action, the steady inflow of American

forces caused a displacement of power

as between the allied and German

armies. Thus it no longer was neces-

sary to pursue a policy of reducing a

salient or nibbling at it. The American

troops had shown what they could do

A broader policy of general attack

along the entire line was then adopted

and the high command called on Gen-

eral Pershing to take the Argonne sec

tor, admittedly one of the most diffi-

cult of the whole front. The broken

terrain, the topography and the lack

of roads made a problem difficult to

and motor, connecting up to the rear

Argonne Forest Described.

The outstanding feature of the Ar-

gonne forest is a long chain of hills

running north and south, covered with

dense growth of trees and under-

growth, making an advance difficult and offering superb defensive qualities.

Virtually no roads exist in the forest

except for a few passages running east

and west. The soil is such that the

least rain converts it into a slippery muck. In other words, the physical

condition is such that the line of at-

tack for an advancing army is limited

the resistance was viciously strong, the

enemy possessed innumerable flanking

positions. But beyond this difficult

region lay the Montmedy-Sedan line,

which was recently captured. A Ger-

man order described it as our life
