That egg enters of Portland have reason for thankfulness is the assertion of James Dryden, professor of positry husbandry at the Oregon Agricultural College. "Either the Oregon hers have been over-

working to supply the Portland consumers or someone in Portland has been working a Practice to bear the market," said Processor Dryden. "The result has been that some of the best Oregon eggs have been shipped to California as well as to Seattle.

in Portland was 67 cants. In Scattle the price was about 82 cents. "The experiment showed that Oregon eggs could be laid down in California cities in good condition as evidenced by the fact that the Oregon Agricultural College eggs topped the market and they were said to be the best eggs received that day by the firm handling them. After paying the heavy express charges and commission the eggs netted 10 to 12 cents a dozen more than they would have netted in Portland.

made the corn market today average higher, despite sharp differences of opinion as to the magnitude and confinuance of the export movement. Prices closed firm, is to it net higher, with December \$1.29\% to \$1.29\%, and January \$1.32\% to \$1.29\%. Oats gained \% to \%, c. The outcome in provisions ranged from unchanged figures to \% of \cdot lower.

Bearish constructions placed on reports of a big drop in grain prices at Paris more than wiped out first advances in corn. The fifteence was drawn that France now had a relative abundance of supplies, and that predictions of immense enlargements from the United States were overdrawn. Renewed strength developed later, owing more or less to advices that five large Dutch steamships had left American ports with cargoos of flour to relieve the food shortage in The Netherlands.

Oats merely reflected the action of corn. Weakness in the hog market eased provisions.
