

CURE FOR UNREST OF LABOR IS DESCRIBED

Australian Prescribes Standard and Living Wage.

U. S. METHODS CRITICISED

G. S. Beeby Says American Demobilization Without Providing Employment May Bring Discontent.

NEW YORK, Jan. 23.—The world's most effective weapons against the spread of Bolshevism is prompt and definite action guaranteeing to labor a standard day, a living wage, protection against unemployment and sane regulation of child employment, in the opinion of G. S. Beeby, Minister for Labor and Industry of New South Wales, who made public here tonight conclusions based upon an extended survey of industrial conditions in the United States and Australia.

Mr. Beeby said he was impressed by the absence of a cohesive policy regarding labor in the United States, to which he attributed in a degree the country's periodic industrial unrest. America, he said, is still discussing the eight-hour day and kindred problems long since generally recognized by England and her more important colonies.

As a result of his investigations in this country Mr. Beeby said he would present on his return to Australia in May recommendations for an amendment to the constitution substituting a conference and conciliation for the present obligatory arbitration, tantamount to court action, for the settlement of labor controversies.

MERCHANT POINTS TO DANGER

Extensive Employment Bureaus Are Advocated.

WASHINGTON, Jan. 23.—Some of the dangers confronting the Industrial World from employment were emphasized today by A. L. Filene, a Boston merchant testifying before the Senate labor committee, which is considering labor legislation.

The Minister said there was opportunity for disorder and discontent in the promiscuous demobilization of American troops without provision for their employment. In Australia, he stated, soldiers are kept on the army payroll for three months while they look for jobs.

E. S. GOAL OF HUN THOUSANDS

House Immigration Committee Is Warned Against Foe Immigrants.

WASHINGTON, Jan. 23.—Thousands of Germans who fought against America are anxiously waiting for the peace treaty to be signed, to emigrate to this country, the House immigration committee was told today by Representatives Johnson of South Dakota, a lieutenant in the infantry overseas during the war, speaking in favor of legislation stopping immigration during the reconstruction period.

Mr. Johnson said he spoke with numerous German prisoners and that invariably they stated they intended to come to America as soon as the war was over.

NEW YORK, Jan. 23.—To meet emergencies of the readjustment and demobilization period, the Council of National Defense has asked that legislation be instituted in the states to provide for development of wholesome community organization under a permanent state leadership on a non-partisan basis to succeed the present system.

WOMAN DRAWS RESOLUTION

KATHLEEN O'BRENNAN ADMITS AUTHORSHIP OF LABOR BILL.

Lecturer's Hearing Continued Before United States Immigration Inspector Bonham.

Kathleen O'Brennan admits having fostered and written most of a resolution adopted by the Oregon State Federation of Labor at its recent convention calling for the removal of William R. Bryon, special agent of the Department of Justice, who was alleged to have acted toward Dr. Marie Equi, convicted under the espionage act, in a manner that offended the latter.

The admission came forth at a continuation of Miss O'Brennan's hearing yesterday afternoon before R. P. Bonham, United States immigration inspector, who arrested her recently on telegraphic instructions from Washington. The step is regarded as the result of lectures delivered by Miss O'Brennan since coming to America from Ireland, a mission she has said was in the interest of an Irish republic.
