General Dickman and Officers Give Visitor Fine Time and Show Him All Sights Around Coblenz.

COBLENZ, Jan. 12.—(By the Associated Press.)—The Prince of Wales became the guest of Major-General Joseph T. Dickman, commander of the American Third Army, Friday. He entered the American lines from the Cologne headquarters of the British army of occupation.

Dressed in the uniform of a British officer and accompanied by a single aide, Lord Claud Hamilton, the Prince made the run from British headquarters in an armory automobile, arriving here late in the day. It was dark and the sentries who saluted as the car passed did not know more than it bore officers of high rank.

Good Time Scheduled. One or two dinner parties, luncheons and excursions into the bridgehead territory make up the program.

General Dickman has plans for his week-end guests but not forgetting his highest wishes for an interesting, rather than a formal and ceremonious visit.

With the Red Cross and Army nurses and the Y. M. C. A. girls, the supply of partners will be sufficient, but to make certain, General Dickman's aides have sent into the British sector for a supporting detachment of nurses.

While the Prince is in the American area his headquarters will be in a house adjoining that of General Dickman. He was the guest at a dinner given by the American commander, where were presented to him several members of General Dickman's staff.

CURTAIN RINGS DOWN ON CHARLES WYNDHAM

Celebrated English Actor Is Dead in London.

PLAYER POPULAR IN U. S. Theatrical Favorite Known for His Service in Civil War as Well as on the Stage.

LONDON, Jan. 12.—Sir Charles Wyndham, the actor, died in London this morning.

Sir Charles Wyndham, through his visits to America, covering a period of 50 years, was almost as well known to theater-goers in this country as in his native England.

Probably few of those who remarked upon his military bearing on the stage, standing as he did above 6 feet in height, straight and slim as a sapling, realized that the noted actor began his acquaintance with the Americans as a favorite of the English stage and had met with some success on the European continent.

Boy Intended for Church. Born in Liverpool in 1837, Charles Wyndham was the son of a prominent physician.

When he was 12 years of age he was intended for the church, and there was great consternation in the family when he displayed his predilection for the life of an actor.

He made his first professional appearance at the old Royalty Theater in London as Christopher Carnation in "Carnation of Carnation Cottage."

He was under the management of Adolphe Rihou, when the company included Ellen Terry, W. H. Kendal and David James.

When he came to the stage meant going to the dogs then, in the eyes of the majority of people, said the actor in later life when he recalled the protests in his family against his stage career.

Young Surgeon in America. He found the war of absorbing interest in America, however, and postponed his theatrical ventures in favor of service as an Army surgeon.

On quitting the Army he returned to New York, where he opened a highly successful office as a general practitioner.

Actor Extremely Popular. Sir Charles was a favorite in fashionable society, as well as on the stage.

He was married to Miss Mary Moore, who for 30 years had been the leading lady in his company.

DRUG MAKER ARRESTED IN ASPIRIN CASE

Analysis Shows Talcum Powder Chief Ingredients of Tablets of Which 394,000 Were Seized

Blank Diplomas for Dentists Discovered in Brooklyn Raid—J. M. G. Kukay Held in \$1,000 Bail

More than 394,000 alleged aspirin tablets were seized yesterday in Brooklyn. The manufacturer was arrested. His name is Joseph M. G. Kukay. He said he was head of the Verandah Chemical Company, No. 28 Verandah place, Brooklyn.

The arrest followed the analysis of the tablets. They were found to be the product of aspirin. Talcum powder was the principal ingredient of the tablets. It was found to consist of seventy per cent "innate material," sugar water and salicylic acid were also used.

Health Commissioner Copeland said that thousands attacked by influenza or pneumonia had recourse to aspirin tablets. He said:

"There is no doubt but that many thousands of persons rushed to aspirin as soon as they had a little cold. It certainly did not help those people if they happened to get talcum powder into their systems, and it appears that many thousands of these tablets were sold throughout the country."

Inspector F. Cummings, of the Brooklyn Food and Drug Division, made the raid on the Verandah Chemical Company.

Chief Druggist said: "We seized 394,000 tablets, on the strength of the diagnosis made, and believe the whole lot consists of talcum powder. The manufacturer seems to have done a great out-of-town business, and I estimate his monthly shipments were no less than 500,000 tablets and has been doing so for several months in Verandah place. Just how many millions of these tablets he has sold as aspirin tablets we cannot state."

An interesting phase of the seizure of the press and blank diplomas for dentists, Dr. Copeland estimated there would be an investigation of this also.

It was held in \$1,000 bail. Kukay was charged with violating the Health laws.
