

NO SECRET REPORTS MADE, SAYS GOVERNOR

Grand Jury's Charges Termed 'Unfair, Unjust, Untrue.'

ANIMUS SEEN IN REPORT

Executive Declares That Parole Officer Keller Never Acted as Spy at State Penitentiary.

SALEM, Or., Dec. 4.—(Special.)—"I have the utmost contempt for a tale-bearer, and if Joe Keller had come to me bearing tales of what Murphy had been doing or any other man at the prison I would not have tolerated it for a minute."

This is the assertion of Governor Withycombe today, when asked to make some specific statement as to the espionage allegations contained in the report of the special grand jury which has been investigating the prison.

There is absolutely nothing to the charges as to espionage. But, listen, I have positive information that the local representative of the Portland Journal endeavored to make an arrangement with one of the janitors in the Capitol building to keep a tab on Joe Keller, to watch and report to him each time that Keller entered my office, and how long he stayed there and as just to the dates and times.

That is what I call an effort at espionage, and my information along this line is correct.

Keller's Visits Explained. "Joe Keller came to my office quite frequently when my son was ill in Washington. I was called to go back there with him. My daughter acted as my chauffeur in driving me to the state institutions each afternoon, and during the absence of the Keller was not busy, I asked him to do this for me. Because he appeared at my office each afternoon the idea was gathered that he was reporting to me what was occurring at the prison. Had he attempted to make such reports I would not have tolerated it, because I despise a spy."

"I wish to say, as a concluding statement relative to the report, that after reading it more carefully the animus behind it is apparent on the face. It is unfair, unjust and untrue. The facts have not been given as they exist and apparently no attempt was made to secure information by any reliable sources which would show this to be the case."

Report to Be Delayed. Attorney-General Brown will have a report of his own to make on the question of parole at the state penitentiary, but it will not come until after the grand jury cleans up its work as to indictments which may be returned. He was asked by the Governor to make a probe into conditions surrounding issuance of paroles and the grand jury report just made is an offshoot of that investigation.

Marshall Neilan Directs. Blanche Sweet, who has been missed from the screen for more than a year, will return to her former triumphs next month in the sensational story of Major Rupert Hughes' sensational story, "The Unpardonable Sin," which is said to be the most important production of Miss Sweet's career.

Parole Officer Explains. Parole officer Keller was the principal subject of the special grand jury's report on the prison, today asserted that he can account for every penny in the prisoners' loan fund, and drew a distinction between the fund provided for by law and the fund which was secured through donations by the prisoners.

Dorothy Dalton Falls in Love. Dorothy Dalton is said to have fallen in love—not with a man however. She has just been assigned a new character to interpret for pictures at the Thomas H. Ince studios in Los Angeles, and has become thoroughly infatuated with it.

Bookkeeping System Shown. Frank Davey, prison bookkeeper, said today that he could place his fingers on the cost for any department at the institution for any day, week or month during the administration.

Dandruff Surely Destroys the Hair. Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely destroy and destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.—Adv.

HOT TEA BREAKS A COLD—TRY THIS. Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of this Hamburg tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoonful at any time. It is the most effective way to break a cold and cure a grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is especially beneficially vegetable, therefore harmless.—Adv.

MOVING PICTURE NEWS

THE part is that of Faro Fan, a young girl, who inherits a thoroughly good character from her mother, and a gambling house in an almost deserted Western town from her father.

Today's Film Features. Majestic—Constance Talmadge, "Goodnight, Paul." Sunset—Norma Talmadge, "De Luxe Annie." Peoples—Billie Burke, "The Make-Believe Wife." Star—Vivian Martin, "Smiles." Liberty—Bill Hart, "The Border Wireless." Columbia—Wallace Reid, "The Man From Funeral Range." Globe—"The Girl of the Golden West." Circle—Wallace Reid, "Rimrock Junction."

Ray Having Real Sport. Charles Ray, the Thomas H. Ince wonder boy, is having a lot of sport these days organizing baseball teams to participate in a new picture which he is making. This new story has in it three games, making it necessary to have six teams.

Screen Gossip. Patriotism runs riot in Mae Marsh's dressing-room at the Goldwyn studios. The slim Goldwyn star, who is godmother to the 14th Machine Gun Battalion, stationed at Camp Kearney, Cal., recently called in decorators and had the floor painted blue, the ceiling white and the walls red. Needless to say, the "whim girl of the screen" is happy in her new patriotically artistic surroundings.

Frank Lanning, who plays the role of a half-breed Indian in Louise Glaum's latest picture, "The Goddess of Lost Lake," is a poet, scenario writer, actor, philosopher and satirist.

The second John Emerson-Anita Loos production for Paramount pictures, in which Shirley Mason and Ernest Truax appear as co-stars, is to be a travesty on the epidemic of Kaiser plays.

Mary Miles Minter's play, "The Ghost of Rosy Taylor," is based on a kiss bestowed by mistake.

for any department, or, further, for any sort of materials or supplies for any time you please, and I will show you exactly what it is." Saying this, he further demonstrated by a practical demonstration that he could do just what he said.

Rev. John Winkle Seeks Sister. Rev. John Winkle, who is ill at the Seaside Hospital, wishes to know the whereabouts of his sister, Mrs. Mary Cook, who he says was last reported as living in Portland. The hospital authorities say that the Rev. Mr. Winkle recently arrived from Indianapolis. His sister is asked to communicate with the hospital authorities.

OREGON LEGISLATORS—NOS. 8, 9 AND 10. S. B. Huston, Republican, Senator, Multnomah. W. P. Elmore, Democrat, Representative, Linn. Walter B. Jones, Independent, Senator, Lane.

S. B. Huston, State Senator from Multnomah County, is a Republican holdover, having been elected in 1916. Mr. Huston had an active life politically and served in the Senate from Washington County before moving to Portland. He was a Representative from Multnomah in 1915 and was a member of the City Council and Mayor of Hillsboro, Mr. Huston was born in Indiana, graduated from the Chicago Law School and, after practicing his profession in Illinois, went to Mexico, where he worked for the Santa Fe Railroad. In 1882 he moved to Oregon, working on a farm, and a year later resumed practicing law at Hillsboro. He was a candidate for the Republican nomination for United States Senator last Spring, but withdrew before the primary.

W. J. HOFMANN HEADS TOURIST ASSOCIATION

Portland Man Honored at Directors' Meeting.

ADVERTISING HAS PAID

Campaign Carried on in Newspapers and Magazines Has Made Northwest Widely Known.

TACOMA, Wash., Dec. 4.—(Special.)—Although W. J. Hofmann, of Portland, was prevented by illness from attending the meeting of the Pacific Northwest Tourist Association directors' meeting in Tacoma today, he was nevertheless elected president.

Mr. Hofmann, the members present said, had given much of his time to make the Pacific Northwest better known, and no man in the association deserved the honor as much as he. He succeeds Mayor A. E. Todd, of Victoria, B. C., who was forced to retire because of the press of other duties.

Frank Riley Highly Commended. Automobile travel showed the greatest increase during the year, Herbert Cuthbert, executive secretary of the association, reported. Frank Branch Riley, Portland lawyer, was highly commended for the good accomplished during his speaking trip through the United States and Canada, carrying the message of the natural wonders of the Pacific Northwest to more than 40,000 persons.

Publicity Takes 86 Per Cent. "During the year 86 per cent of our income was spent on publicity," said the report. "Fourteen per cent went for overhead managements and administration; 65 per cent of the whole was spent in newspapers and magazines. The balance of 21 per cent was spent on illustrated lectures, the printing of booklets and general miscellaneous advertising."

Officers Are Elected. The following vice-presidents were elected: Emory Olmstead, Portland; R. L. Sparger, Seattle; Mayor R. H. Gale, Tacoma; assistant treasurer, without opposition. The United States National Bank of Portland and the National Bank of Tacoma will continue to be the bankers of the association.

CREDIT GIVEN TO MR. RILEY. Northwest's Attraction to Tourists Laid to Illustrated Lectures. Unmistakable evidence that the Pacific Northwest is gaining in favor as the mecca of the American tourist is presented in the annual report of Secretary Herbert Cuthbert, read before the convention of the Pacific Northwest Tourist Association yesterday at Tacoma.

Portlanders will note with interest that no little credit for the good results achieved is attributed to the lecture

hours of Frank Branch Riley, of this city. The significant summarizing sentence of Secretary Cuthbert's report declares: "From all the information we can gather the travel by rail to the Pacific Northwest was heavier than to any other resort region."

Two definite results cited are these: "The most gratifying to know that for the first time in history the Rainier National Park has jumped to first place in point of attendance of all National parks of America. There is only one other park in the United States which has shown an increase in travel, and that is our wonderful Crater Lake National Park, which has shown an increase of from 35 to 40 per cent over last year's attendance. This park was almost unknown to the general public before the activities of the association were commenced."

Annent the lecture tours of Mr. Riley the report says: "Mr. Frank Branch Riley, an attorney of Portland and one of our leading citizens of the Pacific Northwest, was secured to lecture before the principal scientific and art societies, universities and business men's organizations and select social clubs in the middle and eastern states. He carried a message, illustrated by 250 most wonderful colored pictures of our leading citizens of the Pacific Northwest, and a special interim report reproduces over 20 original letters of the most highly complimentary character, not only on Mr. Riley's work but also on the enterprise and foresight of the association in adopting this most practical form of publicity."

The report shows that the achievement in attracting heavy tourist travel by rail and automobile to the Northwest was particularly noteworthy in view of the war conditions and the absence of the usual advertising of the railroads. It tells, with considerable detail, how the work of the association was carried on in the Northwest, and for special efforts in the future to compete with attractions which will lure tourists to Europe.

With the exception of knocking over a golf-hole flag here, the trip was made without accident of any kind from Sacramento. Tomorrow morning Lieutenant Hogland expects to start his return flight to Sacramento. His trip was made at the order of the War Department to determine upon a possible aerial mail route between California and the Northwest.

SEATTLE, Dec. 4.—Arriving on the Jefferson golf links, about two miles south of Seattle business district, at 3:37 this afternoon, Lieutenant A. F. Hogland, Army aviator, completed the first airplane flight ever made between Sacramento, Cal., and Seattle. His flying time for the entire distance, approximately 600 miles in an air line, was 12 hours and 22 minutes.

PORTLAND SEES BIG PLANE. Army Aviator Makes Flight From Sacramento to Washington Metropolitan Without Mishap. The aviator's flight from Eugene, made without a stop, he described as being through nasty weather and rain as far as Tacoma, Wash. Reaching Seattle, he flew out to the University of Washington campus grounds, where he intended to land and where Mayor Ole Hanson and naval and military officials were gathered to greet him. Flying within ten feet of the ground, however, he determined he could not make a good landing, and, waving his hand to the spectators, he made a second landing, rose again and made his landing on the golf links.

PLANES START FOR EL PASO

Pilots Expect to Maintain Altitude of at Least 8000 Feet.

SAN DIEGO, Cal., Dec. 4.—Five airplanes, starting out to map air lanes for aerial mail service between this city and El Paso, Tex., left Rockwell field at 3 P. M. Major Albert Smith, heading the squadron, carried a letter from Mayor E. J. White, of San Diego, to the Mayor of El Paso.

A leaky gasoline tank on one of the machines was responsible for an eight-hour delay in the start. Extraordinary precautions were taken for the safety of the pilots. In case of accident it was planned that Major James McKee, flight instructor at the Army aviation school on its 1500-mile trip, should land immediately. The pilots were instructed to maintain an altitude of between 8000 and 10,000 feet.

Major Smith planned to remain overnight at Calexico and to start at 6:30 A. M. tomorrow for Phoenix. A brief stop will be made at the Arizona city and then the planes will fly direct for El Paso, reaching there late tomorrow afternoon if no adverse weather is encountered.

PUT CREAM IN NOSE AND STOP CATARRH. Tells How to Open Clogged Nostrils and End Head-Colds. You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dizziness, headache; no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

200,000 JOBS ARE READY. Offers of Work in Shipyards Will Be Made to Soldiers. WASHINGTON, Dec. 4.—Plans were agreed on today by the War Department and the Shipping Board under which offers of 200,000 jobs in the shipyards and the merchant marine will be placed before soldiers soon to be mustered out.

The men will be given opportunity to make a living from an aviator, then, ready to take jobs, the Shipping Board will indicate to them the nearest place of employment either in a shipyard or aboard a ship. Inexperienced men electing to go to sea will be given a course of instruction.

CHILDREN'S AILMENTS. Disorders of the stomach and constipation are the most common diseases of children. To correct them you will find nothing better than Chamberlain's Tablets. One tablet at bed time will do the work and will make your child bright and cheerful the following morning. Do not punish your children by giving them castor oil. Chamberlain's Tablets are better and more pleasant to take.
