Agreement Between Soldiers' and Workmen's Council Has Not Yet Solved Problems.

LONDON, Nov. 25.—(British Wireless Service, Germany.)—The latest reports from Germany indicate that the internal situation there has reached a critical stage. Although a proclama-tion has been issued declaring that all political power is in the hands of the German Socialist Republic and the sol-diers' and workmen's council, opposi-tion to such a government is growing outside Berlin.

A greater pact of South Germany, including Wurttemburg, Baden and Bavaria, has declared it will not submit "to the terrorism of the dictators in Berlin who have replaced the Kaiser and militarism."

An independent republic also has been formed in Northwestern Germany, with Hamburg as the capital. Even in Prussia, according to the reports, feeling against the Berlin soldiers' and workmen's council is gaining.

At the police station Liard stoutly declined to talk, declaring that he would have nothing to say until he was permitted to see an attorney. While Chief Clark questioned his wife in a closed room, Liard was subjected to a "sweating" by the inspectors.

When asked for a statement Laird replied:

"As I understand it, they haven't made a formal charge against me. All that I have learned has been purely by way of innuendo and fly remarks. Yes, I was told to the effect that I was charged with murder. Germans Still Moderate.

It is admitted that the German councils have not yet developed the extrawagances which led to the disintegration and anarchy in Russia, the councils not being dominated by the Bolshevik element.

The Daily Mail, while pointing out the analogy to the developments in Russia, suggests that the new step is part of a "big bluff" aimed at persuading the allies that the old German of the soldiers and hissing.
