned. While he will go abroad with Herbert

Hoover, Federal Food Administrator, to complete arrangement for the distribution of foodstuffs to regions liberated under the armistice terms and in a degree later to be determined to Germany and Austria, Mr. Hurley said his mission had primarily to do with "getting the boys back home." Convalescent wounded, including many men who would have returned to

Wilson May Attend.

With the assurance of an early as-sembly of the peace conference, attention today turned to the composition of the American commission. The belief is growing that President Wilson will attend, but probably not in the capacity of a delegate or commissioner. It is known that Secretary Lansing will head the American commission and will head the American commission and Colonel E. M. House, Justice Louis Brandels and Elihu Root, former Secre-tary of State, were mentioned as others

Besides the delegates, a number of Army and Navy officers must be named to assist the commission.

Bliss and Crowder Mentioned. In that connection, attention has been directed to the names of General Tasker H. Bliss, former Chief of Staff. Tasker H. Bilss, former Chief of Staff, and now American representative on the Supreme War Council; Major-General Enoch Crowder, Judge Advocate General, and Provost Marshal, a veteran of The Hague Conference, and Brigadier-General Samuel Ansell, Acting Judge Advocate General, Vice-Admiral William S. Congress May Not Participate. On the contrary, it was said that there is a decided disinclination to in-volve the legislative branch of the Government in any way in the work of constructing treaties, which is regarded as a purely executive function under the terms of the Constitution. It also was today recalled that the Senate itself not many years ago re-

corded its formal objection to the ap-pointment by the President of any of its members as commissioners to nego tiate agreements which must after-wards come before it for approval. Notice has been taken by officials here of the demand by certain Socialistic elements, not only in Europe but

America, to have labor participate the peace congress. Officials were understood to hold that to recognize labor in this way would go to establish class distinctions which would be thoroughly un-American. On the other hand, it was said that by the appointment to the peace com-mission of a man such as Justice Branfor instance, known to be an at friend and champion of labor at

all times, the interests of the working classes would be sure of conservation.

Lausing Not to Resign. COME HOME SPEEDLY

It was made plain today that the selection of Secretary Lansing to head the American commission is not to be taken as an indication of his purpose to resign his present office. In his absence Counsellor Frank L. Polk is expected to act as Secretary of State.

The German appeal to President Wilson to send plenipotentiaries to The Hague or some other city as quickly as possible "in order to save the German people from perishing by starvation and

There was no indication as to what disposition would be made of it, but it was regarded as probable that it would be referred to the supreme was conveil be referred to the supreme war council at Versailles.

Secretary Lansing announced today

that he had acknowledged the appeal of Dr. Solf, the German Foreign Secre-tary, asking for an early peace con-ference in view of the unsettled condition.
