BAR AGAINST FOOD EXPORTS REMOVED

Practically All Cereals Go Freely Hereafter.

CORN LIKELY TO ADVANCE

Heavy Demand Reported in Europe for Most of the Cereals Now Placed on Free List.

WASHINGTON, Feb. 2.—The most representatives of British and American oil, mining and cattle interests in the exportation of foodstuffs made aince the signing of the armistice was amnounced today by the War Trade Board.

Commodities removed from the export

commodities removed from the export conservation list were barley, corn and tye, including flour and meal made from these grains, oats and oats products, brewers' grains, bran and middlings, beans, dried and split peas, sugar and hydrogenated cotton seed oil.

These articles constituted a majority of the food thems on the restricted list. These articles constituted a majority of the food items on the restricted list and their removal is effective immediately. Licenses to export them will be granted freely to all destinations, including Great Britain, France, Italy and Belgium. Heretofore such exports to these allied countries were made exclusively by the Food Administration's grain corporation and the Wheat Export Company.

Attention was called to the fact that

Attention was called to the fact that wheat and wheat flour remain on the restricted list. There was no indication when the embargo on those commodi-ties would be removed, but it was said that it probably would remain in force intil the Government's agreement with the farmers for a maximum price on the farmers for a maximum price on the 1919 wheat crop had expired.

Removal of the embargo on the other grains was expected by some officials to stabilize prices and relieve what was described as a congested market. An advance in the price of corn was looked for by reason of the fact that prices fell sharply several weeks ago when removal of the embargo against the importation of Argentine corn was announced.

gentine corn was announced.

It was said that there was a heavy demand in foreign countries for some of the grains now placed on the free list, particularly for ryc.

This store has been rented over our heads for an amount far in excess of what a legitimate business can afford to pay; we must move out. We have been in business here for almost eight years; we have established a reputation for high-class merchandise at an honest price; we have worked long hours and earnestly to establish this reputation; we have always been very particular about what we selected for our trade, making frequent trips to New York to buy directly from the manufacturers, which has enabled us to place the finest merchandise before the public at an honest price and a small profit, which will be forgotten entirely in this smash-up. Here we are with an immense stock on our hands, much of which has just recently arrived, because we anticipated an early Spring-business. We are compelled to close this stock out quickly.

JOHN DAY WORK TO START

ROAD MACHINERY DELIVERED BY SUMPTER VALLEY ROAD.

First Section of Highway Will Extend From Prairie City to John Day, 14 Miles.

BAKER, Or., Feb. 2 .- (Special.) -The roadbuilding machinery, which was held up in Baker during the Sumpter Valley strike, has arrived in Frairio and work on the John Day highway and work on the John Day highway will be begun at once on a big scale. The first section to be built will be that between Frairie City and John Day, a distance of 14 miles. Already several miles are constructed and residents of Grant County who have had an opportunity to use it are more than pleused with this first sample of good roads in that section. The road is being constructed by the latest approved methods and of the same materials that have been used in the construction of the Columbia River

Highway.

When completed the John Day highway will extend through Grant County to Wheeler, where it will connect with the section of the state highway that will be built in that county and give Grant County a direct connection with Portland over a permanent and well-constructed road.
