U. S. Naval Radio Reports.

The question of a permanent merchant marine programme is left for future determination, the board indicating that it will have suggestions regarding both development and operation at the conclusion of investigations now in progress.

Describing the tremendous fleet now operated by the Government, the report shows how enemy tounage was secured not only by taking over vessels interned in United States harbors, but by purchasing and chartering from other nations which likewise had seized German and Austrian ships. Cuba, China, Siam, Brazil, Uruguay and Peru all aided the United States and the allies in this regard. The cost of repairing the German and Austrian vessels amounted to approximately \$11,-December 14.
