

SEATTLE DAZED AS STRIKE GRIPS CITY

Citizens Grimly Mutter: 'This Is Bolshevism.'

PUBLIC BEGINS TO CHAFE

Anger Grows That Seattle Is Chosen for Staging of Initial 'Red Revolution' in America.

(Continued From First Page.)

Should burn in the city, even in hospitals.

Seattle smiled as it waited for the hour of 10 o'clock, when the general strike went into effect. Up to that hour the streets and sidewalks were thronged with pedestrians, but as the hour struck they vanished from the streets. Almost instantly the tide of automobiles thickened, and residents of distant parts of the city begged rides from their friends.

Strike Kitchens Opened.

Simultaneously almost every cafe and restaurant closed its doors in obedience to the strike edict. The downtown hotels strove to serve their patrons, but in the instances where their dining service was leased, by setting tables in parlors and spare rooms. To offset Seattle's hunger the executive strike committee has opened 18 kitchens in different parts of the city.

Stations also have been opened for the distribution of milk, but order of the strike committee, in order that invalids and infants may not be deprived of their supply. Both strike kitchens and milk depots are reported to have been heavily patronized, one kitchen closing its doors late this afternoon, after serving 1500 persons and exhausting its supplies. Bread is said to be almost unobtainable.

If Seattle is to suffer on these counts, tomorrow and the next day will begin to tell the tale. For the present the public, anticipating the strike, laid in large supplies of provisions. Late Wednesday night the cars were crowded with parcel bearers.

Radicals to Be Repressed.

Should radicalism lift a hand it is the announced intention of Mayor Hanson to repress it by force, even to the point of shooting to kill. Declaring that he would not resign in such a crisis for \$2000 a day, and willing about to order the flag at full mast on the City Hall, Mayor Hanson gave every evidence of confidence to cope with the situation.

"The citizens of Seattle are not in sympathy with the sympathy strike," said Mayor Hanson. "It is my belief that 75 per cent of the people of Seattle feel that this sympathy strike is foolish, silly and almost criminal. At the same time the people of Seattle feel that the minimum wage for the lower paid workmen is not high enough.

"We are in a peculiar position. The union men of Seattle are striking against 400,000 residents of this city who have no right nor authority whatever to grant them their demands, even if all were willing.

Seattle Residents Unaffraid. "This strike was brought about because of similar strikes in Belgium and Switzerland won for the strikers, under different conditions. This is a small rebellion and not a strike. Germany did not frighten Belgium, and no one in Seattle is frightened.

"As Mayor of the city I will enforce the law. The chief of police is at City Hall. We have 1000 police and extras. All will fight to the finish to preserve order. If violence ensues I know who will grant them their demands. I will function as long as I am Mayor and Joe Warren is Chief of Police.

"Union labor here is about 90 per cent pure. The other 10 per cent have secured more or less control and really believe that conditions in Soviet Russia may be brought about in this country. To such as these, I say, whether in Portland, or Seattle, Beware. This is a government by majority. When ever anyone gets a majority thinking his way he can enact laws and elect officials. Until that time, the minority must abide by the decisions of the majority.

"Shoot on Sight" is Edict.

"We will suppress disorder with an iron hand. Our captains of police are ordered to quell any disorder, no matter what the cost. If we should fail, which I hardly anticipate, the Government still lives and troops will be called.

"To the I. W. W. and Bolsheviks," exclaimed Mayor Hanson, "I say that any attempt on their part to bring about by force an overthrow of government will mean their immediate death. I shall give orders to shoot all rioters on sight."

That there is an element, and a strong one, in the army of strikers which holds that the day of revolution is at hand, and that the general strike in this city is its first stroke in America, is variously evidenced.

BREW THIS TEA FOR BILIOUSNESS

Costs next to nothing, yet keeps bowels in fine order and ends constipation.

The head of every family that values its health should always have in the house a package of Dr. Carter's K and E. Tea. When any member of the family needs something for a sluggish liver, sick headache, or to promptly regulate the bowels, simply brew a cup and drink it just before bedtime. It's an old remedy, is Dr. Carter's K and E. Tea, and has been used for years by thousands of families, who get such good results from its use that they have no desire to take anything else. Give it to the children; they will like it and it will do them good.—Adv.

ants have been assigned to the truck.

Motorcycle police were instructed to watch sharply for offenders who might possibly spread tacks on the streets to puncture automobile tires. For several days stories of enormous sales of tacks for this purpose have been circulated here.

Steamship Operators Worried.

A statement issued by the strike committee of the Central Labor Council, which is directing the strike, said the walkout was a success. All lines of industry in which union men are employed were crippled, the statement said.

Steamship operators and others were worried over the handling of fresh fish shipments due from Alaska, and fruits and vegetables coming from California, because of the strike of the longshoremen, who, defying their international officers, have virtually tied up coastwise and offshore traffic. Vessels coming here to discharge, it was said, would be diverted to other ports nearby.

Two Japanese Steamers, the Hozan Maru and Mandan Maru, were ordered to San Francisco to load cargo for the Orient.

The strike was called at the scheduled time, 10 A. M. First reports from the downtown section said union streetcar men started their cars for the barns at 10 o'clock. Union elevator operators in all the large buildings abandoned their cars, and restaurants closed their doors when their union cooks and waiters left.

Most of the city stores announced they would remain open as long as their shelves are empty they will be unable to replenish them, as the truck drivers were among the strikers.

Telephone operators remained at their posts, according to reports.

Today's general walkout was called by the Seattle Central Labor Council, as a sympathetic move to help shipyard workers, who, numbering about 25,000, closed the big Seattle shipyards by striking January 21 for higher pay.

Agreement Declared Broken.

The shipyard workers, who are affiliated with the Metal Trades Council, asked that mechanics be paid \$3 a day and helpers and laborers \$7 and \$6 a day. The Metal Trades members made their demands when they announced they were dissatisfied with the findings of a Federal wage adjustment commission known as the Macy Board.

Chehalis Has Weddings.

CHEHALIS, Wash., Feb. 6.—(Special.)—W. E. Kelley, of Olympia, and Frances Brown, of Grand Mound, secured a marriage license here. Justice Beaufort performed a marriage ceremony for them. Also Miss Josephine Bartholomew, daughter of Mr. and Mrs. B. A. Bartholomew, and a well-known Chehalis girl, was married to Mr. Lee Buzzard, a well-known young man from Aberdeen.

City Schools Are Closed.

No disorder has resulted from the strike. Mayor Ole Hanson declared he did not expect any trouble or disorder, but said the city government was

TROOPS SANCTIONED BY BAKER

Action Is Taken Following Information from Strike Center.

WASHINGTON, Feb. 6.—Sending of troops to Camp Lewis to Seattle was authorized by Secretary Baker, who had been advised by the Governor of Washington of the situation there due to a general strike. The center was directed to furnish whatever military assistance and protection the state authorities might request. War Department officials said that under the law the department was required to furnish such protection as might be necessary. The department message from the Governor of Washington did not ask for assistance, but merely outlined the situation.

Klickitat Controversy Settled.

GOLDENDALE, Wash., Feb. 6.—(Special.)—In the legal controversy over the office of engineer for Klickitat County in the Superior Court, Judge Darch has ruled that under the constitution of the state Clyde Spalding, appointed by the old board of County Commissioners in December, is entitled to hold the office until his successor is elected and qualified.

Theaters Last Hour Longer.

LONDON.—With the abolition of the lighting restrictions, West End theaters are opening and closing half an hour later than has been the case during the past year.

DEEP SIGNIFICANCE SHOWN

WRITER IN DAILY PRODUCE NEWS SCORES ANARCHIST.

Public and Organized Labor Called Upon to Recognize Peril of Situation.

(Otto A. Sawyer, in Seattle Produce News)

Eight months ago there landed in the United States a Russian by the name of Leon Greenovitch, direct from the hot-bed of anarchy, delegated by the Bolshevik to start something in the United States.

An electrician by trade, a hell-maker by profession, he chose the fair city of Seattle for destruction because there were others of his ilk already here preying upon a tolerant and long-suffering public for support and life.

Seeking employment in the shipyards, working under the cover of necessity in the holding of ships for the carrying of men and supplies destined to free the downtrodden of the very countries from which he sprang, he spread his poisonous doctrine to the minds of sufficient of his ilk to draw into the maelstrom of strife men who were earning their living by heretofore honest vocations.

Today this creature, through the influence he has over his satellites, tells us what wheels shall turn, tells us our streets shall be laid, tells us that only our babes and invalids shall have milk, tells us our homes shall be cold for the want of fuel, and our stomachs empty for the want of food.

In this labor trouble we have no part, but in order to produce the Daily Produce News, the services of union men must be obtained. Some of these men have used the judgment and foresight to stay at their stations, but are unable to turn their hand because the machinery of production stands lifeless for the want of power, and their work cannot be done for the want of light.

This struggle, for it is a struggle, has a deeper significance than a fight with the ranks of organized labor, or a quarrel between organized labor and the public. The question for the public to settle it, will it submit to the blood-red hand of anarchy without a measuring of its strength, and for organized labor, will it stand complacent to
