Jinx Taken From Number "13." Speaking of the 91st Division, the officers and men of the 346th Field Ar-tillery are very sensitive. Ever since landing in America, the 346th has been called and referred to as a part of the glorious 91st Division. They feel they were in a separate command, that they are being feted and getting the glory that really belongs to men of the 91st, getting something which herey did not earn. No one could be more proud of the Brilliant record that is due the 91st Division than the men of the 346th, yet they feel they are securing a homage Names of Men Given. Transportation facilities to Eastern Lewis County were just about to re-sume normal conditions, after the floods the latter part of last week, when another downpour came. The Ta-coma Eastern Railroad bridge at Park Junction was put out of use by the first high water and for two or three days there was no mail service from Tacoma. The latest storm, it is re-Tacoma. The latest storm, it is re-ported here, damaged a bridge near Entonville, so that it will likely be the first of next week before any kind of mail or train service is resumed. Advices from Eatonville Wednesday were to the effect that one small bridge south of Eatonville had gone out and that mother was threatened.
