Washing Won't Rid Head of Dandruff

The only sure way to get rid of dan druff is to dissolve it, then you destroy t entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely-dissolve and entirely destroy every single sign and trace of it, no matter how much dan-

druff you may have.

You will find too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky at 1 soft, and look and feel a bundred times better. You can get liquid (rvon at any drug store. It is inexpensi e and never falls to do the work.—Adv.
