BERNE CONGRESS BLOCKED

Samuel Gompers Prepares to Leave for Paris to Lay Plans Before Leaders of French Labor.

BY JOSEPH W. GRIGG. (Copyright, 1919, by the New York World. Published by Arrangement.) LONDON, Jan. 22.—(Special.)—The plan of President Samuel Gompers, of the American Federation of Labor, for founding a new international trade union movement without political fettering, was approved by a parliamentering, was approved by a parliamentary committee of the British Trades
Union Congress this afternoon.
That body pledged its support to the
proposal and named five delegates to
meet five American Federation of Labor delegates to take up the matter. Of
the five British delegates, three of
them recently resigned from the proposed delegation to attend Arthur
Henderson's international conference at
Berne.

Right Honorable Charles W. Bower-nan and Will Thorne are included. Mr. Jompers' success in aligning the British trades unions with the American Federation of Labor will be a severe blow to the Berne conference, for although the British Trades Union Congress is pledged to be represented at Berne, it is believed that the new international labor movement will completely overshadow the Berne meeting.

Mr. Gompers and the American delegation were greatly pleased with the results of today's development, and he said they would leave Paris tomorrow to confer with French labor leaders Thursday. trades unions with the American said they would leave Paris tomorrow to confer with French labor leaders Thursday.

If the French labor men support the American Federation plan then the first meeting will likely take place in Paris in the near future. Speaking of the possibilities of the new labor movement, Mr. Gompers said:

"An opportunity seldom comes to generations of men such as this one, which has the most potential conditions for the future of labor."

He declined to discuss the Berne convented.

Arthur Henderson, labor leader and former Cabinet Minister, said to the Daily News today:

"The position taken by Samuel Gomference is incomprehensible. He was elected a member of the committee of four charged by the last inter-allied conference to organize a labor and Socialist conference to sit concurrently with the official peace conference. "If, as reported, the ground of the American Federation of Labor's refusal is that they do not desire to associate with the Bolshevik elements of continental socialism, the objection is unnecessary, as neither the Russian Bolshevikl or the German Spartens group sheviki or the German Spartacus group will be represented. The strongest hos-tility to the conference comes from continental Bolsheviki."

THE distinguished service rendered by the Cadillac in France is paralleled, in less heroic environment, by the every-day experience of Cadillac owners.

You will find that the average owner, while proud—as we are proud—of the high honor conferred upon his car by the War Department, does not see how the Government could well have done otherwise.

The fact that the Cadillac was officially designated as the standard seven-passenger car of the United States Army pleases, but does not surprise, him.

England long ago anticipated this action by the American Government, when the Dewar Trophy was twice in succession conferred upon the Cadillac.

We told the simple truth when we said a few weeks ago that there is only one thought in the world today about the Cadillac.

That thought is that the Cadillac is a truly great motor car-in name, and in fact, the standard of the world.
