BUDGET SHOWS WIDE FIELD FOR ECONOMY

Pruning of Items Amounting to \$1,322,520 Possible.

MANY WAR ACTIVITIES END

Total Funds Wanted Estimated to Be \$9,167,795, With Visible Revenues Amounting to \$7.870,580.

STATE CAPITOL, Salem. Jan. 12.— (Special.) — Application of business methods, elimination of non-essentials and postponement of unnecessary im-Provements until a more auspicious time will enable Ofegon to be financed without indebtedness. A survey of the budget which has been prepared for the consideration of the Legislature shows a total estimate to be provided from the public treasury of \$8,167,795.81. As estimated, visible revenues amount to \$7,879,580.97, it appears that \$1,297,-214.84 will be needed.

Every essential in the budget can be rovided with \$290,000 remaining, al-lough drastic economies are neces-

Elimination of \$1,322,520 Possible. Apparently there is a shortage of \$1,297,214.84. By the exercise of the pruning knife, it in possible to trim from the budget \$1,322,520 without damage to the running machinery of the state. The Legislature will probable devises reconstruction whereas his devise reconstruction schemes which must be heavily financed, in which event the tentative budget items will have to suffer

It is estimated \$500,000 can be lopped off in the industrial accident commission by abolishing the one-seventh which the state contributes to the comon itself recommends that the Legis lature make an appropriation for ad-ministration expenses of \$296,876.16, instead of the estimated \$650,000, which the state's one-seventh for two years will amount to; the state adding to the money which comes from employers and employes for compensation.

Cost Reduction in 1920 Forecast. Before the session ends the commit

which will reduce the state's portion to the bare cost of administration. Another suggestion is that the commis sion be made self-supporting, the ad-ministration expense being paid for by the employers and employes. A third suggestion is that the state, instead of appropriating a sum based on esti-nates, give a fixed amount for the ad-

It is likely that the cost of sup-lies will be reduced. Supplies may not cost less in 1919, but in 1920 it is expected that the cost may be losper cent less than it is at this time of compiling the budget. An item of \$24.-\$20 for the State Council of Defense be saved, as that organization completed its mission.

War Activities Ended.

About \$40,000 can be slashed from the Oregon Agricultural College esti-mate and \$200,000 from the University of Oregon. These sums can be saved because the war is over and anticipated war activities, calling for greater ac-commodations and incidental expense. to longer exist. There is a supp make some sort of provision for exenses already incurred. An item in he University of Oregon budget calls for \$100,000 toward constructing and equipping an armory and another \$100,000 toward constructing a wom-

a's building.
About \$60,000 for dormitories can be eliminated from the estimate of the home for the feeble-minded. The Pation Home received \$6000 in 1915 and 1915 and \$5000 in 1917 and 1918. By BOISE, Ida., Jan. 13.—(Special.)—restoring the old \$6000 appropriation Confirmation of E. F. Caton, Republi-

ASK GRANDMA ABOUT VEGETABLE TEA FOR CONSTIPATION

Liver and Bowel remedies come and to, but Dr. Carter's K. and B. Tea. which your grandmother knew all bout, is new more popular than ever. Many families have used this tea for ears, brewing it at home, and find it he best and least expensive remedy her can get.

sey can get.
Your pharmacist will sell you a small ackage, which will last a long time.
It's a splendid drink for constipation, acts surely and gently, and for a furgish liver, sick headache, sallow thousands of kin and dixiness, many thousands of comen use it. Speedy and blissful re-lef is guaranteed to all who drink Dr. 'arter's K. and B. Tea, and don't for-cet that it's simply fine for children.—

natcheries and an additional \$5000 to complete a fishway at Falls. The receipts for Falls. The receipts for commercial fishing in the past two years amount to \$151,000, and this money is used for operating hatcheries and overhead expenses. In addition \$15,000 is asked of the Legislature apparently for the same work. Also there has been received by the same commission \$151,000 in fees from hunters' and anglers' licenses in the past two years, which money has gone to pay deputy game wardens and the propagation of game fish.

A saving of \$15,000 can be made on the estimate of the State Board of Forthe estimate of the State Board of For-estry by giving it the same appropria-tion as two years ago. The State Board of Health received \$21,000 four years ago. Two years ago it was al-lowed \$24,000, and the emergency board gave it \$15,500 more. Now the board asks for \$95,225, this sum being in-tended for an elaborate organization. If the increased organization is not ap-proved a saving of \$70,000 is within proved a saving of \$70,000 is within reason. By keeping the appropriation of the Oregon Historical Society at the old figure instead of increasing it as requested, \$7000 can be dropped from the total budget.

Many Reductions Given. A little more than \$40,000 is asked by the Oregon Social Hygiene Society, as against \$20,000 two years ago, which was increased \$10,000 by the emer-gency board. At least \$15,000 can be

goncy board. At least \$15,000 can be saved here without hindering the good work it has accomplished.

Roughly estimated, \$19,900 can be eliminated from the Oregon State Library estimate, and there is a possible saving of \$5000 on the livestock board by keeping the appropriation at the old figure. This applies also to the bureau of mines and geology, where \$20,000 can be eliminated. \$20,000 can be eliminated.

An estimate for the National Guard calls for \$255,205.12. Just what will be done with the guard is unknown, but before the war \$155,000 was considered adequate. If the Legislature does noth-ing else on this item, it can at least knock off the \$98,000.

Field for Economy Wide,

The Naval Militia used to receive \$15,000. Its present estimate is \$30.710. The future of the Naval Militia is as uncertain as that of the National Guard, but the Legislature will not go far wrong, apparently, if it reduces the estimate \$10,000.

Unexpected balances of the emer-rency board deficiencies can be sal-raged to the sum of \$140,000. Almost pensation fund. The estimate in the half this amount can be saved from hudget is for \$650,000. The commisthe unexpended appropriation for the maintenance of the military depart-ment of the state of Oregon.

At first glance, the prospect of admated expenses appears among things impossible. A close scanning of the respective items discloses that there is a wide field for economy and saving of state meney without crippling the operation of the business.

PUBLIC SERVICE BODY TARGET

Law Is Proposed to Prevent Further Rise in Streetcar Fares.

STATE CAPITOL, Salem, Jan. 13.— (Special.)—Revocation of some of the powers delegated to the Orgon Public Service Commission is sought in a bill vides that the Public Service Commit tion shall not have authority to it rease rates charged by public service orporations, when such rates were in voked through contracts between the corporations and cities prior to Sep-tember 16, 1913.

Fair board to cost \$65,000. Members of the board have given their notes to finance the structure. On the theory that no building improvements are essential, the \$55,000 can be taken off the budget.

The bill, according to Senator Huston, is designed primarily to forestall any further increase in street railway fares in Portland. When a public utility and a municipality have enterd into a solemn contract for furnishing commodity to the should be given authority to increase the rate agreed upon," said Senator

GERMS INFLUENZA

BY VALENTINE MOTT PIERCE, M. D.

illi of Influenza Magnified over 6.000 Times.

Influenza is produced by a bacillus or germ coming chiefly from discharges from the nose, throat and lungs of the person who coughs, sneezes, or spits. The person attacked feels] chilly, develops a high temperature—usually accompanied by headache and "ache all over"-as it is usually described. If you have the above symptoms get into bed as quickly as possible, after a hot mustard foot-bath. Take a good purgative, such as one made up of May-apple, leaves of

aloe, root of jalap, and sold in every drug store as Dr. Pierce's Pleasant Pellets. Then surround yourself with hot water bottles. It is a fact mentioned by physicians of the largest experience that the effort on the part of nature to throw off the poisons results sometimes in inflammation of the kidneys. It is therefore very important to assist nature in eliminating the toxins (poisons) from the body thru the bowels, skin and kidneys. Not only should this be carefully attended to by the sick, but by the person who wishes to ward off an attack. A new kidney remedy called "Anuric" (anti-uric) can be obtained of the druggist. This "Anuric" flushes the bladder and kidneys and throws off the poisons (toxins), and should be taken with hot water or hot lemonade. Clear the nose with some good antiseptic spray or Dr. Sage's Catarrh Remedy. It is, of course, unnecessary for me to emphasize this, keep strong and healthy, fear neither germ nor German, and observe the three C's: A Clean skin, Clean bowels, Clean nose and mouth and you have half won the battle.
