## THREE MORE STATES RATIFY AMENDMENT

Action Required in 17 Others to Make Nation Dry.

HOUSE FAVORABLE

Distilling Interests Announce Plan to Make Determined Resistance to "Revolutionary Methods."

CHICAGO, Jan. 7 .- Three more states today ratified the proposed prohibition amendment, making a total of 19 states that have indorsed the proposal of the Congress. The House of the Idaho Legislature voted today for the amendment, and if the Senate follows suit, the pro-posal will need to be passed by only

16 more states.

While the amendment was ratified today by the Legislatures of Ohio, Colorado and Oklahoma, representatives of the distillery companies of the country met in Chicago and decided to oppose both the amendment and the war prohibition law, which is to go into effect on July 1, by every legal means pos-

Liquor Men to Fight.

At a meeting of the distilling inter-ests of the United States resolutions adopted declared the time had come for members of the industry to make "a most determined resistance to such rev-olutionary methods," referring to the war-time prohibition law and the prowar-time prohibition law and the proposed Federal constitutional amendment. The action taken today also
provided that power to make liquor's
fight shall be vested in a committee
and Attorney Levy Mayer, of Chicago,
was appointed chief counsel.

Although Mr. Mayer would make no

It is said to be the plan to allow the Government to make the first move by charging a violation, upon which the liquor interests will wage their

Legislation Is Attacked.

The resolutions adopted today stated that there are 500 distilleries in the country with an aggregate investment of at least \$1,000,000,000; that the industry antedates the Constitution adopted in 1789, and that the business "has heretofore been recognized, encouraged and protected by the United States Government itself." It was also stated that there is on hard about 150,000,000 gallons of whisky and alcohol, of a total value of about \$750,000,000, and that Federal and state taxes of at least \$5,000,000,000 have been paid since the enactment of the internal antedates Constitution nce the enactment of the internal venue law of 1862. The resolutions declared that the

war-time prohibition legislation and the proposed amendment would "vio-late every principle of American justice and of constitutional guaranties."
It was further asserted that constitutional lawyers of eminence have given their opinions that the proposed amendment "is inherently vicious and destroys the basic rights of local selfgovernment, the cornerstone hich our Constitution and the whole theory and structure of our Govern-ment rests."

President Takes Up Gauntlet for League Plan.

EUROPE TO KNOW ISSUES

Associated Governments Not to Go Into Conference Without Information.

BY JAMES M. TUOHY. (Copyright by the New York World, Pub-lished by arrangement.) PARIS, Jan. 6 .- (Special Cable.) sincere determination with which President Wilson has taken with Premier Clemenceau upon the rival merits of the proposed league of nations and the old balance of power, while apparently causing some surprise in re actionary French circles, is elsewhere considered as rendering a vital service to the deliberations of the peace con-

ference, which, at last, may with reasonable safety be expected to commence its belated work about January 15.

This untoward delay so pointedly deprecated by the London Times has been availed of, chiefly by the conservative forces both here and in England, to attempt to undermine the binding character of the entente pledges in support of the President's 14 points. That is the plain fact about the situation, and the President, with native directness of courage, has taken up the gauntlet for his league of nations proposal on the first occasion when it has been authoritatively thrown down There can now be no question of the associated governments going into the conference in blinkers, which would have been a catastrophe for Europe and for the world.

Publicity Is Desired.

Moreover, this incident, it is considered, enormously strengthens the de-mand that all reasonable publicity shall be concurrently given to the delibera-tions of the conference, a question which it is also sought to throw into the background during these last few

It should be mentioned, also, that the It should be mentioned, also, that the comments of the Paris press on these cognate matters must be taken with the knowledge that the number of reactionary journals is out of all proportion to their following and gives no fair index to the bulk of popular feeling, which is thoroughly in accord with the President's efforts to render a recurrence of war impossible.

a recurrence of war impossible.

British feeling, in the main, is along the same lines as that of the French proletariat, and Lloyd George took the first opportunity to reiterate in decisive language his unshaken loyalty to those democratic principles in behalf those democratic principles in behalf of which America entered the war.

It is confidently believed that the fears expressed by Clemenceau for the future security of France, in the face of German proximity, can be effectually dispelled by adoption by the conference of more progressive measures than con-tinued militaristic precautions, in them-selves a perpetual provocation to further wars.

Expression Not Hazy.

The international socialistic congress shortly will assemble at Lauzanne, and the disturbing influence of the dele-gates of the Left will be neutralized in conference to set going.

Although the President's speech in Rome furnished the first clear-cut pub-

lic intimation of the difficulties ahead. it should not be assumed in informal conversations that difficulties have already taken place, as there has not been any diplomatic haziness of expression on either side

MONTHS' SESSION LIKELY

Treaty Expected to Be Ready for Submission in March.

PARIS, Jan. 7 .- The preliminary peace conference is likely to last three months, according to Marcel Hutin, in

the Echo de Paris. "At the end of the second month that is to say the beginning of March." he says, "after complete agreement be-tween the great entente powers, the treaty will be ready for submission to the enemy plenipotentiaries for their signatures. Representatives of all the enemy countries will be invited to come to Paris to learn th allied conditions and will have a reasonable time—about one month—in which to refer it to their governments.

The preliminary treaty will contain. first, a clause by which the entente accepts a league of nations; second, the amount of indemnity payable by Ger-many and the methods of payment; and, third, a definition of the new frontiers. "These are the principal chapters. The preliminary discussions promise to

Views in Paris.

PARIS, Jan. 7 .- (Havas.) -- First parleys of the peace conference are planned to begin January 13 at the appellant; appeal from Multnomah; French Foreign Office for exchange of motion to dismiss indictment charging the between heads of the governing crime of manslaughter; opinion views between heads of the govern-ment and the Foreign Ministers of France, England, the United States and Italy. These preliminaries probably will be completed about January 18, when the representatives of all the powers that have severed relations with the central powers will meet with the representatives of France, England, the United States and Italy and decide definitely on the composition of the delegations to the peace conference.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup at home. It is simple and cheap to make, but it really has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 214 ounces of Pinex from any druggist, pour it into a pint bottle, and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "212 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind. Ŏ000000000000000000000000000
