

CITY NEWS IN BRIEF

HOUSING COMMITTEE'S OFFICE TO BE READY—Volunteer workers yesterday were doing interior finishing work on the bungalow at Fourth and Stark streets which will be used as headquarters by the Portland housing committee. Work continued throughout the day, with indications that the building would be completed by tonight. The housing committee will move into the building tomorrow. Removal of non-war construction restrictions, and the fact that Portland will continue to have an army of shipbuilders despite the cessation of hostilities means that home-building will be conducted on a large scale and will afford the housing committee a big field for action, according to members of the committee.

STAMPS' GOAL IS NEAR

OREGON WILL GO OVER THE TOP ON SCHEDULE TIME. Table Compiled by Associate Director Reed Gives High Percentages of Nearly All Counties.

Totals compiled by Henry E. Reed, associate director of the state war savings stamp campaign, indicate that Oregon counties for the most part are well up in their war stamp purchases. Eight counties are "over the top." More than half the remaining counties are in such position as to indicate that they will make the goal on schedule time, December 31. In the few "slack" counties effort will be made to stir interest and sales, and special campaigns will be put on next month if necessary to put them over.

The following table shows the maturity value of stamps sold in each county as of October 31, and the percentage of quota sold on that date:

INFLUENZA CASES FEWER

LIFTING OF BAN RESULTS IN NO INCREASE OF PATIENTS. Dr. Parrish Warns Teachers to Send Pupils Home Immediately if Afflicted With Colds.

The lifting of the influenza ban Saturday resulted in no increase in the number of cases yesterday, so far as was shown by the incomplete reports turned in to City Physician Parrish. Only two influenza patients were sent to the Auditorium hospital. There had been only one death at the Auditorium at an early hour last night.

Dr. Parrish expressed anxiety over the opening of the schools today, and dwelt strongly on the necessity of care in the matter of ventilation. Teachers will be required to send pupils home immediately if they show any symptoms of colds.

Health officials in Manitoba, Canada, sent a telegram to Dr. Parrish yesterday asking him to send them enough influenza serum for 390 inoculations. The serum used here has been obtained from cultures obtained from the Navy yard at Bremerton, Wash. Dr. Parrish says that very favorable results have been obtained from its use.

The patient who died at the Auditorium was Karcia Ikeda, a Japanese, 35 years old. He was admitted to the hospital November 14.

RELIEF CAMPAIGN PLANNED

FOOD TO BE CONSERVED FOR USE OF EUROPEAN NATIONS. "World Relief Week" Is Set for the First Seven Days in the Month of December.

"World Relief Week" is an approaching event to awaken people to the fact that war duties are not over. Reconstruction of the ruined countries of Europe is a burden that this country must bear in a large measure, because the ability of the allied nations have been taxed to almost the limit and they have suffered tremendous loss of man-power. Conservation of foodstuffs is essential now in order that the population of practically all of the European countries, including those who have been neutral, may have food. The neutral countries have the money to pay for food, but no stores to draw upon except save those in this country.

Tuesday, November 26, pursuant to the call of Food Administrator Ayer, all of the county food administrators of Oregon, together with a leading woman representative of each county, will meet here to hear a message from Herbert Hoover that will be delivered by a special representative from Mr. Hoover's staff in Washington. Following this meeting the county representatives will return to their homes to direct the preparations for the observance of the week of December 1-7, inclusive. Friday, December 6, there will be special exercises in all public schools devoted to educating the public upon the great responsibility resting upon the Food Administration and the American people.

Mrs. C. H. Castner, president of the State Federation of Women's Clubs, has undertaken the work of having all clubs affiliated in that organization prepare for special exercises on Wednesday, December 4.

It is stated by the representatives of the Government that 180,000,000 people in the lands famine-stricken or devastated by war will starve this Winter unless America provides the food for their sustenance.
