ENGLAND BIG BUYER OF HOPS ON COAST

No Demand Now From Brewers in This Country.

ONLY EXPORT OUTLET LEFT

Buyers Pay Up to 26 Cents for Best Crops in Oregon, Washington and California.

Heavy buying of hops for shipment to London continues in the California hopgrowing sections. There is also some trading in the Northwest, but the larger part of the current business is being done in the Southern state. According to wires received yesterday, C. C. Donovan purchased 900 bales of Sonomas and Mendocines at 25% paics of sonomas and Mendodinos at 2019 and 26 cents, which makes his recent buying aggregate 2000 bales. The demand is solely far 1918s. Olds and contracts have been offered, but they are not wanted at this

A number of small lots of Oregons have been taken at 25% and 26 cents, and in Washington 20 cents has also been paid. As is the case in California, the demand is wholly for export account. Up to a week er two ago there was some buying of Coast hops by Easterners, but American brewers have now lost all interest in the article. The braweries will be closed down in a few days by the food and fuel order, and by the time they can open the "war-time prohibition" law may be in effect. This law is likely to remain in force until the constitutional amendment becomes effective, and then all will be off in the beer-making business. Foreign markets must be depended on in

Foreign markets must be depended on in the future to take cars of the Coast hop production and it is too early yet to say what this foreign demand will amount to. The British board of agriculture has issued a notice permitting an increase in the acreage under hops in England for next year to 75 per cent of that of 1914, which will bring the acreage up to 2600 acres.

According to latest mail advices from England prices for the 1918 English crop have not as yet been fixed by the government centrol board, but the general idea is that they will range from fits, equal to about 64% cents per pound, upward.

There are still unsold in growers' hands

There are still unsold in growers' hands in Oregon about 2000 bales of 1918 hops, and 1000 bales remain in Washington, California has 12,800 bales left in first hands. There are also 22,000 bales of eids in that state. Tar The total stock of hope of all growths on the Coast is estimated at 50,000 bales.

Broomhall cables as to conditions in Apstralia: "Cable advices confirm a decrease in wheat sowings in New South Wales, the government reckoning a reduction of 16% per cent, but our correspondent thinks it will be nearer 25 per cent. The latter reduction would mean a loss for that state of 500,000 acres, but on the other hand recent crop reports from other states have been favorable. With such large quantities of wheat remaining on hand a reduction of even 25 per cent for New South Wales would not be very serious. IN SCREEN OF FOG

Last of 20 Schooners Clears Foundation Ways.

MRS. HIPKINS IS SPONSOR

Belief Expressed by Coast Manager That Company Permanent Feature of City's Maritime Life.

Out into the wall of gray fog that enveloped the Willamette yesterday at noon rushed the hull of the Soissons, the last of 20 steam auxiliary schooners built for the French government. Her departure cleared the 10 ways at the Foundation plant, although the Sois-sons is not the last ship to be con-

tion in today's stock market, far outsirip-ping all other issues, in which irregular or reactionary tendencies prevailed.

New Year's present, an acquisition to the city's commercial and maritime re-sources that should be an appreciable

Mrs. Hipkins started the Solssons or her career, having consented to be sponsor at the insistance of Captain E. C. Genereaux, French representative at the plant, Mrs. Genereaux was matron of honor. The Foundation band played, but without its old leader and organizer, Director Cioffi, who died Saturday.

After the launching ceremony, Cap tain Genereaux presented Mrs. Hipkins with a diamond necklace. Mr. and Mrs. Hipkins left last night for the Tacoma yard, where the last of 20 French ships will be launched

of 20 French ships will be launched today.

July Is Bunner Month.

Since March 20 the company launched 20 hulls at Portland, 252 days having passed, making an average of one launching every 12½ days. The first ship was delivered June 24 and the last is to be ready Christmas eve, the last is to be ready Christmas ever which will make the delivery average one ship every nine and a half days. The combined Portland and Tacoma yards will have launched 40 ships by yards will have tailined and ships by today, an average of one ship every six and three-tenths days. The estimated total time for delivery is fixed at 183 days, so the delivery schedule is given an average of a ship every four and six-tenths days. The largest force employed at Portland at any one time was 4200 men and the best month was July, when the two yards laid five keels, launched five hulls and deliv-ered five finished ships.

Every element of foreign trade is represented in the council. The mem-bers do not epresent only their own individual interests, or those of the companies with which they are con-nected, but stand as general representa-tives of the element of foreign trade

Federal Inspectors to Consider Sinking of Pronto by Westview.

United States Steamvessel Inspectors Edwards and Wynn have set Monday morning for the investigation of the sinking of the Port of Portland steamer Pronto at the Fifteenth-street Municipal Terminal Tuesday night when struck by the steel freighter Westview. The Port of Portland has undertaken to raise the Prente and, while seriously damaged, it is believed she can be re-

Charles J. Holland, master of the spectors Edwards and Wynn in which he recounts events leading p to the collision. In addition to the sinking of the Pronto, the bowsprit of the French steam auxiliary schooner Nancy was damaged and the Westview's maintopmast and aerial were carried away.
