# You Can't Brush or Wash Out Dandruff

The only sure way to get rid of dancruff is to dissolve it, then you dentroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight and by morning most, if not all, of your dandruff will be cone, and three or four more applications will completely dissolve and entirely destroy it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, sliky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work .- Adv.
