

WORK OF REBUILDING GERMANY IS BEGUN

Members of First National Assembly Meet at Weimar.

TOWN NON-PRUSSIAN ONE

Historic Little City Host to Most Notable Throng Ever Gathered in Its Limits.

WEIMAR, Wednesday, Feb. 5.—(By the Associated Press.)—Weimar today is filled with the most notable throng that ever assembled in this beautiful little German city. Some 2000 German political leaders, ranging in repute from such well-known men as Chancellor Ebert, Philipp Scheidemann, Count von Brockdorff-Rantzau, the foreign secretary, and Matthias Erzberger to the humblest and hitherto unknown figures from every corner of the former empire have been gradually assembling here and are ready for the opening tomorrow of the first German National Assembly.

Private houses requisitioned. Weimar fortunately possesses an unusual number of good, although small, hotels. Virtually all of these were requisitioned by the authorities. Many private houses and rooms in residences also were requisitioned. The Weimar "Wohnungsrath," or residence bureau, then took up the task of allotting living quarters to specified groups, such as the ministerial party, the members of the assembly and the correspondents. Each person not only had his living quarters definitely assigned to him in advance, but his eating place as well.

Each guest is obliged to eat at the place assigned to him and must present the proper card calling for such service. First of all there is a pink card allowing the delegates and newspaper men to enter Weimar and assigning them to their places in the court theater, where the national assembly will be held. Then comes a gray card, assigning the lodging place and stating the exact price to be paid for the room. Next comes a yellow food card, indicating where meals may be eaten. In addition there are booklets of pink, blue and green slips, representing seven breakfasts, luncheons and suppers, respectively, and gray, red, brown, yellow, maroon and blue tickets for bread, sugar, etc.

German system and it seems to work excellently except for the annoyance of keeping track of so many cards. Weimar is strongly policed with cavalry and infantry. Mounted troops are constantly on patrol to prevent a possible Spartacist attack. The special arrangements for feeding the delegates and others taking part in the assembly will admit of the serving of meals with a good choice of dishes and a fairly wide selection of luxuries. The butter served is apparently the real article and marmalade and tea may be had.

Although the constitution for the new republic undoubtedly will be one of the first subjects brought up for discussion and consideration, there are on the scene those who would like to push to the fore the discussion of a league of nations and there were predictions in some quarters today that this subject might have first consideration.

Did You Ever Stop to Notice? Two girls walking down street, both equally good looking, but such a difference? Why? The well-dressed and groomed one bought that smart new dress at Cherry's, on their Easy Payment System. She is always well-dressed since she opened an account with them, 333-331 Washington Street, Pittock Bldg.

said, because it is a non-Prussian town. It is situated in a fertile valley on the river Ilm, a small tributary of the Saale, and has a population of less than 50,000. Here, amid the old buildings that remind one of a medieval past, the 410 representatives of the German people elected on January 29 assemble to accept, reject or amend the draft of a constitution which has been prepared by the Ebert government and to form, perhaps, a union of states on the modern American principle.

Sleepy old Weimar, famous as the home of Goethe, Schiller and Lessing, is said to have existed more than 11 centuries. Under Charles Augustus, Grand Duke of Saxe-Weimar-Eisenach, the town became a center of liberalism as well as art. Its most important building is the Palace, described as "a huge structure forming three sides of a quadrangle, erected (1789-1803) under the superintendence of Goethe," only a remnant of which, however, with a tower, is still standing. It contains a series of rooms dedicated to the poets Goethe, Schiller, Herder and Wieland, all of which are decorated with lovely mural paintings. Near by is the house where Goethe lived from 1782 to 1832, a home of the poet, his study, his library and presented to him by his patron upon Goethe's return from his Italian tour.

REDS RAMPANT IN MADGEBURG

Saxony's Capital Scene of Spartacan Demonstration. PARIS, Feb. 6.—(Havas.)—Serious disorders have occurred in Magdeburg, capital of the province of Saxony, according to Berlin advices. Soldiers and sailors, armed with machine guns and machine guns, broke down the doors of the courthouse, liberated 180 prisoners, smashed shop windows, pillaged shops and trained machine guns on the inhabitants. The government troops are vigorously attacking the revolutionists.

AMSTERDAM, Feb. 6.—The city of Bromberg, German Poland, has been recaptured from the Poles by German troops, after brisk fighting, according to advices received here.

PARIS, Wednesday, Feb. 5.—Germany is pictured as "a land of graveyards," by Lieutenant-Colonel Searle Harris, of the United States Medical Reserve Corps, who has just returned to Paris after having investigated conditions east of the Rhine. He says the German nation is bankrupt and the people actually starving. "There are no eggs, no milk and only half a pound of beet sugar for each person a month," he says. "Shop girls have lost from 10 to 45 pounds in weight, while every one shows a lack of vitality. I found children training to school without paper sandals or with cloth shoes to which wooden soles had been attached."

EBERT GOVERNMENT ATTACKED

Red Flag, Organ of Spartacans, Indulges in Diatribes.

BERLIN, Wednesday, Feb. 5.—(By the Associated Press.)—The Spartacan organ, the Red Flag, which, since its resumption of publication a few days ago, has been castigating the Ebert government, issued today a strong appeal to the workmen to avenge the death of the Bremen insurrection by adopting resolutions of protest and electing new soldiers' and workmen's councils under radical control. "The Spartacans again demand the overthrow of the government, and refers to Premier Ebert and Philipp Scheidemann as 'bloodthirsty' and calls the workmen 'to the breastworks' and urges them to gather for the purpose of inspiring 'terror'." The organ of the independent Socialists, Die Freiheit, declares that now that the details of the Bremen fighting are known, the soldiers and workmen should protest against the present shame-covered government and create a new storm of fury, which ought to sweep it from its place. The majority Socialist organ, Vorwaerts, exults over the outcome of the Bremen revolt.

GERMANS LESS ARROGANT

CREST OF CRIME WAVE AT COBLENZ HAS PASSED.

Citizens, It Is Believed, Have Acquired Wholesome Respect for U. S. Military Regulations. BY CYRIL BROWN. (Copyright, 1919, by the New York World, Published by Arrangement.) COBLENZ, Feb. 6.—(Special Cable.)—It is believed that the crest of the crime wave in Coblenz has passed and that the inhabitants have acquired a wholesome respect for American military regulations through many arrests and convictions for their infringement. This has been accomplished in part by the requirements that the German press give the widest publicity to offenses and to the efficiency of the Third American Army in detecting and punishing them. The Coblenz Gazette features a compulsory advertisement by order of the Burgomaster, citing 46 Teuton offenders in Coblenz and its suburbs against American military law. These cases were brought in January before an inferior provost court.

Several offenders were convicted on two or more counts. There were two convictions for insulting American officers, one of the men, Karl Kettel, getting 90 days in jail, and Fritz Viebsson paying a fine of 200 marks. FAIRBANKS HAS BIG FIRE Business District Gutted for Second Time in City's History. FAIRBANKS, Alaska, Feb. 6.—Twenty buildings in the heart of Fairbanks' business district have been destroyed by a fire which started early today. In an effort to save the Federal buildings and the First National Bank firemen tore down adjoining structures. This is the second big fire Fairbanks has suffered. In 1906 the heart of the city was wiped out by flames. Most of the buildings destroyed in 1906 stood on the ground over which the flames swept today. Fire fighters today were handicapped by the strong wind. The fire started from a defective furnace in the basement of a jewelry store. Spokane Man Heads Farmers' Union. SPOKANE, Wash., Feb. 6.—A. A. Elmore, of Spokane, was elected president of the Washington and Northern Idaho Farmers' Union at its annual convention here today. B. P. Brewer, of Walla Walla, was elected vice-president. A. D. Cross, of Spokane, secretary-treasurer, and Almer McCurtain, of Davenport, Wash.; G. M. Thompson, Dayton, Wash.; and R. H. McMillan, Sand Point, Idaho, members of the board of trustees.

PLAN FOR SOCIETY OF NATIONS PROGRESSES

Commission Said to Be Third Through With Task.

HUN ARROGANCE TO HALT

Allies Decide to Impose 'Full Will' on Germans Who Have Not Fulfilled Armistice Terms.

PARIS, Feb. 6.—The society of nations commission of the peace conference has virtually covered one-third of its task. It was officially announced this afternoon. Agreement, the statement adds, has been reached on the principles underlying the whole draft for a society of nations.

The fact that there has been much discussion at the sessions of the commission for framing the society of nations has led to the belief in some quarters that the success of the plan was endangered. It may be stated, however, that in the opinion of men behind this project, such is not the case. Published reports that certain fundamental principles dear to the American delegation have been sacrificed are declared to be untrue, it being explained that some of the features described as discarded never were included in the original American or British plans.

Lord Robert Cecil and General Smuts, representing Great Britain, met in the rooms of E. M. House with Premier Orlando, of Italy, and Generalissimo Koo, the Chinese delegate, today. The group went over the whole field and devised plans for meeting any attempts that might be made to impair, in their opinion, the value of the original project of a society of nations. The supreme war council will meet at Versailles on Friday to take measures to impose on Germany "the full will of the allies," says the Matin, because of the unwillingness of Germany to carry out the armistice terms except under certain conditions. There has been a change in the attitude of Germany, according to the Matin, and it is being manifested by arrogance toward the entente. President Wilson's peace commission today with Vittorio Orlando, the Italian Premier, and with M. Trumbitch, the Jugoslav Foreign Minister, who called upon the President in the Paris White House.

The indications were that an effort was being made by the President to mediate between the two nations with the purpose of aiding them to reach an agreement for the settlement of their conflicting claims regarding Albania, Flume, Istria and Dalmatia.

Nineteen small belligerent nations won definite recognition from the supreme council of the peace conference yesterday, which granted four additional seats on the commission on the society of nations to lesser countries. This gives to the small powers nine seats on the commission which will frame the plan for the society and 10 seats to the five great powers. Poland, Roumania, Czechoslovakia and Greece will hold additional seats. This concession became known last night after a long discussion of the mission on the society of nations, which President Wilson attended. The chief point discussed was the constitution of the executive body of the society of nations.

BEND STORM IS UNUSUAL

Thunder, Lightning and Rain Follow Heavy Snowfall.

BEND, Or., Feb. 6.—(Special.)—With the ground blanketed with snow, a violent thunder storm raged here tonight. Lightning flashed at frequent intervals on the whitened surface of the earth produced a weird effect. Rain followed the electric storm, but failed to melt away the snow. No damage resulted from the lightning. The peculiar combination of weather conditions is the first to occur in Oregon in the memory of the oldest inhabitants. The snow and rain of this afternoon and evening brings the total precipitation for the last two months up to three inches, unusually heavy for this section, and indicating bumper crops for the coming season.

HAIR FALLS AFTER "FLU"

Portland Women Anxious to Know If Locks Will Grow Again.

Many Portland women are agitated over the loss of luxuriant locks of hair, the direct result of influenza and are at a loss to know if the hair will return. Physicians of Portland state that the loss of hair by influenza patients is caused by the high fever which accompanies the disease, and in all other cases of fever, the hair returns after a short time. Because of the lack of data in connection with influenza, the physicians have no manner in which to authoritatively assure another growth of hair for the influenza patients who are losing it, and the assumption that it will return is the only solace which is now given for the victims.

O'Leary, on trial in Federal Court here on charges of violating the espionage law, took the conduct of his case in his own hands today, cross-examining at length Adolph S. Ochs, publisher of the New York Times; Richard Hooker, publisher of the Springfield Republican, and other witnesses summoned by the Government. O'Leary questioned Mr. Ochs for nearly an hour, seeking to draw from him an admission that his newspaper was controlled by British influence or money. Mr. Ochs had been summoned by the District Attorney to refute charges made in O'Leary's magazine, Bull, that the Times was so controlled. He testified that he owned 54 per cent of its stock and that all the remainder was owned by other Americans. Mr. Ochs also denied a suggestion
